# Sale Committee Welcome

Welcome to the Northern Limousin Breeders Sale for 2021. What a year we've had with continual challenges around Covid-19 & throw some natural disasters in the mix as well!

2020 saw a fantastic result with prices reflective of the outstanding stock on offer. This superior standard will again be met for 2021 as our NLBS vendors offer 35 bulls and 5 females for your inspection.

Are you looking to rebuild your herd, or for a terminal sire? This year's draft of bulls will add extra punch to their calves, whether it's to set up a female line with great maternal traits to retain and the added bonus of extra carcass before you select their joining sire, or for use as a terminal sire with a focus on carcass and additional weight. These bulls will give you market options and flexibility.

In addition to our live auction at the saleyard, we will be integrating the sale with the Auctions Plus electronic platform, to provide an opportunity for buyers to bid electronically. So whether you choose to inspect the offering in person, or to bid from the comfort of your own home, the choice is yours. Keep an eye on our Northern Limousin Breeders Sale FB page where vendors will showcase sale lots.

All lots will undertake inspection and the bulls will be scanned prior to the sale so so the raw data will be available to assist with your sire selection.

Thanks again to our selling agents, Nutrien Livestock, Scone, and if you'd like any further information on the sale lots, please contact Chris Dobie 0418 434 061.

## SCONE MOTOR INN & CONFERENCE CENTRE

# SALE INFORMATION

**BUYERS REGISTRATIONS:** Buyers number systems will be in operation, please register prior to the commencement of sale at the selling agents office at the Scone Saleyards.

**CATERING:** Limited facilities for lunch and refreshments will be available at the Scone Selling Complex on sale day.

**HEALTH:** All animals are from herds free of TB, Brucellosis and Johnes Disease. (Note – also clause 17 of conditions of sale).

## **FERTILITY GUARANTEES:**

**BULLS:** Bulls are sold as fertile and capable of natural service. The purchaser shall have the right to a full refund of the cost of the bull from the vendor within six (6) months of the date of the sale (excluding any costs and expenses of the purchaser), if the Purchaser can submit a Veterinary surgeon's report that the bull is infertile or incapable of natural service. The veterinarian must also state in his opinion that the bull has not suffered any illness or injury which could have affected his breeding ability since being taken delivery of by the Purchaser. The veterinary report (together with a statutory declaration by the purchaser to the effect that the substance of the report is believed by the purchaser to be true and correct) must be forwarded to the vendor within 14 days of the date being six months after the sale date.

**FEMALES:** Females over 12 months are warranted fertile to natural service within 12 months of sale if unjoined. The purchaser is to have the right to a full refund of the purchase price of the female (excluding any costs and expenses of the purchaser) on submitting a veterinary report after the expiration of 12 months to the effect that the purchaser has been unable to get the female in calf to natural service. The Veterinarian must state that in his opinion the female has not suffered any injury or illness and has not been entered into an embryo transfer program since being sold to the purchaser, which could have affected her breeding ability. If a female catalogued as "not in calf" or "not joined" is subsequently proved to have been in calf at the time of the sale the Purchaser will be entitled to a full refund of the sale price on return of the female to the vendor. Females over 24 months of age at sale date are to be PTIC 8 weeks or more or have a calf at foot. A female with a calf 6 months of age or older is to be PTIC on inspection day.

**TRANSPORT:** Will be available for private arrangement at the sale conclusion.

**INSURANCE:** Cattle can be insured from the fall of the hammer.

**REBATE:** 2% to outside agents introducing buyers in writing prior to and settling within seven (7) days of sale.

**BUYERS INSTRUCTION:** Instructions must be completed prior to delivery. Purchasers requiring transfer of registration of stud cattle should indicate their stud prefix in the space provided.

**NEW SOUTH WALES STUD STOCK TERMS AND CONDITIONS OF AUCTION SALE:** The sale will be run in accordance with the New South Wales Stud Stock Terms and Conditions of Auction Sale.

**POST SALE CONDITIONS OF SALE: N.B. – No animal is to be sold at Scone Selling Complex on Sale Day after being passed in from the sale ring, except where: -**

- 1) **The losing bidder has the first option on the animal for 30 minutes post sale**
- 2) **After that, any sales will be \$500 over and above the vendors reserve.**

**The selling agent must be present for the negotiations and transaction for 1 and 2 above.**

**SALE DINNER:** A dinner will be held on Thursday night before sale day at the Thoroughbred Hotel. Those wishing to attend please notify the sale committee – **ALL WELCOME.**

Accommodation is available at a discounted rate at Scone Motor Inn – Phone (02) 6545 3079 for more information. Please mention you are here for the sale.

# Explanation of the Suffixes to Animal Names in this Catalogue

**Horn Status :** (HP\*) Homozygous Polled by DNA test (which has an accuracy of 92%), (HP) Homozygous Polled by progeny test, (2P) Homozygous Polled by pedigree, (P) Polled, (S) Scurred.

**Colour :** (HB) DNA tested Homozygous Black, (2B) Homozygous Black by pedigree, (B) Black, (R) Red (not apricot).

**Protoporphyrin Status :** (PN) Proto Normal, (PF) Proto free by pedigree, (PC) the animal is a carrier of the abnormal gene for protoporphyria, (PS) Proto Suspect (parent of diseased animal), (PU) the animal has not been tested for protoporphyria or have parents which have been tested normal or are free by pedigree.

**Homozygous :** is the term where an animal has two copies of a particular gene (tested or pedigree) for a trait (colour, polled). An example is Homozygous polled where by all progeny will be polled from that particular animal or Homozygous black where all progeny will be black.

**F94L :** (AA) 2 copies, (AC) 1 copy, (2A) 2 copies by pedigree, (CC) no copies.

## Understanding EBVs

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured. EBVs are provided for the following traits:

**Gestation Length EBV :** this EBV ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

**Birth Weight EBV :** this EBV indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

**Calving Ease Direct EBV :** this EBV indicates the influence of the sire on calving ease. Sires with positive EBVs for calving ease will increase calving ease and sires with negative EBVs will decrease calving ease.

**Milk EBV :** an important component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

**200, 400 & 600 Day Weight EBVs :** these EBVs give us an estimation of the animal's genetic potential for growth.

**Scrotal Size EBV :** the scrotal size EBV indicates whether the bull will produce sons with above average or below average scrotal sizes.

**Docility EBV :** the docility EBV is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

## Comparing EBVs

The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

### AVERAGE EBVs for 2019 BORN LIMOUSIN CALVES

Gestation Length	Birth Weight	CE Direct	Milk	200 Day Weight	400 Day Weight	600 Day Weight	Scrotal Size	Docility
-2.0	+1.6	+0.4	+7	+20	+34	+47	+1.0	+41

## Accuracies

Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analyzed for that animal and its relatives.

## Mid Parent EBVs

Where MP is shown for the accuracy of an EBV it is a mid parent value. EBVs shown for embryo lots are mid parent values.

## Disclaimer

*The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.*

# LIMOUSIN ASSURANCE PROGRAM

This Northern Limousin Breeders' Sale has a requirement that all studs selling cattle are members of the Limousin Assurance Program (LAP).

As part of the program the studs sell only registered Limousin cattle which have been docility scored. We also provide warranties for fertility and docility as follows:

## **Fertility Warranty**

### **Females**

Females over 12 months and sold as unjoined are warranted fertile to natural service within 12 months. The purchaser is to have the right to a full refund of the purchase price of the female (excluding any costs and expenses of the purchaser) on submitting a veterinary report after the expiration of 12 months to the effect that the purchaser has been unable to get the female in calf to natural service. The veterinarian must state that in his opinion there is no evidence that the female has suffered any injury or illness since being sold to the purchaser which could have affected her breeding ability. The veterinarian must also state that in his opinion there is no evidence that the female has been subjected to embryo transfer procedures. The veterinary report (together with a statutory declaration by the purchaser to the effect that the substance of the report is true and correct) must be forwarded to the vendor (with a copy to ALBS) within 14 days of the first anniversary of the sale date.

### **Bulls**

All bulls sold as fertile and capable of natural service. The purchaser is to have the right to a full refund of the purchase price of the bull (excluding any costs and expenses of the purchaser) within six months of the date of the sale subject to submitting a veterinarian's report stating that the bull is infertile or incapable of natural service. The veterinarian must also state that in his opinion the bull has not suffered any injury or illness since being sold to the purchaser which could have affected his breeding ability. The veterinary report (together with a statutory declaration by the purchaser to the effect that the substance of the report is believed by the purchaser to be true and correct) must be forwarded to the vendor (with a copy to ALBS) within 14 days of the date being six months after the sale date.

## **Docility Warranty**

All animals are sold as having acceptable docility as defined as score 1, 2 and better than a score of 3 in the official scoring system of the Australian Limousin Breeders' Society. The purchaser is to have the right to a full refund of the purchase price of the animal (excluding any costs and expenses of the purchaser) within 28 days of the date of the sale or a replacement animal of similar quality and price to be supplied by the vendor subject to submitting a veterinarian's report stating that the animal is of unacceptable docility defined as score 4 or 5 in the official scoring system of the Australian Limousin Breeders' Society.

The veterinarian must state that in his opinion the animal has not been mistreated in a way which would have affected its behaviour since being sold to the purchaser. The veterinary report (together with a statutory declaration by the purchaser to the effect that the substance of the report is believed to be true and correct) must be forwarded to the vendor within 14 days of the date being 14 days after the sale date.

32%	26%	59%	60%	62%	67%	46%	38%	55%

Traits Observed: 400WT,600WT,DOC

Notes: Q30 is a younger upstanding bull in our draft. A well muscled sire who combines great capacity and softness with breed character and tremendous eye appeal. He is clean fronted and very structurally sound, with good growth for age combined with length of body and spring of rib. We believe he will bring real value to any programme. A top prospect and potential stud sire.

Traits Observed: DOC

**Notes:** This beautiful natured polled heifer is from our ever reliable and trusted maternal line that consistently delivers the goods. Her maternal sister sold to Toebelle Limousins last year as top priced female in NLBS sale. Royal Miss is broken in & will mature into a lovely matron. Sired by Summit Prediction N49 and backed by a solid data set.

## May 2021 Southern Limousin BREEDPLAN

Gest	CED	B.Wt	200Wt	400Wt	600Wt	Milk	Scrotal	Docility
-3.3	+3.8	+1.2	+26	+45	+59	+7	+1.7	+62
45%	30%	44%	43%	44%	42%	35%	44%	49%

Traits Observed: DOC

**Notes:** Super sweet polled apricot heifer by our herd sire Summit Prediction N49, maternal brother to the 2021 RAS Supreme Heif Interbreed Heifer who hasn't disappointed with his calves. This spunky heifer is structurally correct and displays femininity with softness and plenty of substance. Thea is broken in, comes with great EBV's and plenty of maternal predictability.
