Welcome

We would like to welcome everyone to our 2nd Fairfield Charolais Bull Sale to be held at Winton.

We are proud to present to you this quality, mostly poll, great temperament line-up of over 40 bulls. As we have stated before the extra kg gained from Charolais infused cattle crossing over most every breed is indisputable. Fairfield clients regularly top weaner sales at Roma and other districts, obtaining top end of grid rates with plenty of fat cover and extra weight for age. We have been now selling bulls over large areas of Qld for nearly 20 years.

We sold almost 50 bulls at Winton in July 19 (missed last year because of drought) and it is pleasing to hear the feedback from Winton clients on how well our bulls have stood up generally throughout the district.

We have been approached this year by Rod Binny of Glenlea Charolais to include 11 quality bulls in our draft, we are happy to give him this opportunity and wish him well with the sale.

All bulls have been scanned, semen tested and had all necessary veterinary examinations prior to sale. All their vaccinations are up to date which include:- 7 in 1, Vibrio, BEF, 3 Germ Blood, AD&E and B12.

Our bulls have deliberately not been overfed as to have them in a sound working condition to turn straight out into the cows without needing to let them down (fat overfed bulls prefer the shade of the trees rather than the company of a cow.)

It is so pleasing to see most areas of Qld having a reasonable to good season and on the back of exceptional cattle prices, finally we as producers, are reaping some rewards. Let's hope with better seasons, low interest rates and low cattle numbers that this trend in the cattle market will continue for some time.

Interested buyers who wish to purchase bulls, should feel confident as all bulls are fully guaranteed both in fertility and structurally. We invite you, past and new clients, to come into the sale to meet, catch up and enjoy the day out, including some refreshments.
