#### WHY CHOOSE ASHMORE GENETICS?

- ◆ OVER 25 YEARS OF MEASURED PERFORMANCE
- ◆ COMMITMENT TO QUALITY DATA
- ◆ LEADING LAMBPLAN STUD
- ◆ ACCREDITED OJD, BRUCellosIS, FOOTROT, LICE
- ◆ EXCELLENT STRUCTURE
- ◆ ELITE EATING QUALITY GENETICS
- ◆ FREE FLOCK RAM DELIVERY AUSTRALIA WIDE

# Ashmore 2021 Catalogue

## WELCOME

The Fischer Family invite you to attend our 29<sup>th</sup> Annual Ram Sale on Monday September 27<sup>th</sup>, commencing at 12.30pm on our property at Ashmore, Wasleys. We are confident that our genetics will increase productivity and profit in your prime lamb flock.

### Superior Genetics

Each year we use rams with the best genetics available for commercially important traits – birth weight, growth, muscling, worm resistance and meat quality. Their lambs are more valuable in the saleyards and over the hooks.

All ASBVs and Indexes in this catalogue are from 15<sup>th</sup> August 2021 LAMBPLAN Across Flock Analysis.

### Quality Assured

- MN3V accredited for OJD (#SO92)
- Ovine Brucellosis Accredited Free (#956)
- Guaranteed footrot and lice free
- Vaccinated with ScabiGuard (marking), Gudair (weaning), 6in1 (6 monthly)
- Drenched with Cydectin Long Acting – 3 months worm protection

### Additional Information

We have an excel version of the catalogue on

our website with an expanded list of ASBVs and Indexes for every ram.

Videos of every ram are on AuctionsPlus.

Visit [www.ashmorewhitesuffolks.com](http://www.ashmorewhitesuffolks.com) for more detail.

### COVID-19

We plan to implement the following for our 2021 ram sale to ensure it adheres with COVID19 health protocols as recommended by the Department of Health. Every person must register their attendance either via QR code or manually.

- 1.5m distance in the seating between people from different businesses and social distancing
- Lunch served as normal, no self serve facilities
- Auctions Plus for every ram with audio stream
- Videos of every ram on Auctions Plus
- Free delivery of every flock ram incl interstate buyers (ourselves personally or transporter if borders stay closed)

We look forward to your company and attendance on Monday 27<sup>th</sup> of September.

If you have any questions about this or any other information in this catalogue feel free to call Troy on 0456 230 099.

Yours sincerely,

Brian, Rhonda, Troy and Nette Fischer

## Information on ASBV's and Indexes

All of the breeding values displayed on our sale rams are ASBVs meaning they meet the quality and accuracy standards that LAMBPLAN set. Demonstration of our genetic advantage is seen above where the 2020 sale team are 15 index points better than the National Terminal Average. Genetic trends for each trait and index are shown over the page.

A brief explanation of each trait follows.

**Birth Weight (BWT) ASBV** is based on measured birth weight of lambs adjusted for age of dam. The lower the ASBV the lighter is the estimated progeny birth weight potential.

**Weight (WWT, PWT) ASBVs** describe the animals' genetic merit for growth rate. A positive ASBV means the animal is genetically faster growing. Weight ASBVs are available for weaning (100 days), post-weaning (200 days), and yearling, hogget and adult ages.

**Fat Depth (PFAT) ASBVs** describe the value of an animals' genes for fat depth at a constant weight – a negative ASBV means a genetically leaner animal.

**Eye Muscle Depth (PEMD) ASBVs** describe the value of animals' genes for eye muscle depth at a constant weight – a positive ASBV means a genetically thicker-muscled animal, and one that will have more of its lean tissue in the higher-priced cuts.

**Worm Egg Count (PWEC) ASBVs** describe the value of animals' genes for carrying worm burdens – a combination of being genetically less likely to pick up worms and being better at getting rid of them.

**Terminal Carcase Production (TCP) index** has been created to assist producers to achieve gains in their major production traits, such as post weaning weight and muscling, as well as ensuring consumer satisfaction from lamb is maintained through focusing on key eating quality traits such as shear force (tenderness) and intramuscular fat (marbling).

Breeding Values for additional traits and indexes on the sale rams, including eating quality and LEQ, are available on the Sheep Genetics and Ashmore websites. If you require any additional information or explanation regarding the use of ASBVs or Indexes, please contact Troy on 0456 230 099.
