THE SMART START FOR YOUNG CATTLE.

What does an extra 5kg/head mean to you?

That's the difference making the smart choice for worm control in young cattle can have on productivity!

In a recent, multi-farm, study, weaners treated with Eclipse® - Australia's only dual active, broad spectrum pour-on - gained on average 5.1kg more than those treated with a single active ML over a period of 90 days¹.

For effective worm control in young cattle, choose your drench with confidence. Choose Eclipse for smarter productivity.

BONNYDALE'S SUCCESS BUILT ON OUR CUSTOMERS SUCCESS

Welcome to Bonnydale's **Twenty Fifth** Annual On-Property Bull Sale. This milestone occasion will be a celebration of the stud's loyal and expanding customer base. Without the strong support from our customers Australia wide, the Bonnydale program would not be as successful as it is. It is humbling to note that our loyal band of sale sponsors brought it upon themselves to create a generous prize for the **Lucky Buyer of The Past 25 Years**. To add to this Elders and our family are providing a \$5,000 cash prize to the Lucky Buyer on the day to be drawn at the completion of the auction.

Over the 25 years Bonnydale has developed a strong reputation as a trusted seedstock provider because our bulls have genetic credibility through a structured approach to individual animal identification and meticulous collection of performance data. It is simply a case of cattle sense combined with science to deliver a superior genetic package. A key ingredient this trust has been built on is our **"No Sale Credit Policy"** which we continue to utilise. Add to this DNA Parent Verification, Genomic EPD's and the recording of a significant amount of data and unrivalled after sales service it is obvious that the integrity of the Bonnydale brand is paramount.

Testament to the performance of Bonnydale genetics is the outstanding results customers achieved for their Bonnydale sired Simangus weaners during November and December's Boyanup weaner sales. Each week well-presented Bonnydale sired Simangus weaners featured amongst the top prices with competition fuelled by the growing demand from feedlots, grass fatteners and increasingly breeding heifers, for these high performance Simangus weaners.

Our focus continues to be emphasising how the Bonnydale program can enhance profitability by breeding better cattle that are born easily, grow fast and efficiently, make great daughters that last a long time and produce a calf every year and deliver progeny that hang an outstanding carcass.

That to us is what it is all about.

Simangus calves reliably perform in the feedlots or on grass with better growth, better structure and fewer health problems. They add kilos without sacrificing marbling offering a better bottom line.

We have had many reports from our customers saying that when they sell weaners, their Black Simmental and Simangus sired calves have superior temperament and deliver more muscle and more kilos at weaning than straight British calves. While Bonnydale sired steers are renowned for their performance, it is the Simangus females which are attracting increased attention. There is no substitute for the benefits of hybrid vigour, but the true value lies with maternal hybrid vigour. The enhanced longevity and reproductive efficiency that maternal hybrid vigour brings to the table should not be underestimated. The Simangus cow sets the bar for fertility, longevity, docility, weaning weight and exceptional calving ease and is suited to any environment. **She is close to the perfect cow.**

We have stayed in the seedstock business by focusing on making our customer's money. Our number one goal is to improve the profitability and sustainability of our customers businesses. We believe if we can achieve that through profit focused genetics and superior service our customers will continue to support the Bonnydale brand. By choosing Bonnydale as your trusted bull provider you stack the deck in your favour by adding pay weight and carcass value to your calves.

Bonnydale's milestone 25th Annual On-Property Bull sale will feature 81 outstanding Black Simmental and Simangus sires with proven, powerful and predictable genetics backed by science and data. All bulls are DNA Parent Verified and have Genomic Enhanced EPD's. The offering is strongly influenced by an elite herd of cows Bonnydale has developed with strength and consistency of type which becomes obvious upon inspection of the line-up. Coupled with a powerful sire group the eighty-one bulls being offered would be the envy of any Australian seedstock business.

We could say that the 81 bulls on offer have outstanding temperament, structural integrity, sleek coats, excellent muscle and marbling with good even fat coverage, powerful growth and built-in calving ease but instead let's just say they are bloody good profit boosting bulls.

2019 - INTROVIGNE FAMILY
 Back; Tyson, Julie, Nathan,
 Stella, Rowen, Cora & Diane.
 Front; Mike, Rita & Rob.

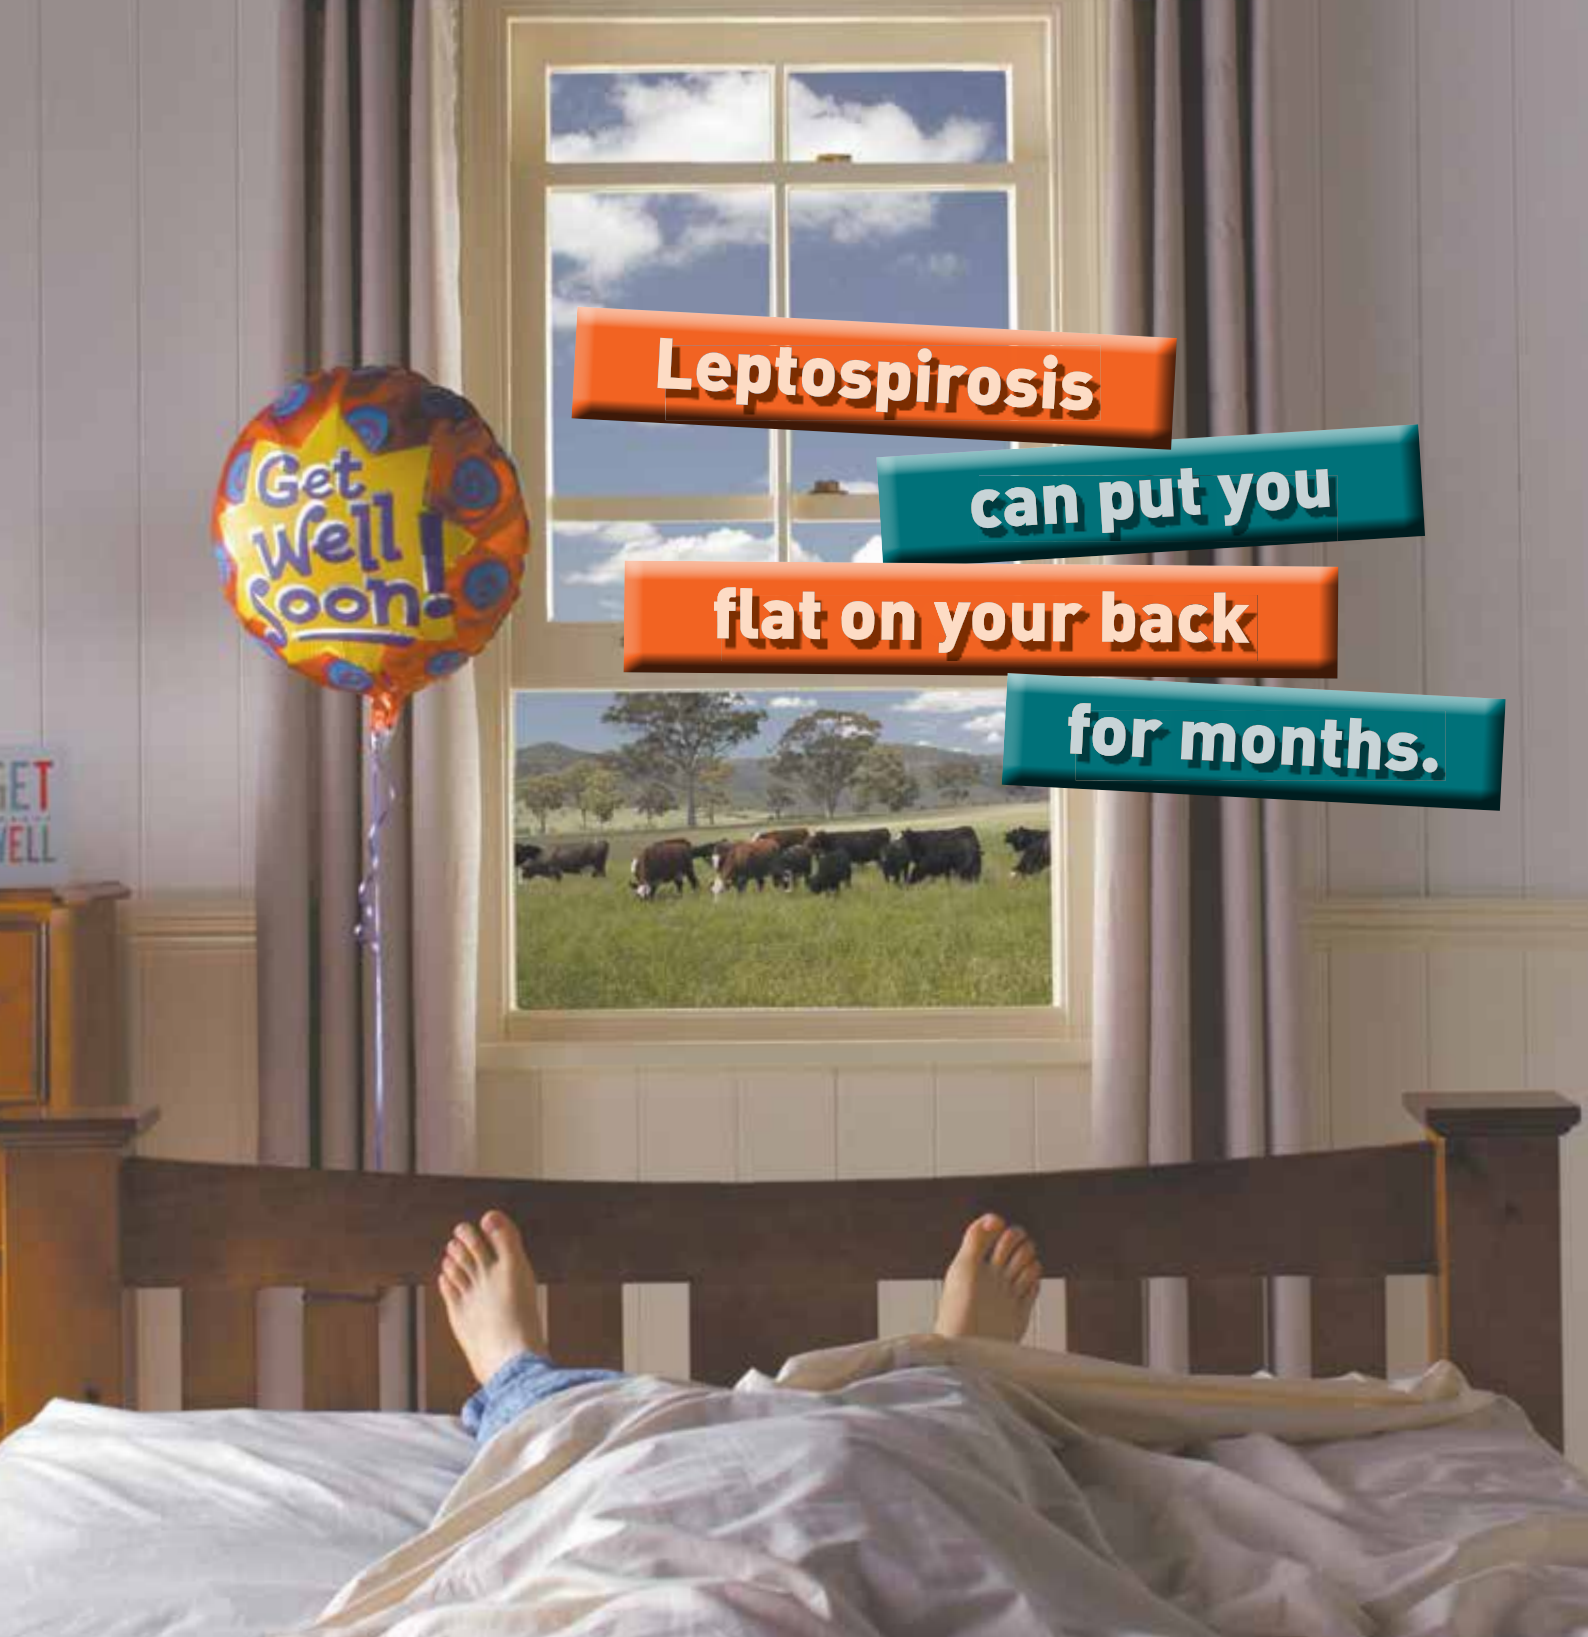

The offering will feature six outstanding ET bred sons each from new sires CLRS Dividend 405D and Gibbs 3009A Element. These are the only Dividend and Element sons to be offered in Australia. We highly regard the progeny of these two sires and have retained two Dividend sons and one Element son for stud duties as well as retaining a semen share in another Element son being lot two.

Bonnydale sires to feature include perennial favourite RCR Augustus R54 with three outstanding sons being offered, Augustus has left a profound legacy on the herd. The Australian Simmental powerhouse Bonnydale Augustus L84 (Lincoln) will have six sons on offer. L84 genetics are in strong demand from Simmental breeders Australia wide and we are fortunate to have been able to buy him back from Wombramurra and he now resides at Kingaroy, Qld.

Bonnydale Nukara, the son of L84 who now resides at Woonallee Simmentals has 9 exciting sons on offer including 3 selected heifer bulls.

Bonnydale Nashville and Bonnydale Nevada between them have 10 exceptional sons offered. Bonnydale SA Matauri has six powerful Simangus sons on offer. Bonnydale Prime Cut by CCR Cowboy Cut has nine outstanding sons catalogued. Bonnydale Patriot has five Simangus sons on offer and Elite Angus sire Millah Murrah Klooney K42 has an excellent line-up of four Simangus sons with three being suitable for heifers.

We look forward to seeing you on this special occasion of our 25th sale. On Monday 8th March bulls will be penned for inspection.

Leptospirosis

can put you

flat on your back

for months.

Most beef producers know leptospirosis can damage the performance of their herd, but many forget it can also make people extremely ill as well. If you pick up lepto when handling cattle, you could be out of action for months with severe flu-like symptoms that often develop into an ongoing chronic fatigue like illness.

Who would look after your property if that happened?

Protect your herd, your family, employees and yourself.

Vaccinate your cattle with Ultravac® 7in1.*

Protecting much more than cattle.

*See product leaflet for details of administration and product claims. For more information talk to your Zoetis Cattle Product Specialist on 1800 814 883. © 2013 Zoetis Inc. All rights reserved. Zoetis Australia Pty Ltd

BONNYDALE BLACK SIMMENTALS - THE DEPENDABLE BRAND

Integrity

1. Every animal is registered with Simmental Australia and the American Simmental Association.
2. Records taken for Calving Ease, Birth Weight, Weaning Weight, Yearling Weight, Docility, EMA, Fat, IMF& Mature Cow Weight.
3. All sale bulls Zoetis Star Accredited.
4. All sale bulls semen tested and breeding soundness examined by an accredited vet.
5. No sale credits utilised ensuring every prospective purchaser is on a level bidding field.
6. All bulls covered by our comprehensive guarantee and after sales service program.

Innovation

1. The first Western Australian seedstock operation to offer yearling bulls to benefit the industry. All bulls sold as yearlings.
2. Offering free delivery Australia wide.
3. Utilisation of additional science to back every animal bred at Bonnydale (American Simmental Association's massive data base).
4. Utilising a partnership with Altenburg Simmental Ranch, Fort Collins, Colorado, USA to provide industry leading genetics.
5. Utilising Genomic testing to enhance performance data - all bulls offered with Genomic Enhanced EPDs.
6. Every stud female DNA tested with ASA's CHR program to improve cow herd genetic predictability.

Investment

1. Imported embryos from Altenburg Simmental Ranch with leading USA genetics utilised on an ongoing basis.
2. Purchase of semen rights to new proven sires.
3. All stud females registered with Simmental Australia and the American Simmental Association.
4. Regular visits to the USA to identify new genetics that will enhance our client's commercial operations.
5. Continued investment in animal recording technology and linked livestock weighing systems.

ROAST BEEF LUNCHEON AND REFRESHMENTS PROVIDED

BONNYDALE'S PROTOCOLS

- All bulls semen tested by Landmark Breeding Services
- All bulls to be ultra sound carcass scanned mid February
- All bulls guaranteed for temperament, structural soundness and fertility
- All bulls Zoetis Star accredited and tested negative for BVDV
- All bulls vaccinated with, 7in1, Pestiguard, Vibrovax, Longrange (Botulism), Bovillus & Rhinoguard.
- Bulls destined for Queensland will also be vaccinated free of charge for 3 Day Sickness and Tick Fever where required.

AGENTS REBATE

A 3% rebate will be paid to any Outside Agent who introduces new clients to the stud in writing to both the Vendor and their Agent 24hrs prior to the sale. The Agent must accompany and assist their client on the sale day.

FREE DELIVERY AUSTRALIA WIDE

The vendors will provide free delivery, to all mainland states, for bulls purchased at auction. The vendors will deliver bulls as soon as possible after the sale.

CSBP FERTILISERS

WS Proclamation E202

CCR Cowboy Cut
Sire of Bonnydale Prime Cut, now deceased

Bonnydale Nevada

Bonnydale Patriot

Millah Murrah Klooney K42 (Angus)

SALE DAY SAFETY DISCLAIMER

Please be advised when entering the pens people must be aware of the potential risk involved and enter at their own risk. Children under the age of 16 are not permitted to enter the pens on sale day. Visitors must use common sense when entering the pens and be mindful of all the bulls in the pen and other visitors inspecting the bulls. While all care has been taken when selecting the bulls for sale to ensure quiet temperament under normal handling circumstances they have not been accustomed to large numbers of people in their vicinity. Bonnydale and Elders staff will be available on sale day to assist you when entering the pens or to move the bulls closer should you prefer to inspect the bulls from outside the pen.

AMERICAN SIMMENTAL ASSOCIATION

QUICK REFERENCE TO ASA EPDS AND \$ INDEXES

Expected Progeny Differences (EPDs):

EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units).

Key to using EPDs is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPDs, A would be expected to sire 15-pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15-percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists.

A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org.

Listed below are the units ASA EPDs are expressed in:

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details.)

Back Fat (BF): Inches of backfat.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Marbling score.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Warner-Bratzler Shear Force (WBSF): Pounds of force required to shear a steak.

Stayability (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario. (See below for more details.)

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Yield grade score, the lower the better.

\$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your bottom line. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

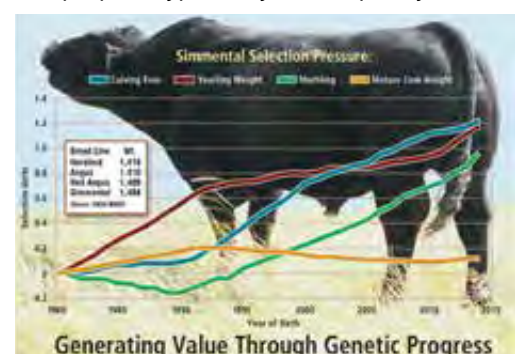

Terminal Index (TI): Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI.

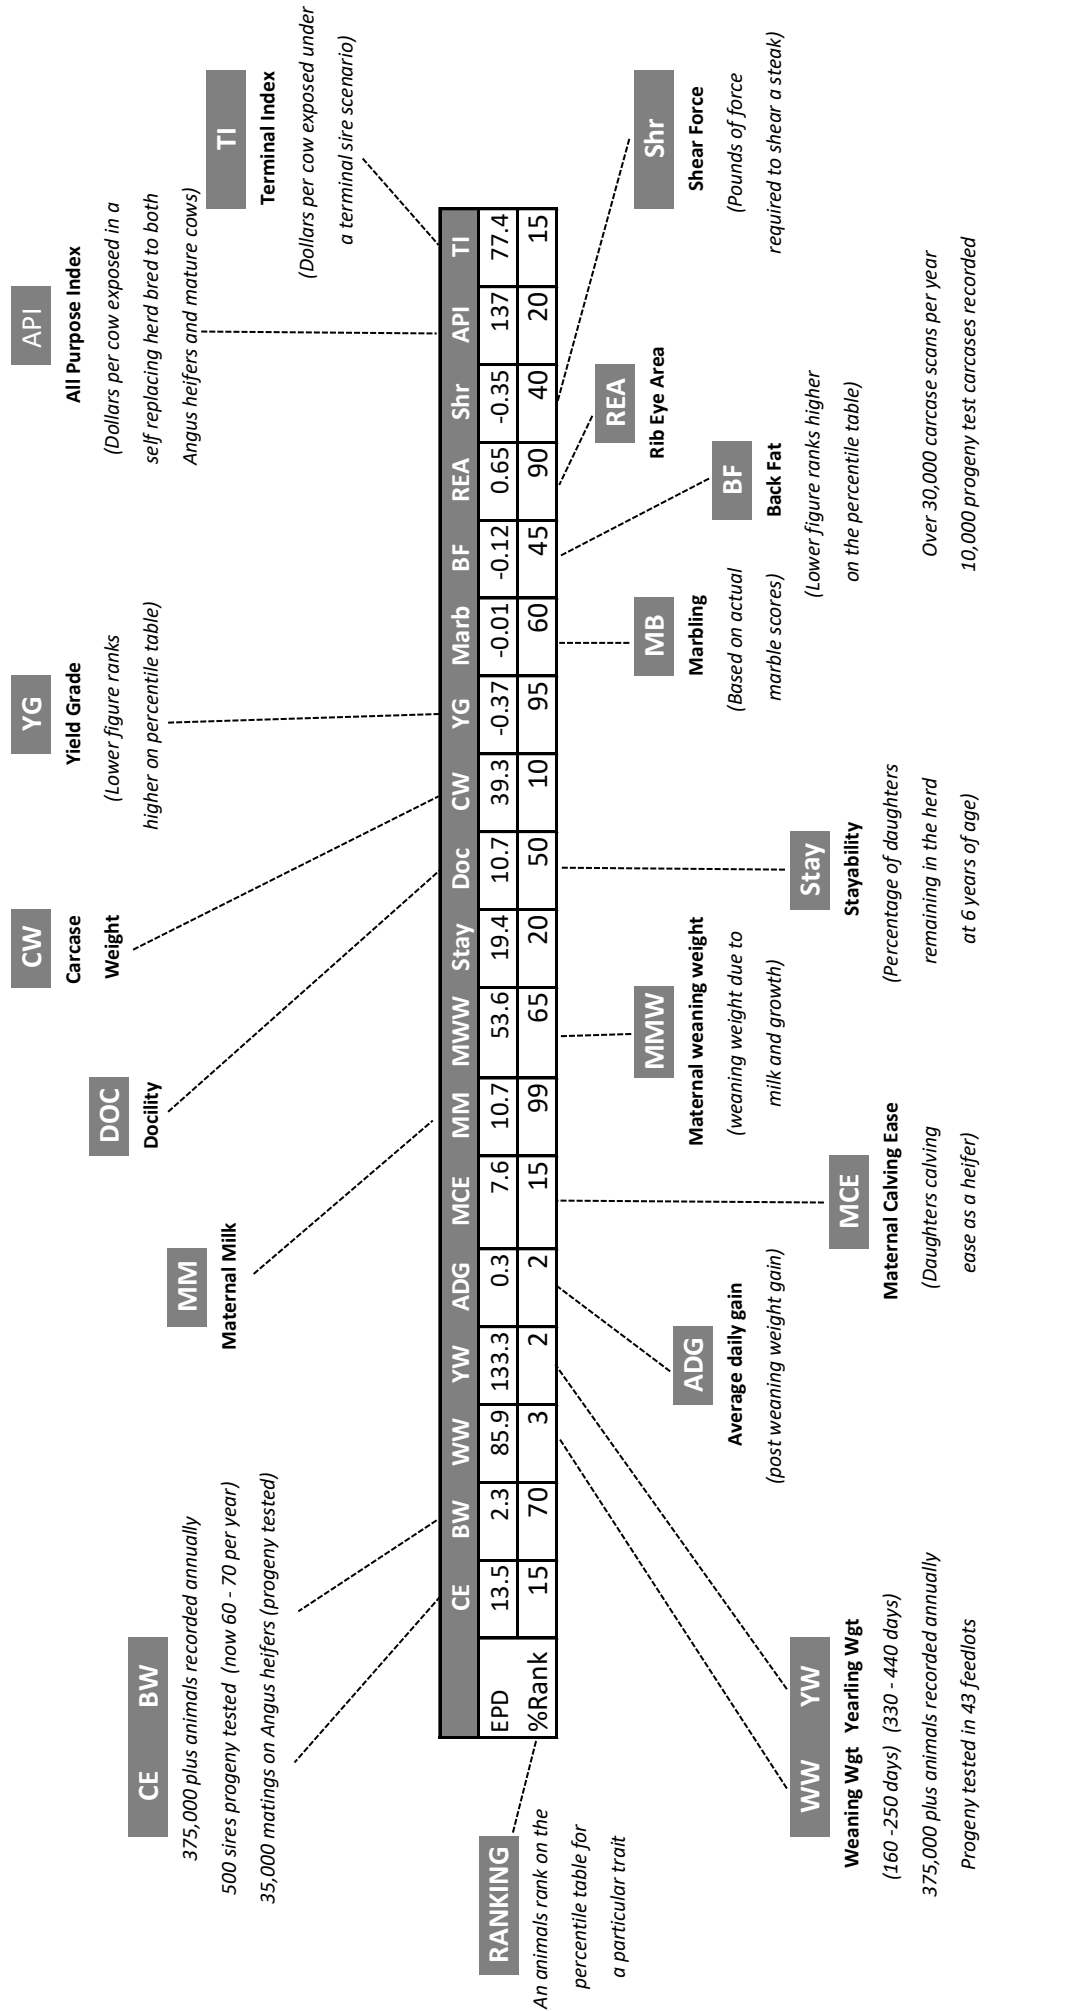

Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000).

A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org.

The genetic trends displayed right have a direct impact on the Bonnydale herd because we have chosen to exclusively utilise superior USA Black Simmental genetics.

QUICK GUIDE TO American Simmental Association EPD's

There are two percentile tables to consider, a Purebred table and a Hybrid table

Utilise the Purebred table for Purebred bulls and the Hybrid table for SimAngus bulls

All bull's EPD's are directly comparable, the percentile ranking is used to compare Purebred to Purebred and SimAngus to SimAngus

25 Years of Integrity, Innovation & Investment

JIM INTROVIGNE

Dad together with mum started the Simmental journey in 1973 and was always a passionate supporter of Simmental even when others sought to discredit the breed. In the early days he regularly topped the market with his Simmental cross milk fed calves which ultimately gained the breed the respect of his peers. Here he is pictured in his later years in charge of the lunch time BBQ. Unfortunately, he passed away before he witnessed the building of the new sale complex but we are sure he is keeping an eye on proceedings.

WILLIE ALTENBURG

In 2005 we formed an alliance with respected US cattleman Willie Altenburg, Altenburg Simmental Ranch.

This alliance and friendship is still strong in its sixteenth year and forms an integral part of Bonnydale's constant Black Simmental genetic improvement providing world class genetics to keep the Bonnydale program ahead of the competition.

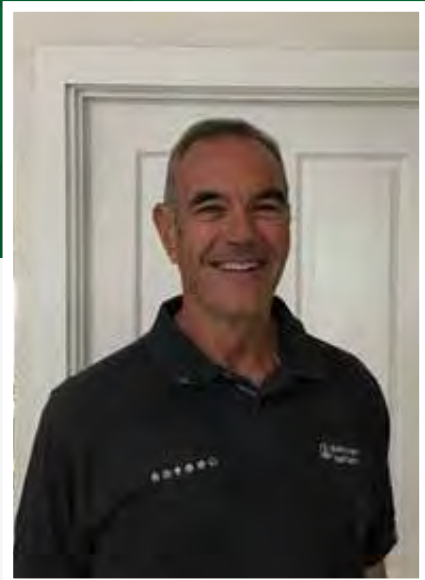

JIM & ROS EVANS

The late Jim Evans was our Elders agent when we decided to hold our inaugural bull sale and along with his wife Ros owned Richfeeds & Rural Supplies. They were the first to put their hand up to sponsor our inaugural sale and for 25 years the Richfeeds & Rural Supplies name has been synonymous with sponsoring the Lucky Buyer Prize.

Today the Richfeeds tradition continues under the stewardship of our good friends Rick & Tanya Evans.

Bonnydale Black Simmentals

RICK DERICKX

Formerly of Merial and now Boehringer Ingelheim, Rick together with the Evans family has been a constant, co-sponsoring the Lucky Buyer Prize from day one. Rick together with Rick Evans was instrumental in creating a special prize for our milestone 25th sale being the Lucky Buyer of the past 25 years.

IAN COLLIE

Ian was instrumental in assisting us to define the type of Black Simmental herd we wanted to develop. From the day we met Ian when he visited to inspect the bulls in January 2008 to his official retirement in 2019 as our Eastern States Rep his passion for our program was unwavering as is his friendship.

JAKE BERGHOFER & EMMA PATERSON AND THE CHILDREN ANGUS, LACHLAN & ELYSE

Bonnydale QLD is a partnership between Introvigne Grazing Company and JD Berghofer. The herd is managed by Jake & Emma and forms an integral part in the development of Bonnydale as a national brand.

With 1,000 breeders in WA and 1,000 in Qld and with over 800 stud females being mated in 2021 the Bonnydale herd is now well placed to service the national beef herd with elite and proven Black Simmental genetics. Jake and Emma share our philosophy for achieving our goals through hard work, patience, dedication and an unwavering and passionate commitment to our customers and the Australian beef industry.

PASCOES ACCOUNTING & ADVISORY

INTEGRITY - INNOVATION - SERVICE

Pascoes Accounting & Advisory is your locally based accounting firm with a variety of industry experience with a specialisation in Agribusiness. Our dedicated team of accountants and staff can assist you not only in your accounts and taxation preparation but in all aspects of your business with business advisory services, succession planning and access to industry relevant government subsidies and benefits.

When it comes to your income taxes we've got your total tax position covered, we'll integrate optimal tax strategies into a dynamic business plan. While your next tax return is firmly in our sights, we're focused on long term hassle free compliance. As well as making this happen, we identify tax opportunities that support your big picture goals for profitability and growth.

If you are looking for an accounting firm to give you grounded, practical, up to the minute advice on tax and business matters in your business please contact any of our offices.

LARGEST RANGE OF ROUND BALERS IN THE MARKET

NEW VARIPACK FEATURES ACROSS THE RANGE

VariPack belt baler line up consists of the standard V165(XC), V190 (XC) and Plus versions V165XCPlus and V190XCPlus, and now also includes the new V165Plus and V190Plus without cutter.

V165(XC) produces bale diameters from 0.8m to 1.65m, and V190 (XC) 0.8m to 1.9m.

Bale chamber consists of four 275mm wide endless heavy duty belts for the highest bale densities in the market.

New 3-zone bale density adjustment from cab.

Single axle with tyre size of 500/55-20 12 PR for standard models and 600/50 R22.5 for Plus models.

NEW VARIPACK STANDARD FEATURES

Single Belt Drive

Two central grease banks and new electric oiler.

EasyFlow camless pick-up with straight tine formation, 4 rows.

XC models comes standard with 17 knives with 64mm spacing with hydraulic activation of knives.

0 / 8 / 9 / 17 knives from outside of the cab.

VARIPACK PLUS FEATURES

Specialist in silage, hay and straw. High performing belt baler in wet silage.

2nd Belt drive up to 10% more density over the standard models.

Auto lubrication and electric oiler.

EasyFlow camless pick-up with W-Pattern tine arrangement, 5 rows.

XC models standard with 26 knives and 42mm spacing with hydraulic activation of knives.

In-cab selection of 0 / 13 / 13 / 26 knives, including self cleaning automation.

Baler automation to open & close chamber automatically.

PROVEN PERFORMANCE

Kubota

KUBOTA M7-2 SERIES

The M7-2 Series is Kubota's flagship – the cleanest, most advanced tractor they've ever built. The M7-2 range now offers 12 models, each with a huge variety of customisable options.

Redesigned for more power and performance, the new Kubota M7-2 still features Kubota's 128–173 hp Tier 4 engine, plus proven and versatile new transmissions in all models.

Specifically designed for the farming professional who wants a versatile and hard-working tractor, the M7-2 is powered by a next-generation 6.1 litre, four-cylinder diesel engine, incorporating Kubota's clean-air technology and available in 130HP, 150HP or 175HP with boost and industry-leading constant power and torque. Kubota's vision for a tractor that makes farming more efficient while working in harmony with the earth is now a reality. It's perfecting this delicate balance that makes the M7-2 the future of farming.

The seriously versatile Kubota M7-2 series has raised the standard for mid-sized tractors. From the entry level, powerful STANDARD models through to the precision-farming-ready PREMIUM models topped with KVT variable transmission, there is an M7-2 to suit your farming operation.

Lots Purchased _____

Total No. of Lots _____

Destination _____

Insure for (period) _____

Other instructions _____

Signature of buyer _____

Delivery Directions to Property: (please draw map on back of this slip)

INSURANCE DISCLAIMER - Insurance risk of stud animals sold at auction transfers to the purchaser at the fall of the hammer including animals remaining on the vendor's property. Purchasers therefore are advised to insure their animals at the completion of the sale. Stud Animals are not covered by commercial livestock insurance at any point.

SPECIAL NOTICE TO BUYERS

- 1) In the interest of buyers and to prevent the occurrence of mistakes, all instructions concerning delivery, trucking or shipping of cattle must be given in writing and signed by the buyer or his representative.
- 2) Instruction for despatch of consignments comprising more than one owner must be signed by each buyer, no instruction slip will be considered complete until all have signed.

NO VERBAL INSTRUCTIONS CAN BE ACCEPTED CONDITIONS OF SALE

The conditions of sale are those laid down and displayed by the selling agents.

NOTES:

In an Australian first Introvigne Grazing Company in conjunction with Elders consigned 139 Bonnydale commercial Simangus heifers to a SE Asian market. If this trial shipment proves successful it will provide a new market opportunity for Bonnydale customers.
