Dear Breeders,

Well finally after several severe drought years and continuously feeding, the last twelve months are turning around and hopefully we can look forward to average seasons for the coming twelve months. 2020 will go down as the year everyone wants to forget and for us here at Dungary it was just do what we do, breed sheep and improve the property.

Dungary recorded 965 mm rain for 2020, we only joined once for a late winter lambing with lambing percentages up to 120% and rejoined to lamb again in March. Our new perennial tropical grasses mainly Digit under sown with hard seeded legumes that survived the drought flourished in Autumn and Winter and set a seedbank for coming years.

We were lucky to sow oats in between the rains in Autumn and baled just under 500 round bales and were meant to harvest the remainder, however, severe wind knocked the grain out two days before header was due, so will try again this year.

We welcomed home son Jack and partner Isa, finally after their epic battle to gain flights from Europe and spending Xmas in quarantine in Perth. They are now both at home at Dungary and will be fully involved in the day to day running of Annalara White Dorpers and Dungary.

This sale we are also offering a selection of flock ewes both Ultra White Composites and White Dorpers for the growing demand for restocking.

Thank you for supporting Annalara White Dorpers and we wish you happy breeding with your purchases.

Breed more Lambs,

Steve, Family and Annalara White Dorpers
