## **IRONBARK STEERS** performing at the top for Beef Industry requirements

Ironbark have killed over 300 steers in the last 6-7 months into the farm assured grassfed markets. The MSA Index is averaging 62-63, we call it performing in the real world. Ironbark Herefords are performing in the paddock with real carcase performance data.

**MSA Index up to 69.15.**

At Ironbark we don't just rely on Breedplan figures.

We study the kill data and have done for as long as I can remember.
