Male, B/W Border Collie, 2yrs 6mths
Working Description: Paddock and cattle, moderate experience and training. To be demonstrated on cattle.	
Video Web Link: https://vimeo.com/manage/videos/617976074	
Registration: Eligible at vendor's expense.	
Vendor Comment: Over the last 18 months, Lewy has had moderate training and a limited amount of work. This is largely due to the size of our operation .He has received basic training of "stop, sit, stay, round and over". This was initially done with Lewy at 12-14 months old with 5 sheep and then exclusively with cattle. No further exposure to sheep however it is likely he would respond well to them as he is not a rough dog.	
Lewy's sire and grand sire are owned by Steve Skews, who does extensive property cattle work along with some cattle trials. His grand sire is high performing dog Scotty who represented Queensland four times in State of Origin cattle trials. Steve has undertaken training with Lewy twice in blocks of two weeks, once at 14 months and again at 24 months of age. Lewy showed great progress in both of these short periods. He is a quick learner who would improve even further with more work, different cattle and different terrain as he is a very easy dog to handle. Lewy has not worked cows and calves or faced up to wild or tough cattle. He is suitable for big yard work as he has a calm presence.	
I believe Lewy has the ability to find cattle. From 12 months of age it was not unusual for him to accompany me doing farm work, only to have him disappear and go to the nearest cattle to bring towards me. This trait has tempered with age. Lewy is very comfortable working with other dogs and shows more aggressive work tendencies when doing so.
