

FRI 13TH AUGUST 2021 - 11AM - 32 FROHLOFF'S RD, YARRAMAN

Welcome

We along with our invited vendors welcome everyone to this year's sale which will again be held at our sale complex, on property 32 Frohloff's Road, Yarraman. For those who are unable to physically be present at the sale on-line bidding will be available through AuctionsPlus.

2021 is our 5th Annual BJJ Limousin Bull and Female Sale and we are offering a catalogue loaded with some of the best Limousin genetics available across Australia. There are 45 bulls, 14 females, 1 embryo package and as an additional feature this year 6 potential led steers catalogued for your consideration. We have worked hard at getting the balance between EBVs and the physical functionality of our sale animals right. We are confident that this year's line-up of bulls and females will provide all potential buyers with the opportunity to purchase quality animals with the functionality, dispositions and genetics that will have a place in their breeding programs.

All of the bulls and females are commercially relevant animals and some have very strong stud potential. Our sale animals are loaded with carefully selected contemporary genetics that produce high yielding, soft, easy finishing progeny with high docility and good weight for age. Our main game as a sale group continues to be to offer genetics that will have a positive impact on beef production. This supports the end game for us all which is to provide buyers with access to genetics that will produce quality beef that in turn provides a quality eating experience for consumers whether eating in at home, dining out at a restaurant or in pubs and clubs.

This year there are 43 polled, including 11 homozygous polled, bulls on offer supporting the industry trend towards polled genetics. There is a strong group of polled females, some with calves at foot, that have tremendous depth in the quality of their pedigrees. Lot 61, the package of 4 embryos on offer is an exciting joining of genetics and well worth consideration. If colour is a criteria in your breeding program there is a selection of 14 black bulls including 2 homozygous black bulls and 1 that is homozygous black and homozygous polled with the balance being reds and apricots so we should be able to cater for your colour needs.

In preparing the bulls for sale we have been conscious of the need for the bulls to make a smooth and effective transition to serving cows in the paddock. Details of vaccinations and treatments are on page 7 of this catalogue. As always, we offer a warranty that the bulls are fertile and capable of natural service within 6 months of the date of the sale to the purchaser. Further details of this are on page 6 of this catalogue.

Free freight is offered to saleyards within 300km of our sale complex. Further assistance can be offered in coordinating transport beyond this. Please contact Bradley (0410 022 750) prior to the sale if you might need further assistance.

All bulls will be scanned on Wednesday 11 August. These scans and semen test results will be available in the supplementary sheet Wednesday evening. You are welcome to on property inspections Wednesday afternoon, Thursday 12 August and on sale day from 9.00am. Inspections can be arranged outside of these times by appointment through our agents or directly with vendors. Vendor contacts are on page 2 of this catalogue.

We look forward to seeing you on sale day. If you cannot make it to the sale, please use AuctionsPlus online bidding. Instructions for how to register and bidding are on page 3 of the catalogue. Alternatively, you can bid via phone through our agents Aussie Land & Livestock or Bartholomew & Co.

Please abide by any COVID-19 related requirements that are current at the time of inspections and on sale day.

Videos of all sale animals will be available on our website www.bjflimousin.com.au and on the BJJ Limousin Facebook page.

HOW TO REGISTER AND BID ON AUCTIONSPLUS

- 1 Go to www.auctionsplus.com.au to register at least 48 hours before the sale.
- 2 Select "Sign Up" in the top right hand corner.
- 3 Fill out your name, mobile number, email address and create a password.
- 4 Go to your emails and confirm the account.
- 5 Return to AuctionsPlus and log in.
- 6 Select "Dashboard" and then select "Request Approval to Buy"
- 7 Fill in buyer details and once completed go back to Dashboard.
- 8 Complete buyer induction module (approx. 30 minutes).
- 9 AuctionsPlus will email you to let you know that your account has been approved.
- 10 Log in on sale day and connect to auction.
- 11 Bid using the two-step process – unlock the bid button and bid at that price.
- 12 If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Health & Safety

COVID-19 RELATED REQUIREMENTS

All persons attending the BJB Bull & Female Sale on property are required to adhere to all current government restrictions, requirements and guidelines relating to COVID-19 including social distancing expectations.

CATERING

COVID-19 restrictions permitting catering will be provided for morning tea and lunch with all proceeds going towards the local community group. Everyone is also invited to join us for post-sale drinks in appreciation of your support.

HEALTH & SAFETY OF VISITORS TO THE SALE

All of the sale bulls and females have been screened for acceptable temperament and are quiet to handle under normal circumstances. Visitors must accept and understand that there are inherent risks associated with cattle handling and that sale day circumstances are not the normal environment the sale bulls and females.

- **Visitors are discouraged from entering the cattle pens and if they do they do so at their own risk.**
- **Children should be supervised at all times and not allowed to enter the cattle pens.**

People entering the cattle pens are at risk of injury. Be especially alert to bulls fighting and if one is 'playful' with you do not respond by patting his head. What a bull considers a playful nudge can break human legs. We do not expect bulls to be aggressive with humans but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Remember even the quietest of bulls are in fact unpredictable animals. Females with calves at foot may also be more protective than usual in these unfamiliar circumstances.

Do not crowd the animals or loiter in their pens. We cannot cover every example of the dangers associated with cattle handling so please use common sense and be cautious and alert at all times. Do not enter the pens unnecessarily.

Please call upon any of the agents for an escort through the bulls if required. The days of bravado with stock have passed with Occupational Health and Safety legislation.

PRE-SALE INSPECTIONS & SALE CONDITIONS

Pre-Sale Inspections of Bulls and Females: Available on property Wednesday afternoon 11 August, Thursday 12 August and from 9.00am on sale day. Inspections can be arranged with agents or vendors outside of these times.

Registration and GST: Buyers bid card system will be in operation. All prospective buyers will be required to register prior to the commencement of the sale. All lots are sold exclusive of GST with GST to be added to the sale price.

Online Bidding: Online bidding is available via AuctionsPlus. See Page 3 of catalogue for instructions on how to register and bid.

Phone Bidding: There is full mobile coverage at the sale venue. If you intend purchasing over the phone please contact selling agents to reserve a line.

Outside Agents Rebate: A 4% rebate applies to outside agents registering bull buyers, in writing prior to the sale, and settling on their behalf within 14 days of the date of the related invoice.

Terms and Conditions: The sale is conducted under the ALPA Livestock Auctions terms and conditions (published 2017). These terms and conditions will be displayed on sale day.

Buyer's Instructions: At the completion of the sale all successful purchasers are required to attend the office and complete a buyer's instruction and delivery sheet.

Transfer of Registration: Bulls and Females can be transferred to new owners for registration with the Australian Limousin Breeders' Society on request.

Insurance: Your new purchases are like any other piece of valuable farm equipment and it is wise to insure them especially for the first six/twelve months of their working life. There are a number of options available through Elders Insurance who will have a representative onsite on sale day to look after your needs. While all care and attention will be taken the liability for sale animals lies with the purchaser at the fall of the hammer.

Disclaimer for accuracy of Catalogue: Every care has been taken during the compilation, production and printing of this catalogue by all parties involved. Despite this we cannot provide a guarantee that some mistakes may have inadvertently occurred during the compilation, production and printing phases.

Warranty

The Vendors warrant that:

- Bulls are fertile and capable of natural service within 6 months of date of sale to the purchaser (“Warranty Period”); and

The Vendor will either:

- Provide a satisfactory replacement; or
- Provide a credit for use at the next BJB Limousin Bull Sale equal to the purchase price (excluding any costs and expenses of the purchaser in taking delivery) minus salvage value.

Where the purchaser claims a bull is infertile upon the purchaser submitting a veterinary report after the expiration of the Warranty Period stating that the bull is infertile or incapable of natural service:

- A statutory declaration by the purchaser to the effect that the substance of the report is true and correct must be provided; and
- The veterinarian must state that in his/her opinion there is no evidence that the bull has suffered any injury or illness during the Warranty Period which could have affected his breeding ability; and
- The veterinary report and the purchaser’s statutory declaration must be received by the vendor within 14 days of the Warranty Period expiring.

In the case of a warranty claim being submitted within the guidelines above the vendor reserves the right to seek a second veterinarian’s opinion and assessment of the bull as part of the process of settling the claim.

The purchaser acknowledges that:

- The purchaser does not rely, and it is unreasonable for the purchaser to rely, on the skill or judgement of the vendor as to whether the bulls supplied are reasonably fit for any purpose for which they are being acquired.
- To the extent permitted by law all other conditions and warranties implied by law in respect of the state, quality and condition of the bulls which may apart from this clause be binding on the vendor are excluded.
- The vendor has no liability (including liability in negligence) to any person for any loss or damage consequential or otherwise suffered or incurred by that person arising from the sale of the bulls to the purchaser.

VACCINATIONS & TREATMENTS

Sale animals have been vaccinated/treated prior to sale according to recommendations as follows:

- ✓ Vaccinated against Vibriosis (bulls only)
- ✓ Vaccinated against tick fever
- ✓ Vaccinated with 7 in 1
- ✓ Vaccinated against bovine ephemeral fever (3 day)
- ✓ Vaccinated against pestivirus
- ✓ Treated with pour on drench.

SEMEN TESTING, SCANNING & SUPPLEMENTARY SHEET

- All bulls will be semen tested prior to the sale.
- All bulls will be scanned for Rib & P8 Fat, IMF and EMA and have scrotal sizes measured on Wednesday prior to the sale.
- These and any other relevant updates will be available on the Supplementary Sheet online, in hardcopy on property or via email on request on Wednesday afternoon.

TEMPERAMENT

All of the animals for sale have been screened for temperament and vendors are confident that under normal circumstances each animal in the sale is of sound and acceptable temperament. It is understandable that an occasional animal may misbehave on sale day due to the exceptional circumstances and the pressures of a number of strange people encroaching on their space.

Settling your new bull in: On arrival at their new home it is important a suitable mob of animals is yarded to greet the newly purchased bull and minimise the stress on him. Suitable animals may include pregnant cows or steers but certainly not other bulls.

Newly purchased females: These may also take some time to adjust to their new environment following separation from their normal herd and environment. Care should be taken to select appropriate companions for them on arrival at their new home particularly for cows with a calf at foot.

Traits Observed: BWT,200WT,400WT,DOC

Here is a black bull that has a strong topline, good depth of body and softness in the flank. Harvest carries two copies of the Limousin advantage F94L gene that will increase yield and tenderness in his progeny. He is sired by The Downfall GMV Stetson Junior who has produced many led steer and carcass champions. His grand-dam is O'Sullivan's Black Fancy E19.

Pappalli is only a baby but should not be overlooked. Powerfully built young bull who did it tough on a young 1st calf heifer but has blossomed into a beautiful calf. A cross of our 2 outstanding cow family's the Wilma's and Wunda's. His breedplan data is outstanding. Would be an excellent choice for heifer joinings. 100 straws retained for in herd use.

SIRE: BALAMORE GRYPHON 930G (HP*) (B) (PN) (AA)
DAM: BJF BIG STAR WUNDA N315 (P) (B) (PF)

The Downfall Limousins are offering this package of 4 embryos that will be Homozygous Polled. We handpicked the exciting new sire Balamore Gryphon 930G to bring out the best of the dam BJF Big Star Wunda N315 and value add to their progeny. It is worth a careful look at the genetics that come with this pairing. It is an opportunity to add the proven genetics of the dam's cow line and of her sire along with the contemporary genetics of Balamore Gryphon to your herd. We are waiting with anticipation to see the outcome of this joining. Transport of embryos at buyer's expense.

Potential Led Steers

Lot 62 THE DOWNFALL THE GOVERNOR (P) (PU)

STEER **APRICOT** **POLLED** **DOB: 27/01/2021**

RUNL STETSON 850S (IMUPB850) (2P) (HB) (PN) (AA)

Sire: STANHIGH NUGGET (SSHPN2) (P) (B) (PN) (AA)

STANHIGH FIFI (SSHFF1) (PF)

Dam: THE DOWNFALL LIMOUSIN COW 401

The Governor has champion written all over him. From day one he has caught our eye. A stylish, well-balanced steer from head to tail. He has a tremendous even top-line that leads into a well-proportioned soft hindquarter that draws you in. Having RUNL Stetson in his pedigree will provide carcass traits you are looking for Stetson is in the top 10% for EMA, Rump Fat & RMY.

Purchaser: **Price:**

Potential Led Steers

THE DOWNFALL THE GOVERNOR

Lot 63 THE DOWNFALL SIZZLER (P) (B) (PU)

STEER **BLACK** **POLLED** **DOB: 19/01/2021**

RUNL STETSON 850S (IMUPB850) (2P) (HB) (PN) (AA)

Sire: STANHIGH NUGGET (SSHPN2) (P) (B) (PN) (AA)

STANHIGH FIFI (SSHFF1) (PF)

Dam: THE DOWNFALL LIMOUSIN COW 356

Could have called him Black Beauty because he is a beauty. Sizzler is thick set, soft and ready to take on all comers. He has a long broad top-line that holds true from his broad snout and forehead to his hindquarter. His depth of flank balances his deep girth. Another steer that carries RUNL Stetson in his pedigree to provide carcass traits you are looking for Stetson is in the top 10% for EMA, Rump Fat & RMY.

Purchaser: **Price:**

THE DOWNFALL SIZZLER

Lot 64 THE DOWNFALL LJB (LITTLE JOE BRICK) (P) (R) (PU)

STEER **RED** **POLLED** **DOB: 25/01/2021**

RUNL STETSON 850S (IMUPB850) (2P) (HB) (PN) (AA)

Sire: STANHIGH NUGGET (SSHPN2) (P) (B) (PN) (AA)

STANHIGH FIFI (SSHFF1) (PF)

Dam: THE DOWNFALL LIMOUSIN COW 586

LJB continues to impress more each time we look at him. He is a very docile soft steer that will convert feed into beef where it counts and even fat cover throughout. You need him in your team if you want to be up in the ribbons in the ring and on the hook. Another steer showing all of the signs of his sires big EMA and soft, broad and deep hindquarter. For those that like to play with the hair he will provide you with plenty to play with. We specifically replaced our champion steer sire The Downfall Stetson Junior with LJBs sire we thought he was even better and his progeny are saying we are right.

Purchaser: **Price:**

THE DOWNFALL LJB

Potential Led Steers

Lot 65 THE DOWNFALL SECOND LOOK (P) (B) (PU)

STEER **BLACK** **POLLED** **DOB: 17/01/2021**

RUNL STETSON 850S (IMUPB850) (2P) (HB) (PN) (AA)

Sire: STANHIGH NUGGET (SSHPN2) (P) (B) (PN) (AA)

STANHIGH FIFI (SSHFF1) (PF)

Dam: THE DOWNFALL LIMOUSIN COW 535

Take another look before discounting this young steer. Second Look has a softness in his hair and skin that we look for. He is soft in the flank, has a strong top-line and his EMA won't be a problem in any carcass competition. He may not have the same power in his hindquarter that some have but it is balanced and enough to stand him in good stead in the ring and will cover with ease and evenness.

Purchaser: **Price:**

Potential Led Steers

THE DOWNFALL SECOND LOOK

Purchaser: **Price:**

BJF GIBBO

EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

Horn Status: (HP*) Homozygous Polled by DNA test (which has an accuracy of 92%), (HP) Homozygous Polled by progeny test, (2P) Homozygous Polled by Pedigree, (P) Polled, (S) Scurred.

Colour: (HB) DNA tested Homozygous Black, (2B) Homozygous Black by pedigree, (B) Black, (R) Red (not Apricot).

Protoporphyrin Status: (PN) Proto Normal, (PF) Proto free by pedigree, (PC) the animal is a carrier of the abnormal gene for Protoporphyrin, (PS) Proto Suspect (parent of diseased animal), (PU) the animal has not been tested for Protoporphyrin or have parents which have been tested normal or are free by pedigree.

Homozygous: Is the term where an animal has two copies of the particular gene (tested or pedigree) for a trait (colour, polled). AN example is Homozygous Polled where all progeny will be polled from that particular animal or Homozygous Black where all progeny will be black.

F94L: (AA) 2 copies, (AC) 1 copy, (2A) 2 copies by pedigree, (CC) no copies.

EXPLANATION OF ESTIMATED BREEDING VALUES

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured.

EBVs are provided for the following traits:

Birth Weight: indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

200, 400 & 600 Day Weight: give us an estimation of the animal's genetic potential for growth.

Mature Cow Weight: estimates differences between animals in live weights of cows at 5 years of age.

Milk: a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

Scrotal Size: indicates whether the bull will produce sons with above average or below average scrotal sizes.

Carcase Weight: ranks animals for carcass weight.

Eye Muscle Area: ranks animals for eye muscle area measured at the 12th rib on a 300kg carcass.

Rib Fat: ranks animals for rib fat depth at the 12th rib on a 300kg carcass.

Rump Fat: ranks animals for fat depth at the p8 site on the rump on a 300kg carcass.

Intra Muscular Fat: ranks animals for the percentage of intramuscular fat at the 12th rib of a 300kg carcass.

Docility: is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

Comparing EBVs:

The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

Breed Average EBVs for 2019 Born Calves												
BWt	200	400	600	MLK	SS	MCW	CWT	EMA	RIB	RUMP	IMF	DOC
+1.6	+20	+34	+47	+7	+1.0	+48	+29	+1.7	+0.0	-0.2	+0.0	+41

Accuracies:

Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

Disclaimer:

The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.
