

LANGI KAL KAL ANGUS 2021 BULL SALE

AuctionsPlus™

ON FARM

10:30^{AM} MARCH 3RD

Dear Valued Customer,

Welcome to our annual bull sale, being held on property on Wednesday 3rd March 2021, commencing at 10:30am with viewing from 08:30.

What a year 2020 turned out to be! From the devastating bushfires to lockdowns and border closures, through to our “COVID normal” Christmas. Yet through all of this turmoil and uncertainty, Langi Kal Kal Angus has maintained focus on being able to yet again offer a line of quality bulls at our annual Bull Sale.

We have catalogued 40 quality bulls for this year’s sale from a range of leading proven sires from Australia, New Zealand and the United States of America.

All bulls offered have been sire verified, structurally assessed and have received their doses of Vibrovax, Pestiguard, 7 in 1, Piliguard and Multimin to ensure that they are as ready for sale as we can make them.

This year we are proud to announce that the sale is interfaced on Auctions Plus which may prove helpful for those wishing to acquire themselves one of our fine young bulls but are unable to make it Langi Kal Kal on sale day.

Should you seek further information please don’t hesitate to to contact Kahn Jantzen on 0418 847 637 prior to the sale.

Kind Regards
The Langi Kal Kal Angus Team

Langi Kal Kal Angus has earned a reputation since 1982 from many producers for our superior fertility, temperament, doing ability, structural conformation, positive growth rates and soundness of stock. Whether it be stud bulls or breeding females, we continue to improve the quality of the bulls offered to ensure that they are able to successfully meet the supply and growing demands of the ever changing industry. With a focus on being able to provide every buyer with a selection of bulls to ensure they can purchase the right bull for their needs.

Langi Kal Kal Angus has progressively invested in utilising leading AI sires from the domestic and international markets. Langi Kal Kal is operated on a commercial basis using industry best practice, and as such, is focused on providing the prisoners with education and lifelong skills to assist with their integration back into the community.

OUR ANGUS

Our annual stud bull auction is a highly anticipated event, with buyers looking to utilise both the temperament and high quality bloodline of Langi Kal Kal Angus Bulls.

Our sale bulls include stock that have been bred from premium quality Artificial Insemination (AI) reference sires from around the world, as well as our own premium quality studs on location. A full list of this year's stock can be found on the following page of this catalogue.

When you purchase Langi Kal Kal Angus, you can be assured that you are receiving a bull of quality with a bloodline that has been enhanced over the decades to add benefit to your breeding programs for years to come.

REFERENCE SIRES

Once again this year's Angus Sires have been sourced from the very best that the breed has to offer from both Australia, New Zealand and the United States of America. Calving ease, growth, carcass orientated, balanced performance and phenotypic sires are represented within these pages. Our aim is to add value to your breeding program by achieving the non-negotiable foundation traits right from the beginning of your journey.

FEATURED SIRES INCLUDE

- Te Mania Emperor
- Landfall Keystone
- Deer Valley All In
- Millah Murrah Hallmark
- Sydgen Black Pearl
- Karoo Knockout
- Clunie Range Legend
- Clunes Crossing Dusty
- Innesdale Monarch
- Langi Kal Kal in-house sires

PLEASE NOTE THAT STRUCTURAL TABLE IS NOT IN LOT ORDER

STRUCTURALS

Structural problems in cattle have a substantial effect on both the reproductive and growth performance of a beef herd. It is widely recognised that structural problems in sires have detrimental effects on conception rates, calving patterns and thus profitability. Similarly, females with inadequate structural characteristics are more prone to weaning lighter calves or conceiving later in the breeding season than their more functional counterparts. These structural problems are filtered through the supply chain resulting in reduced income for the producer, feedlot and thus reducing the overall productivity of the Australian Beef Industry.

Over the two decades, use of the Beef Class Structural Assessment System in the seedstock industry has produced a marked improvement in herds which have shown commitment to using the information appropriately. Through these dedicated breeders, there has been a flow on effect of structural improvement throughout all sectors of the beef cattle industry. This structural analysis has allowed the formation of structural EBV's which are gaining momentum within the industry.

Liam Cardile of 'BEEFXCEL' structurally assesses many of the leading seedstock herds in Australia. 'BEEFXCEL' is not involved in any genetic marketing or specific breeding advice and therefore has no conflict of interests to influence their stock appraisal. The integrity of the structural data provided by 'BEEFXCEL' is recognised throughout the industry as Liam is a fully independent assessor.

LANGI KAL KAL STRUCTURAL PROGRAM:

The 2019 'LANGI KAL KAL' Sale Bulls have been independently structurally assessed to maximise the quality of stock on offer. Any animals deemed inadequate have been removed from the sale draft. The 'Langi Kal Kal' sale bulls were assessed by Liam Cardile of BEEFXCEL in November 2020.

Langi Kal Kal are additionally structurally assessing the female herd to help maintain and optimise the structural soundness of the herd. Please contact Liam directly if you wish to discuss the assessment system or hear an independent appraisal of the Langi Kal Kal herd.

HOW TO USE THE BEEF CLASS STRUCTURAL ASSESSMENT SYSTEM

The Beef Class Structural Assessment System uses a 1-9 scoring system;

- A score of 5 is ideal. (Note: Temperament Score of 1 is preferable)
- A score of 4 or 6 shows slight variation from ideal, but this includes most animals. An animal scoring 4 or 6 would be acceptable in any breeding program.
- A score of 3 or 7 shows greater variation but would be acceptable in most commercial programs. However, seedstock producers should be vigilant and understand that this score indicates greater variation from ideal.
- A score of 2 or 8 are low scoring animals and should be looked closely before purchasing.
- A score of 1 or 9 should not be catalogued and are considered culls.

TAKING DELIVERY

To help your new bull or bulls settle into their new home as well as possible, the following points may be of some help.

- Langi Kal Kal bulls are run in mobs so they always have mates around.
- It's a good idea to have some of your cattle in the yards when the bull arrives. A mob of steers, some PTIC cows or even an old bull - something to keep him company as he surveys and settles into his new environment.
- All Langi Kal Kal cattle are handled quietly, confidently and often. They are always treated with respect and by doing so our cattle respect us. The offered bulls have not been worked by horses.
