3% rebate to stock and station agents nominating buyers, personally attending the sale (or facilitating the purchase and nominating the buyer 24hrs prior to the sale) and settling accounts within 7 days.

The sale will be conducted exclusive of GST
PLEASE BRING THIS CATALOG TO THE SALE

2021 SALE INFORMATION

INSPECTIONS: Open day on property, Saturday 3rd of July at 10am-3pm. Welcomed from 10.30am on sale day or prior to sale by contacting vendors, Lachlan & Kate James, on phone 0402 839 373.

REBATE: 3% on bulls to outside agents nominating buyers, personally attending the sale (or facilitating the purchase and nominating the buyer 24hrs prior to the sale) and settling the account within 7 days. This will be strictly enforced.

DELIVERY: Delivery will be given at the completion of the sale.

BUYER'S INSTRUCTION SLIP: Must be completed by all successful purchasers and registered with the selling agent prior to delivery.

TRANSPORT: Wallawong Premium Beef are again offering generous transport assistance (further details next page).

TRANSFERS: All registered lots will be transferred to the respective purchaser free of charge.

HERD HEALTH: The Wallawong herd is TB and Brucellosis free. The herd held an MN2 protected accreditation as part of the now defunct Johne's Market Assurance Program. We have a vet overseen biosecurity plan in place and hold a JBAS score of 8, with our latest negative faecal test conducted in June 2018. and results pending for our 2021 tests. With the ever changing WA government regulations, any intending WA purchasers need to make their own enquiries regarding WA entry eligibility.

- All bulls and females have been vaccinated against Clostridial diseases and Leptospirosis in May/June 2021. They have also been treated against internal parasites in May/June 2021. Furthermore, all bulls were vaccinated against Vibriosis and Three-Day Sickness in May/June 2021.
- All bulls and females have been vaccinated with 3 germ 'tick fever' vaccine for direct entry into ticky country.
- All bulls and females have been hair tested negative for PI pestivirus.
- All bulls have undergone a crush side semen test and physical penile examination by Excel Genetics.
- All registered bulls have been sire verified, all registered females have had sire verification submitted with results expected prior to the sale.

GUARANTEE: All bulls offered for sale are guaranteed to be fertile and capable of natural service. Any claim made must be in writing and accompanied by a veterinary certificate within two (2) years of the date of sale (see inside next page for details).

ACCOMMODATION: There are numerous motels in Gunnedah, book early to avoid disappointment.

Gunnedah Motor Inn	02 67422377	Harvest Lodge Motel	02 67423400
Red Chief Motel	02 67420833	Plains Motor Inn	02 67422511

TRAVEL: Qantas and Virgin provide flights between Sydney and Tamworth. Tamworth is located 74km East of Gunnedah. Contact Qantas on 131313 to arrange bookings.

CATERING: Morning tea, tea and coffee, cold drinks and BBQ lunch available at the sale if permitted. We will be observing the most current Covid requirements.

TRANSPORT ASSISTANCE

Wallawong Premium Beef is offering FREE TRANSPORT, within 200 km of Gunnedah, for any bull purchased at the sale, and to purchaser's of 4 or more female lots.

As we will be using a paid courier to deliver some of the sale cattle, purchasers outside the 200km limit will be billed the extra mileage (if greater than 200km) at a rate of $2.00/km per delivery.

We are also offering guaranteed maximum delivery prices (+gst) per bull for interstate buyers. WA/Tas - $500, SA $450, Vic $400, Sth/Central QLD $400.

In addition, a free delivery service to Goondiwindi/Mungindi, Qld is being offered on purchase of 3 or more bulls.

Buyer's instruction slip must indicate the intention to undertake the free/subsidised transport offer.

Purchasers should note that the bulls are at the purchaser's risk at the fall of the hammer and all transport offered by Wallawong is at the purchaser's risk.

FERTILITY GUARENTEE

We guarantee all bulls to be structurally sound, fertile and capable of natural service. Bulls are guaranteed for up to two years from the date of sale. However, should a bull prove not to be able to perform the above duties we will:

- Replace the bull with an agreed substitute if available, or
- Issue a credit equal to the purchase price less salvage value. This credit may be used at future Wallawong sales.

The guarantee covers the purchase value of the bull, without interest, costs or damages. The guarantee shall apply providing the bull's incapacity is not caused by injury, misadventure or disease contracted since leaving Wallawong and is calculated on the basis that the guarantee is reduced by half of the purchase price for each year of service from the sale date. A veterinary certificate must also be supplied by the purchaser.

Introduction to Wallawong Premium Beef

Welcome to our 2021 Annual Sale event.

Well it seems that the cattle industry can do no wrong, seasonal conditions across most of Australia continue to impress and the booming cattle market seems set to continue.

We are proud to offer 28 functional and industry relevant sires with the silvers and greys possessing our trademark carcase performance and a large number of the black Angus bulls being either out of heifers and/or with excellent positive calving ease attributes. No matter what your breeding objective, you are sure to find a bull that fits your criteria.

We were once again honoured to receive first place in class 7 of the 2021 ANZ Beef Australia Carcase Competition, backing up our win from the 2018 event. Easily Australia's biggest and most prestigious competition, we were delighted to achieve the award with Wallawong sired client steers from Heath Brichall and Brian and Noeline Grogan.

However, a good carcase is not all that is required for a sound breeding bull. We are constantly looking at structural correctness, growth and fertility traits so that bulls purchased from Wallawong have a long and functional life delivering their genetic carcase traits to their new owner's herd.

The females are back! After 2 years of no female offering, they are back, and what an offering they are. Included in this year's sale females are mated and unjoined heifers straight from the engine room of the herd. Dams of these heifers include international ET donors, and they are not to be missed by those wishing to improve the quality of their herd or rebuild herd numbers.

We look forward to discussing your requirements whether they be Silver, Grey or Black. Our emphasis is on delivering what our clients require, and making sure they receive the highest level of satisfaction from their new bull, our service, and our partnership in helping make their business more profitable.

The sale will be interfaced through AuctionsPlus, we advise clients to come and look at the bulls prior to the sale date, at either of our open day on Saturday 3rd July, or at any other time by appointment.

We look forward to your involvement in the sale.

Lachlan, Kate, Stirling and Fraser James

COMPARING ANIMALS USING EBVs

EBVs are a tool that will help you to make more educated decisions when you are choosing breeding stock. The best way to make use of this information is to first decide YOUR breeding goals and secondly to select animals with EBVs that match those criteria.

Birth Weight EBV (kg) is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV indicates the effect of the daughter's milking ability, inherited from the sire, on the 200-day weight of her calves. For dams, it indicates her own milking ability.

200 Day Growth EBV (kg) is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

Mature Cow Weight EBV (kg) is based on the cow weight when the calf is weighed for weaning. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Smaller, or more moderate EBVs are generally more favourable.
The Mature Cow Weight EBV may also be used by steer breeders wishing to grow animals out to a larger weight.

Scrotal Size EBV (cm) is calculated from the circumference of the scrotum, measured in centimetres and adjusted to 400 days of age. This EBV is an estimate of a sire's genetic merit for scrotal size and is positively correlated to age of puberty in female progeny.

Carcase Weight EBV (kg) is based on abattoir carcass records and is an indicator of the genetic differences in carcase weight at the standard age of 650 days.

Eye Muscle Area EBV (sq cm) is calculated from measurements from live animal scans and from abattoir carcase data. This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300 kg dressed carcase. More positive EBVs indicate better muscling on animals. Sires with relatively higher EMA EBVs are expected to produce better muscled and higher percentage yielding progeny at the same carcase weight than sires with lower EMA EBVs.

Rib Fat and Rump Fat EBVs (mm) are calculated from measurements of subcutaneous fat depth at the 12/13 rib site and the P8 rump site (from live animal scans and from abattoir carcases) and are adjusted to a standard 300 kg carcase. These EBVs are indicators of the genetic differences in fat depth on a standard 300 kg carcass. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcase weight than sires with higher EBVs.

Please note that Murray Grey and Angus Australia EBVs are NOT directly comparable and operate from different bases. Society averages are shown below.

Value	**$43**	**$38**	**$60**
Average	**$39**	**$40**	**$56**

Comments: Quicksilver displays a moderate frame with a solid hindquarter and sire's outlook. His sire was the $18k 2018 sale topper, while his dam produced last year's $12k high priced bull. A very good genetic package, with desirable EBVs, suited to producing progeny for the heavy domestic MSA market.

Maternal 1/2 Brother to Q8

Ondiong Jennifer 229th

Comments: Quickstep is an excellent bull that combines structure, muscularity and functionality to a very high degree. Well above industry average for muscularity and a docile nature. Performance data puts him in the top 15% for 600 Day weight and Scrotal Size EBVs. A versatile bull well suited as a high quality sire for the heavy domestic market.

LOT 9 Wallawong QUIZZER Q36

IDENT: LEJ Q36
DOB: 8/8/2019
Colour: Silver

Eylwarra Sands Falcon F33
S: Bottlesford Kudos
Bottlesford Annabella C20

Murfield Apache A1
D: Bundaleer Rowan H19
Bundaleer Rowan Z14

Comments: Quizzer was a twin calf that has progressed through drought in his early days to develop into a sire that still offers future growth. He will continue to develop into large framed sire with excellent hindquarter squareness, deep full topline and great body volume. With an impressive pedigree and very impressive growth and carcase EBVs (top 1-2%), he is a bull worth a second inspection.

LOT 42 Wallawong EVELYN R23

Sire - Wallawong Vinnie Roe

IDENT: LEJ R23
DOB: 24/8/2020
Colour: Silver

Wallawong Ripsnorter C46
S: Wallawong Vinnie Roe
Wallawong Cristy 4TH

Ondiong Denton
D: Ondiong Evelyn 267TH
Ondiong Evelyn 153RD

Comments: Evelyn R23 offers an opportunity to secure a female from a proven sire producing dam. Her dam, 2F G132 has sold bulls to average $9,000. This heifer has all the attributes, a deep body and full topline, to follow in her mother's footsteps.

Purchaser: _____ Price: _____

LOT 43 Wallawong FORTUANA R9

IDENT: LEJ R9
DOB: 27/7/2020
Colour: Grey

Lindsay Commander C121
S: Lindsay Empire E46
Lindsay Tarella A179

LIndsay West W13
D: Wallawong Fortuana F3
Wallawong Fortuana 6TH

Comments: Fortuana R9 offers some outcross genetics, being by the reliable, low birthweight sire Empire E46. She also displays the deep body and functionality that her mother possesses as a functional 11 year old female.

$ Index Values			
	VTI	SI	HGFSI

LOT 44 Wallawong EMERALD R38

IDENT: LEJ R38
DOB: 28/9/2020
Colour: Grey

Wallawong Ripsnorter
S: Wallawong New Kid On The Block
Bundaleer Macy May F82

Gnoled Zac
D: Wallawong Emerald E73
Springwell Emerald Z18

Comments: Emerald R38 offers the first opportunity to secure a New Kid on the Block female. She displays great skin and hair with above average muscularity in a young productive package. Her dam has been a consistent producer having supplied sale bulls that have had excellent breeding reviews.

TERMS AND CONDITIONS OF SALE

The Stock - As all lots are open for inspection prior to the commencement of the sale, the stock offered are to be sold with all faults and the buyer must satisfy themselves as to the condition, quality and fitness thereof before offering a bid. No error or misdescription shall invalidate any sale or give rise to any claim for compensation.

The vendor guarantees no animal has been given growth promotants of any kind.

All bulls are sold as being fertile and capable of natural service. The Wallawong Fertility Guarantee will occur if within two (2) years of the date of sale the purchaser submits a veterinary report certifying that the bull is infertile and/or not capable of natural service. The veterinarian will also be required to state that in their opinion the bull has not had any physical injury or illness since leaving the vendor's property, which injury or illness could have affected the bull's breeding ability. The circumstances of such an illness or injury must be notified by the purchaser to the vendor within one week of occurrence and the vendor will have the right to arrange a veterinary inspection if required. No claim will necessarily be recognised unless presented within two (2) years of the date of sale.

The Sale.

The stock shall be at the risk of the buyer from the fall of the hammer whether delivered or not.

The sale is at the vendor's discretion subject to a floor price. Subject to the aforesaid the highest bidder shall be the buyer.

Bids will be exclusive of GST, with GST being added to the final sale price and invoiced to the purchaser.

No bid shall be less than the previous bid. If any dispute arises respecting a bid, the lot shall be put up again at the last undisputed bid.

Payment - Unless otherwise stipulated, all lots shall be sold for cash.

Interest at the rate from time to time charged by vendor shall be paid in any case where a purchaser makes default on due payment.

DISCLAIMER

Whilst all due care and attention has been paid to the accuracy in the compilation of this catalogue, neither the vendor nor the selling agents, breed associations or representatives therefore assume any responsibility whatsoever for the correctness, use or interpretation of the information on animals included in this catalogue.
