DUNROAN SHORTHORNS

ESTABLISHED 1953 ~ THE HOME OF TASMANIAN CHAMPIONS

WELCOME

Welcome to the 2021 Dunroan Production Sale. Dunroan has been the home of a multi-generational Shorthorn cattle producing enterprise for near on 100 years, we proudly have on display some showing certificates from showing successes dating back to the 1920's. With the ill health and unfortunate passing of Dick in 2018 and Jill in 2020 we have seen the passion for cattle breeding pass onto our youngest family members and it is with thanks to Catie that we have this offering to present to you. These are definitely exciting times for cattle producers, with record prices week after week, however we present to you foundation cattle that concentrate on the basics, good frame, good feet, easy doing, well-muscled and the right temperament to make handling a pleasure.

We have a small offering of 7 bulls and 6 stud females.

We are proud to offer 7 bulls:

5 x 2-year-olds and 2 x 13-month-olds

These represent the genetics we are using at present Nagol Park ELMT Lotto, Sprys Double Barrell and AI sires Hill haven Firestorm and Sprys Boom Time. These bulls are structurally correct and reproductively sound. All the bulls on offer in our sale have been semen tested by Damon Englund of Deep Creek Cattle Services.

The stud females selected for this year's sale have been drawn straight from the heart of our herd with much difficulty. The cow and calf is an outstanding female with a young roan bull calf at foot showing loads of potential. The 5 unjoined heifers epitomize the future direction of our breeding program is taking. Our loss is your gain.

We thank our previous cattle buying clients for their continuing support and repeat business.

Yours sincerely,
The Loane Family

Dunroan Priscilla is simply impressive, the best cow to come out of the P heifers. With a tidy udder and clean feet, she's built to last, and built to breed. She has an attractive roan bull calf at foot by Dunroan Picasso.
