Presidents Welcome

On behalf of the members of the Glenelg Regional Merino Field Day group I welcome you to our annual field day and ram sale.

In 2020 the Glenelg group conducted one of the largest multi-vendor online ram auctions in Victoria, it was also one of the most successful online merino ram auctions.

The result was testament to the quality of rams bred by the studs in the Glenelg group and the demand for local rams by commercial clients. The top price ram of the sale in 2020 was from Gleneden stud at \$5100 and second top price was for a Wurrook stud ram at \$4800, the average sale ram price was \$2375.

This year we intend on conducting an open cry ram auction at the Balmoral Recreation Reserve on the 9th of August, with all the studs, sale rams and other stock on display as was previously possible in 2019.

The Glenelg Field Day and Ram sale will also utilise the AuctionsPlus platform in conjunction with the physical sale. Giving buyers the opportunity to study the rams in detail online before the sale and bid on their selections during the sale.

We hope that the 2021 ram sale Season is more conventional than 2020, but the Glenelg group know, whatever happens we can still provide top quality rams for our clients no matter what COVID regulations are in place.

This year the Glenelg group is offering an outstanding team of auction rams, this is a result of our group members dedication and skill in producing the type of rams that merino breeders are looking for in our local area and around Australia.

We would like to thank the selling agents, Elders and Nutrien for all their help and support in making the Glenelg Field Day and Ram Sale a success every year.

We are also very thankful to all the sponsors of our event who advertise in this catalogue. Please support those business that invest in the continued success of the Glenelg Field Day.

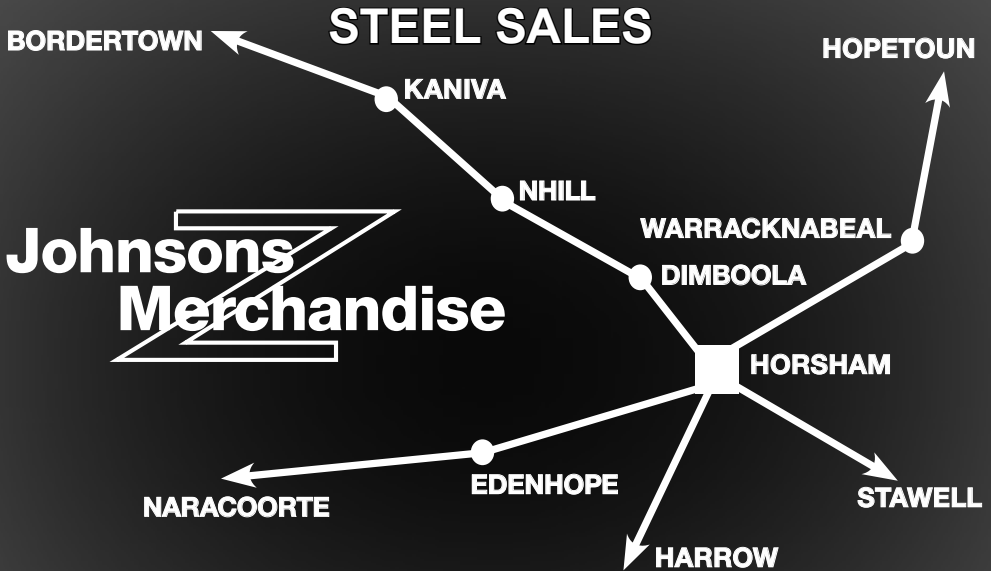

This year we welcome sale ram judge Sam Crawford who will be selecting the Champion and Reserve short and long wool sale rams.

We hope all who purchase from the Glenelg group this year find the rams they need to drive their business forward.

The Stud Flock was founded in 1964 with 50 selected ewes and a ram from Belbourie.

Rams were regularly bought from Belbourie until the 80's. Belbourie C.F.A ewes 54 bought in 1977 and 32 in 1978.

Rams since then have been purchased from Banavie, Sims, Uardry and Roseville Park along with semen.

We are enjoying the way the hobby and love of sheep has worked to this stage.

With sale of rams to two noted merino studs in Charinga in 2017 and Nerstane in 2019 which was the sales top price ram @ \$8250

We look forward again to showing our sheep at the G.R.M.F.D with their usual limited preparation.

The \$35,000 ram with principals Tim and Karina and Roger Polkinghome, buyer Wayne McClure Thornlea Merino Stud Harrow, Brent Flood.

Like us on: 

Mount Yulong was founded in 1980. It is very exciting to see the Poll Merino genetics expanding in the last few years and a genuine shift to the Poll Merino sheep for their dual purpose attributes. Being in Poll Merinos for such a long time, gives us the advantage, allowing clients to purchase genuine Poll genetics, with decades of breeding.

The objectives of the Stud is to concentrate on profit drivers, with emphasis on:

-Fertility

-Survivability

-Carcase

-Growth Rates

-Wool Cut

-Quality

The Rams we are producing have large frames, concentrating on depth and width. We are also trying to pack as much wool on them as we can. We consider ourselves a medium wool stud, but have been continually breaking the 19 micron with our entire wool clip. With deep crimping, positive testing, nourished wools and plenty of cut. In the last ten years we have been very hard on ewes who are not getting in lamb as well as ewes who are not raising their lambs, this is starting to pay off with increased weaning percentages in the last few years.

We feel this is giving our clients the benefits of making profits in both the meat and wool markets. We have a team of eight rams for auction at the Glenelg Field Day Auction and invite you to inspect them for yourselves.

For more information, see our ad in this catalogue.

Top price ram 2019 \$7500

Greg and Campbell Penny, Harry and Craig Pretlove

Gleneden stud was founded in 1988 with CFA ewes and rams from Pooginook.

Since then sires have included Merryville, Bindawarra, Charinga, Walaloo Park, Glendonald, Borambil, Banavie, Glenpaen.

Thanks to all who supported our online sale, which was a success. Top price sold to Craig Family Apsley \$5500.

We are selling our rams into local and high rainfall southern areas to repeat buyers.

Our aim is to produce large framed good bodied fine/medium microned sheep with long white positive testing wool.

Flock rams will be available in October for private sale.

The Kevlyn Merino Stud was registered in 1982. Our aims have always been to produce productive superfine sheep.

2014 and 2015 saw us introduce through AI Terrick West sire 220. This sire is big and long, weight on full feed of 130 kg and still testing 16.5 micron. He will be the foundation sire of a poll stud A Mount Yulong ram was purchased on property in 2014 to back up the AI program. The main focus of the poll stud is to breed bold crimping fine wool sheep that will increase carcass attributes and produce large volumes of quality wool. In 2016 we acquired a sire from Rockbank poll merino stud. We have used TW 220 sons that have the carcass and wool traits that we require. We purchased a Terrick West ram at Sheepvention in 2017 This ram has had a significant influence. 2018 a Bogo ram was purchased privately by Terrick West diesel at Sheepvention. The poll stud was registered in 2018. 2019 saw Jack return home to the business and is now a partner. With the return of Jack it was decided to increase the poll ewe base. 70 C.F.A ewes were purchased from Terrick West and 60 C.F.A ewes from Ridgway Advance. Semen from Pendarra orange 069 was used in AI over these ewes.

We look forward to displaying our rams at Glenelg field day and ram sale.

Regards Kevin, Lynne & Jack

Pyrinex® Super Simply Superior

Nothing beats new Pyrinex® Super for superior performance on difficult to control insect and mite pests in pastures. Pyrinex® Super controls Bryobia mite, Redlegged Earth Mite (including SP resistant strains), Lucerne flea, Cutworm, Aphids, Sitona Weevil, Pasture Webworm and more in Subterranean Clover, Clover and Lucerne seed crops. Containing dual modes of action which combine synergistically, Pyrinex® Super sets a new benchmark in knockdown control and residual protection.

Brucellosis Accred. Free - O.J.D – Vaccinates and HT-J Test Neg

Founded with 100 Old Cobran Blood ewes that were joined to Old Cobran semen sire Tyson, we have been using only Poll Merino sires since 1963.

Top rams from Old Cobran were purchased each year, including the 1998 Sydney Royal Fine Wool Champion. Since 2000 Terrick West sires have been purchased and are now also using Wallaloo Park sires.

Producing large bodied productive skinned sheep with well marked soft fine to medium wool, with a low prickle factor and flock average for the past three years of 18.7.

We have been shearing our wether lambs twice and this year they averaged \$228 over the hooks. We will have rams available on property during September and October.

An invitation is extended to inspect the Elmbank Polls at Hamilton Sheepvention and at our group sale now being held at Balmoral Showground.

112 Russells Road Nurrabiel Vic 3401

Warren Russell Mob 0427881204

Email melrosemerinostud@gmail.com

Brucellosis Accredited Free, OJD Vaccinated 15 years

Melrose stud was registered in 1934, when fine wool ewes were selected from the Melrose flock which commenced in 1880 with Tasmanian fine wool sheep. Initially rams were purchased from Valleyfield and Winton.

In 1975 Merryville rams were introduced, since then only fine wool genetics have been used. The poll flock was founded in 1995 with Kooringa Poll ewes

Melrose sheep are bred to be large framed genetically stable fine wool sheep cutting the maximum amount of long stapled, stylish 18 micron wool.

At Melrose we are striving to increase cut, maintain micron, advance body weight and fertility as well as continuing to improve the style and type of wool we grow. To do this we record the performance of many traits on all stud ewes and rams. Melrose utilise Merinoselect ASBV's and indexing to help us reach our goals. The flock is also visually assessed twice annually by independent classer Chris Bowman to ensure a balanced approach and independent advice to aid our continued improvement.

Melrose On Property Ram Sale 6 th October 2021.

Glendonald Merino Stud was founded in 1921 by A. E. McDonald of Boyeo. R.J. Harding purchased half the stud in 1974. The stud was based on Uardry Bloodlines. From 1980 Manderlay bloodlines via Roseville and Tara Park have been used. Recently, additions have been from White River, Hinesville and East Strathglen.

Glendonald has won two National Australian Supremes, and four National Australian Pairs.

Clients have won wether trials and flock competitions including four Victorian Flock competitions and Don Brown competitions, Condobolin, NSW. This year the Harrop family, from Knowsly won the McLennan McColl flock competition. Glendonald aims to breed by thrifty sheep carrying lots of good wool.

Wurrook Fine and Superfine Merino Stud established pre-1900.

Breeding from over 5000 stud ewes, Wurrook has one of the largest Merryville blood fine and superfine wool gene pools in the country.

Showing many Grand Champions at major shows, winning various Champion Sale Ram awards and topping numerous multi-vendor ram sales in recent years, the consistency and quality of Wurrook sheep has put the stud in a solid position to supply the industry with leading stud rams, flock rams, stud and commercial ewes and semen packages

Once again we would like to thank the Glenelg Regional Merino Field Day Committee for allowing us to be involved in the ram sale.

We are offering August shorn rams that will be two years old this September/ October.

SALE RAMS

Breeding economically viable sheep with suitability to their environment are key focuses of the rams at Valleyella.

Founded by the FitzGerald family on Wanganella bloodlines, the stud retains those foundations with Wanganella sires continuing to be purchased for the stud

A dash of bloodline infusions from Tara Park, Pooginook, Nerstane and Roseville Park in recent years has enhanced the stud's ability to produce well-structured, medium-wool rams for clients.

Valleyella's long term commitment to breeding sheep which have excellent doing ability in all pastoral areas has seen the stud continue to produce heavy-wool cutting sheep, with soft handling, bright and well nourished wool that shows good style.

The stud has continued to focus on lifting the wool cut without raising the micron, with the stud averaging 20.7 microns across the flock. Clients of the Valleyella stud have shared in the success over the years, attracting full competition in the market place for both wool and meat.

Valleyella prides itself on producing sheep to meet its client's needs of profitable woolgrowing. The stud continues to deliver sires that can introduce traits to produce market-desired wool grown on strong fertile Merinos.

Valleyella will offer eleven rams for sale at the Glenelg Regional Merino Field Day and Auction.

FIRGROVE POLL

Flock No P1322

John, Jenny & Joseph Sutherland

445 McIntyres Crossing Rd, Dunkeld Vic, 3294

firgrove@activ8.net.au

Joseph Sutherland 0407 108 679

John Sutherland 0409 395 845

Brucellosis-Free Accredited, Guidair Vaccinated

At Firgrove we aim to breed a **balanced merino**, where **muscle** and **fat** provide the engine to support a **productive, stylish white fleece** on a **fast growing, early maturing deep body**. Our genetics target and capture the markets of lamb, mutton, surplus sheep, (through fertility), and wool.

Resilience is bred into our sheep through **carcass traits** along with **worm resistance** to get them through the tougher periods and aid in **lamb and weaner survival**. Scoring breech wrinkle, breech cover and dag has allowed us to **cease mulesing**.

We use **ASBV's**, along with rigid visual classing and a **full pedigree** to select animals fitting these criteria.

The Firgrove adult clip averages 18.5 micron and runs under a winter stocking rate of 16DSE/ha. An animal's ability to survive and thrive under these conditions is vital.

Our Annual On-Property Sale is on Thursday October 14th.

THORNLEA

Principal – Wayne McClure

DISCLAIMER

SALE RAMS

WOOL TEST RESULTS SHOULD ONLY BE USED AS A GUIDE.

FACTORS SUCH AS ENVIRONMENT AND SEASONAL CONDITIONS AND THE AMOUNT OF FEED GIVEN TO RAMS ESPECIALLY SHEDDED SHEEP CAN VARY THE MICRON AND YIELD RESULTS.

WE RECOMMEND A "HANDS ON" APPROACH WHEN SELECTING RAMS.

ALL RAMS SHORN, TAGGED AND TESTED ACCORDING TO VICTORIAN MERINO STUD BREEDERS ASSOCIATION MINIMUM STANDARDS FOR MULTI-VENDOR SALES.
