26	NBNR65	641	5.5	18	10/03/2020	1.13	39.0	
27	NBNR48	667	5.0	18	2/03/2020	1.16	35.0	

* The latest TACE Eval. has slightly altered all EBV's so please check. Major changes are noted above.

* All bulls have reached min requirements for scrotal size taken independently by Dr Chris Hallett.

* The now 18 mo's scrotals were taken in June and would obviously be bigger now.

* Due to the wet conditions we have treated minor inter-digit infections with Engamycin.

Australian Association of Cattle Veterinarians

Recommended minimum scrotal circumference guidelines

Age Mths	SS
12 to 15	30 cm
18-21	32 cm
24 +	34 cm

12 mo bulls over page. Their scrotals were taken 9/8/21.....
