# Welcome

## A warm welcome to our 2021 Annual Bull Sale.

What a year graziers are having. Cattle prices at record levels and seasons have been very kind to most this past few months. Still a few dry spots which hopefully will fill in sooner rather than later. COVID-19 is obviously still a worry, but in the main our rural communities have been truly blessed.

It has been a pretty steady year on the family front since our last sale. Ryan and Rachel have been working hard doing up the Injune property they bought last year, while playing the important role of nurturing their two little girls while they grow. The acquisition of the Injune property has proved to be a blessing as it is having a wonderful season, while our home properties at Emerald are still quite dry. Bindi and Anthony's twins are growing like mad, keeping the parents (and Grandma) very busy chasing after them as well. Emma has moved from Brisbane back to Emerald for the minute having received a promotion out this way, while Raelea & Jeff stay busy with day to day life (and lots of babysitting for Raelea). A big thank you to all our immediate and extended family who continue to support each other in our family and business endeavours.

As we have done in the past, the fundamentals for both the Charolais and Angus bulls on offer have stayed solid to breed quality cattle that also fit in to our harsh environment whilst retaining the important traits needed for today's beef industry:

- Doing ability with predictable carcass traits: Our cattle are C.Q. adapted, un-spoiled, and our bulls perform out in the paddock. We retain a focus on softness (not to be confused with over fat) and finishing ability.
- Carcass measures: Feedback on the hook is paramount. We place emphasis on soft muscle, weight for age, together with above average IMF for meat quality.
- Calving ease: Very important for both ourselves and our buyers, so we remain very aware of this attribute. We get positive feedback on calving ease from our bull buyers, with the calves still achieving above average weights and doing ability post calving. Our customers are often up there or topping local store sales (see middle pages in this catalogue), with progeny of our cattle performing well both on grass or in feedlots. Thank you for our customers who provide valuable feedback.
- Weight gain: We strive to breed with length and thickness to add value for weaners, feeders, and all the way to bullocks and terminal females. Add

the emphasis to above average weight gains with performance measures below, and you can add predictability to our bulls sold.

- Performance data: Regular weight gains submitted for Breedplan analysis, over the hook feedback, plus pre-sale Fat, EMA, and IMF scans on the bulls being offered are all used by us. We embrace EBV's as an important tool, and both studs are now almost entirely breed plan recorded. Real time data, performance EBV's and intimate knowledge of our cattle all help ensure we maintain the high standards sort.
- Proven over the years: It is now over twenty years since we first established our Charolais stud, and over ten years for our Angus herd. Our bulls are 100% guaranteed. A large portion of our bulls sell to repeat buyers, for which we are proud and say a huge thank you.

So again welcome, and if you can find the time to attend, we sincerely thank you and please stay afterward for a free beer, steak sandwich, and a yarn.

Jeff and Raelea, Ryan and Rachel Holzwart

# Sale Information

**Inspection:**

Inspection of the bulls is most welcome prior to the sale by arrangement.

**AuctionsPlus:**

Again this year our sale will be on AuctionsPlus. So in the event of any unfortunate developments in COVID-19 circumstances, the sale will still operate on AuctionsPlus.

**COVID-19:**

We are still holding a physical sale at the Ag-Grow complex, and we will work with Geoff, Donna and the Ag-Grow team for required and prudent COVID-19 protocols as and if required.

**Supplementary Sheets:**

All bulls will be scanned prior to the sale by certified scanning technician David Reid for eye muscle area (EMA), rump fat, rib fat and intra muscular fat (IMF). Bulls will also have a sale weight and scrotal size measurements which will all be printed on supplementary sheets and available on sale day or just prior to the sale on our website.

**Delivery:**

Free freight available to Alpha and Rolleston, and bulls can be cleared at Emerald Saleyards if required. We are also happy to assist with delivery in the local area. Please talk to the agents, Jeff or Ryan for delivery assistance or leave instructions at the registration desk at the sale.

**Refreshments:**

We would like to take time to enjoy the sale and spend time with clients and friends, so please join us for complimentary morning tea prior to the sale and a free post-sale lunch, maybe even a beer or two. We will need to be mindful of social distancing this year though.

**Guarantee:**

We back our bulls 100% and are extremely tough on making sure the bulls are structurally sound and fertile. All bulls will be semen tested, breeding soundness evaluated and are guaranteed breeders. If a problem occurs against the breeding ability of a bull within the first full breeding year of purchase, a replacement animal of comparable value or bull credit for the following sale will be given if required. Please contact us if you have any issues.

**Health and Vaccinations:**

Sale bulls are vaccinated with:

- 3 day
- 7-in-1
- 3 germ blood
- Vibrio

The bulls will be Dectomax injected ready for tick clearance if required.

**Biosecurity:**

Bauhinia Park Studs are currently operating under a J-BAS 6 score. We are aware of the industry requirements and have a plan in place. We are willing to meet the needs of purchasers. A health declaration will be provided with the usual NVD on sale day.

**Breedplan:**

Our studs are Breedplan recorded, and EBV's are printed in the catalogue.

**Disclaimer:**

Every care has been taken during the compilation of this catalogue to ensure that the information is correct. However, no responsibility will be accepted for errors that may have occurred.

# CHAROLAIS BULLS

## LOTS 1-40

*Charolais Breeders at 'Kensington'.*

# Bauhinia Park Charolais

*Bauhinia Park Charolais stud was founded by the Holzwart family in the mid 90's commencing with around 40 cows. The stud has since grown to where we are now joining 180 top quality females with the resulting young sires sold at our Annual Bull Sale & in the paddock.*

*Located just 30km East of Emerald in Central Queensland, the majority of the Charolais herd is run on our property 'Kensington', while the balance of the cows & replacement heifers are run on 'Telco' at Injune. We place a huge emphasis on fertility & constitution within our cow herd to ensure these traits are passed down the line through to commercial producers that buy our bulls. The entire herd of Charolais stud cows are also performance recorded, which tests us against our peers in the Charolais industry via breedplan EBV's.*

*We are proud of the Charolais bulls on offer this year: They are true industry focused beef bulls with great shape, weight for age and the constitution we strive to produce. They are fit, healthy and ready to work, and we are extremely confident they will perform well for their new homes. The 40 Charolais bulls in the sale include 21 polls and 5 red factors. Sire lines include our \$37,000 sire ANC Lastovski, homozygous polled sire Ascot Eldorado L504 (P) and well proven sire Minnie-Vale Jacky (P). The first few sons of 4 Ways Mario (P) (R/F) are also included in the sale.*

*Progeny from Bauhinia Park bulls have gone on to top many store and fat sales, as well as gaining good feedback when finished in feedlots or grass fed bullocks sent direct to works. We believe Charolais' place in a herd is to add muscle, weight & yield, without sacrificing desirable carcass traits. As always, the bulls are guaranteed and available for inspection at 'Kensington' any time prior to the bull sale.*

*Hope to see you August 18th.*

*Ryan & Rachel Holzwart*

<b>EBV</b>	+3.1	+22	+43	+60	+85	+4
<b>Acc</b>	51%	80%	71%	81%	63%	38%

Lastovski was purchased in 2017 for \$37,000, one of the most impressive bulls we have ever seen set foot in a sale ring. Lastovski is a proper beef bull with tremendous length, thickness and constitution. He displays a good sire's head, loose skin, super thick hindquarter & covers the cows with ease. We are very happy with the consistency Lastovski passes through to his progeny and now consider him as one of the best bulls we have ever used. Sons carry their sire's great carcass attributes and are ideal cross breeding machines whilst his daughters are beautiful roomy females with plenty of milk.

Lastovski when purchased at 24 months.

Lastovski Son - Lot 27.

Lastovski Son - Lot 9.

# Reference Sires

## Ascot Eldorado L504 (P)

**S:** CS PLD Junction 4J (P)  
**Sire:** Ascot Eldorado (AI) (P) (R/F)  
**D:** Gobongo Isabella D10E (AI) (P) (R/F)

Smoothly made homozygous poll sire with great balance & structural integrity. L504 has tremendous length & volume topped off by a good clean coat and sire's outlook. He compliments our sire battery nicely and hasn't thrown a horned calf yet. L504 is represented by some outstanding sons in this sale, they speak for themselves and are very consistent. Daughters are just coming into production now & they look the picture.

**S:** Gobongo  
**Dam:** Ascot G62 (P)  
**D:** Gobongo Rebbly x80E

## Minnie-Vale Jacky (P)

**S:** Harvie Redemption 36P (P) (R/F)  
**Sire:** Winchester Peacemaker D6E (AI) (ET) (P)  
**D:** Rosedale Honor X89 (AI)

Jeff selected Jacky from Minnie Vale in 2015 to strengthen our polled sire battery. Combines strength and substance backed by a proven pedigree. Jacky passes on his stylish outlook, clean coat & extra bone.

Progeny have a special mix of growth, muscling & softness with the ability to lay down cover easily. Sons have averaged \$12,000 at auction to date. We are rapt with the quality Jacky has brought to the stud.

**S:** Fernvale Xtra Impact (AI) (ET)  
**Dam:** Minnie-Vale Marilyn D42E  
**D:** Minnie-Vale Marilyn X121E

## 4 Ways Mario (P) (R/F)

**S:** TR Red Smoke (P) (R/F)  
**Sire:** Moongool Jag (P) (R/F)  
**D:** Moongool Rose

Our polled, red factor \$18,000 purchase from 2018. Mario complements our sire line nicely, with eye catching phenotype, soft muscle pattern and beautiful temperament which make him a real contender. His first handful of sons are on offer in this sale with an outstanding line of weaner bulls following them up for next year.

**S:** 4 Ways Adoo  
**Dam:** 4 Ways Annette D72E  
**D:** Mount William Annette

# ANGUS BULLS

## LOTS 41-80

# Bauhinia Park Angus

Welcome to the Angus section of our sale.

*Bauhinia Park Angus stud initially invested a lot of time and money in our Angus program, via AI programs, Embryo programs and acquiring top line genetics. We now have third and fourth generation cows we have bred ourselves, having started with a nucleus of quality bought stud cows. These home bred stud cows now provide us with much more predictability, having only retained the good ones based on our required attributes at the forefront. Our Angus breeders currently calving, and herd sires in use, give us a great deal of satisfaction for having stuck to our breeding goals over the past 10 or 12 years since our Angus Stud started.*

*Depth of breeding is so important in maintaining a herd that will breed consistent, value adding bulls for our commercial customers. We have travelled extensively, googled (as you do these days) and sought feedback from wherever we can, both overseas and in Australia, looking out for the best breeding we can find. Our search concentrates on Angus cattle that we believe suit our area, but retaining the performance criteria and physical weight for age against their peers.*

*Our criteria in a nut shell:*

- *Bred for CQ conditions*
- *Use the best genetics we can find*
- *Make sure they fit market criteria for:*
  - *Weight for age*
  - *Carcase qualities supported by EBV's and feedback performance*
  - *Fertility based on real time calving interval. AI followed by a short seasonal mating is practiced in all our herds.*
  - *Structure for longevity*
  - *Strength of breeding from both dam and sire.*
  - *Temperament*
  - *Ease of calving*

*We believe bulls bred or raised in our area have a higher chance of performing in our environment. We have already assessed and culled those that struggle. This helps take away the potential uncertainty of the adaptability or even survival of bulls bred in cooler and less harsh environments.*

*For you, the commercial breeder, we have already rejected both sire bulls and breeding cows that have not adapted. And we do this making sure the weight for age, carcass, fertility and functionality are always upheld.*

*As with all our bulls, they are absolutely guaranteed, and if you ever have an issue with any purchase, simply call us and we will sort a satisfactory outcome.*

*Bulls can be inspected by appointment up to the sale. Simply call and we will make a suitable time.*

*Jeff & Raelea Holzward*

## Special Acknowledgement:

A big thank you to **Nicholas and Karen Morgan**, Glenmorgan Angus, who over the past few years have helped breed for our Angus pursuits some weaner bulls and gave us the opportunity to buy some Angus Stud breeders.

We have known each other for quite some years now and in 2016 Nicholas and Jeff went to the US on a Angus Genetics tour together, which remains one of Jeff's highlights. As families we share mutual goals and respect, and I believe have been instrumental in helping our respective studs find their own feet.

Thank you both again.

## Bauhinia Park M38

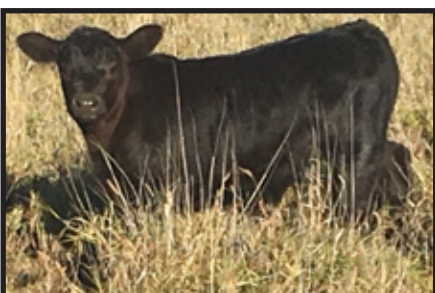

**S:** SAV Thunderbird 9061  
**Sire:** Glenmorgan Thunderbird H248  
**D:** Wattletop Dandloo A129

**S:** Booroomooka Net Worth G10  
**Dam:** Bauhinia Park J93  
**D:** Bauhinia Park G16

M38 is the son of a bull we had a lot of success with in H248 (many knew him by his nickname 'Gus'). We retained M38 as we believed he was a very complete animal due to his structure, muscle pattern and overall appeal and 'do-ability'. He has not disappointed. 10 sons in this sale, many being in the younger category as we used him in that first year as a cover bull after our AI programs. These younger bulls we think should appeal to many good cattlemen. As a bonus and while not unexpected, his first joined heifers are beauties, and are just calving out now. We are sure you will see a lot more sons and sons of M38 daughters in years to come.

# Reference Sires

## Bauhinia Park Net Worth H55

**Sire:** SAV Net Worth 4200

**Dam:** Bauhinia Park D300

Good sires are hard to find and even harder to replace! It is with sadness that we lost the big fellow this year. He was a direct son of breed legend SAV Net Worth.

We loved H55 for his massive body capacity, natural muscle expression and awesome athleticism. He could also be a gentle giant. His legacy will live on through his beautiful daughters, and we will continue to selectively use him through AI programs. Be sure to check out his sons in this year's sale.

## SS Niagara Z29

**Sire:** Hoover Dam

**Dam:** Jet S S X144

Niagara was Jeff's favourite while on tour in the US in 2016.

Does a lot of things right. Super structure passes on, which should equate to longevity in his progeny. Only a couple of sons in this year's sale, but he has left a nice parcel of wonderfully structured and productive daughters. Unique combination of low birth, high growth, brilliant temperament, and carcass data.

**D:** Vermont Rosebud B491

**S:** Waitara Pio Federal F73  
**Dam:** Dance Federal F73 M96  
**D:** Dance Fair Dinkum C202

**Comments:** Awesome young bull to start the Angus draft. Q153 was purchased along side his dam at the Dance Angus dispersal sale as one of the pick cow/calf units. He is moderate, thick set and shows a heap of substance & natural constitution. Progeny would suit a wide range of markets. Pedigree suggests suitable for use on heifers.

We wish David & Christine Dance all the best for their next adventures in their retirement.
