REPORT ON EXAMINATION

Owner: Baldrige Wagyu
Patient: Wagyu Bull
ID: CCC QF1300

At the request of Rick Hunter I visited the Wagyu bull identified by ear tag CCC QF1300, at "Kaludabah", Mudgee, NSW 2850, on Monday the 3rd May 2021.

I performed a physical examination of the bull's external reproductive tract & his general physical health and conformation. His Scrotal circumference was measured at 34.5 cm.

Semen was collected by electro ejaculator and examined under the microscope. A creamy white sample was collected which had progressive motility 75%.

I found the bull's reproductive tract normal. I found him to be healthy.

Yours sincerely,

Dr Steve Slack-Smith B.V.Sc. NSW V5842
Mudgee Veterinary Hospital

REPORT ON EXAMINATION

Owner: Baldrige Wagyu
Patient: Wagyu Bull, Red
ID: CCC FQ0305

At the request of Rick Hunter I visited the Wagyu bull identified by ear tag CCC FQ1303, at "Kaludabah", Mudgee, NSW 2850, on Monday the 3rd May 2021.

I performed a physical examination of the bull's external reproductive tract & his general physical health and conformation. His Scrotal circumference was measured at 34.5 cm.

Semen was collected by electro ejaculator and examined under the microscope. A creamy white sample was collected which had progressive motility 75%.

I found the bull's reproductive tract normal. I found him to be healthy.

Yours sincerely,

Dr Steve Slack-Smith B.V.Sc. NSW V5842
Mudgee Veterinary Hospital
