Goolagong Welcome

Welcome to Goolagong for our fifth annual Santa Gertrudis and Angus stud on-property sale at Warnertown.

This year has been a testing year for everyone; both challenging and rewarding. We have received above average rainfall in most regions of South Australia and we have watched as Santa Gertrudis cattle prices have reached record highs. The COVID-19 pandemic has taught us how to continue to quickly learn and adapt to conduct our business and to be patient with that process.

We will be holding our Beef Week Field Day on Monday, February 8, 2021 at our South East property, Fernbank for your inspection or you are welcome to give Heath a call to arrange a time that suits you.

This year's Santa Gertrudis draft will contain sons of our proven sires, Waco Monte, Wave Hill Larikan, Glenn Oaks Jumbo Bwana and Diamond H Red Foo.

The Angus draft will contain sons of some extremely exciting sires; from Pathfinder Docklands, Pathfinder Emperor and Black Diamond Complement.

Our stud has continued to incorporate the latest technologies in artificial insemination (AI) and embryo transfer (ET) programs this season. This has given us the opportunity to use the best

genetics possible, to produce bulls with elite traits and characteristics.

This year we have adapted the technologies of genomics testing on our Angus herd. When combined with pedigree and performance information, genomic information adds an additional source of information for the calculation of Angus Breedplan estimated breeding values (EBVs), enabling the generation of EBVs with additional accuracy, and ultimately enabling more accurate selection decisions to be made. As well as raw data figures for daily weight gain and scans for eye muscle area and fat score. All bulls are semen and vet tested by our veterinarian Mike Boerema, from Embryo Transfer Services of SA. Our aim is to provide paddock reared fit and healthy bulls, so buyers can be confident in their purchases.

We are going to be interfaced with AuctionsPlus for the first time at our 2021 sale. All our bulls will be photographed and videoed for your inspection. These will be available on our website, socials and with QR codes in our catalogue - providing an instant link to click on to watch on your smart device.

We wish to extend a warm welcome and look forward to seeing you on sale day.

Heath & Brian Tiller

Goolagong History

Breeding quality beef is something that comes naturally for the team at Goolagong Santa Gertrudis and Angus studs at Warnertown, with Brian and Heath Tiller being involved with beef cattle their whole lives.

Goolagong stud was established in 1979. Heath & Brian are fourth generation grain, beef & lamb producers. The stud has been through several changes since it purchased the original 17 Santa Gertrudis cows, three heifers and bull in 1979, and over the years Brian and Heath have worked hard to introduce the right bloodlines to improve the herds confirmation, growth for age and fertility.

The stud is continuously improving the quality of its herd by adhering to the Santa Gertrudis breed standards and showing cattle at various country shows, the Brisbane Ekka and the Royal shows in Adelaide and Sydney.

Some of the stud's top achievements include selling bulls in Queensland to the top price of \$36,000 and just recently selling a top prized heifer for \$19,500 at Santa Central's inaugural female sale.

Each year Goolagong holds its on property bull sale selling about 80 bulls to buyers all over Australia.

The stud expanded its beef cattle operation in 2014 by forming its Goolagong Angus stud. An opportunity arose from a well-respected Angus stud to purchase some good quality angus stud females.

By using some of the leading genetics throughout Australia with AI, ET and standing sires, the stud aims to produce cattle that have exceptionally good phenotype, that are structurally correct and have good figures to back them up.

Goolagong aims to breed bulls with low birth weight, high growth rate and are structurally correct bulls and females which are true to type and good skin.

STAR BREEDER PROGRAM

BUY WITH CONFIDENCE

The **STAR BREEDER** program aims to maximise the reproductive integrity and health of stud and commercial stock.

A STAR BREEDER certified animal has been:

- ✓ Tested to show that they are not Bovine Viral Diarrhoea Virus (BVDV) Persistently Infected (PI) animals
- ✓ **Vaccinated against Pestivirus (BVDV)** to ensure they are protected from the effects of this infection
- ✓ **Vaccinated against Leptospirosis**, a reproductive disease and potential WH&S risk for cattle handlers
- ✓ **Vaccinated against Vibriosis**, a sexually transmitted cattle disease

You can be confident that every step has been taken to ensure these animals will not introduce preventable reproductive diseases into your herd. For more information talk to your Zoetis Cattle Representative, call **1800 963 847** or visit **starprogram.com.au**
