# STAR BREEDER PROGRAM

## BUY WITH CONFIDENCE

### Gingin Bull Sale

4<sup>th</sup> March 2021

All bulls at the sale will be STAR BREEDER program accredited. This program aims to maximise the reproductive integrity and health of stud stock.

Each STAR BREEDER certified animal at the sale has been:

- ✓ Tested to show that they are not Bovine Viral Diarrhoea Virus (BVDV) Persistently Infected (PI) animals
- ✓ **Vaccinated against Pestivirus (BVDV)** to ensure they are protected from the effects of this infection
- ✓ **Vaccinated against Leptospirosis**, a reproductive disease and potential WH&S risk for cattle handlers
- ✓ **Vaccinated against Vibriosis**, a sexually transmitted cattle disease

You can be confident that every step has been taken to ensure these animals presented for sale will not introduce preventable reproductive diseases into your herd.

For more information talk to your Zoetis Cattle Representative, call **1800 963 847** or visit [starprogram.com.au](http://starprogram.com.au)

**Notes:** Sons of Lincoln sold to \$40,000 at the recent Millah Murrah sale in NSW. Kapari is one of only 3 studs in Australia, including Millah Murrah, to be offering this bloodline. This fine, soft skinned stylish Lincoln son is evidence of why we have been impressed by the consistent structure and thickness of this breedline.

**Notes:** An outstanding young sire who has been a standout from birth, Lot 4 is soft skinned, has tremendous depth of body and is beautiful in the shoulders. Don't be put off by his higher than average birth weight EBV, as he has some seriously good growth figures, in the top 3% of the breed. Used over mature cows, he will deliver plenty of volume and depth into any breeding program.

**Notes:** Lot 36 is one of our favourites and we are not concerned by his higher than average birthweight and mature cow weight. He is a powerhouse of a bull and his high EBVs are because he is wide bodied, long and thickset. He is not an excessive framed bull. We would hate to see this style of bull being lost in the breed due to what we see as a simplistic pursuit for low birthweight bulls. Don't overlook him, he is well suited to mature cows and will stamp his mark on your breeding program, producing progeny that will have the volume and structure we are all looking for. He's in the top 1-2% for growth and yield.
