BEVERLEY 2021

WELCOME

Welcome to our eighth annual Beverley On-Property Merino Ram Sale.

“The more things change, the more they stay the same”

The COVID 19 pandemic is still dominating every aspect of life. Fortunately, agriculture has escaped much of the economic devastation seen in other industries and will be essential in Australia’s road out of the pandemic.

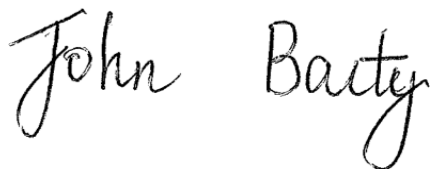

The season has been generally very favourable for most areas. An early break followed by consistent rainfall has led to good pasture growth. More recently we have been challenged by cold and wet weather which has caused some animal health issues. We look forward with renewed optimism to a good spring.

The wool market at the superfine end has been extremely strong. This coupled with strong sheep prices has resulted positive financial outcome for most woolgrowers.

We are pleased with the rams we are offering for sale this year and commend them to you. They are well grown and represent our philosophy of a bigger framed sheep with whilst maintaining a quality wool. Owing to the success of last years’ sale, we have increased the number of rams for sale to give our buyers more choice.

Our thanks go to the team at Nutrien for their ongoing support in running this sale.

Best wishes,

A handwritten signature in black ink that reads "John Barty". The signature is written in a cursive, flowing style.

ABOUT BEVERLEY

The Beverley Superfine Merino Stud, which was founded in 1956, had its origins in the early 1900's. The property was originally settled in 1919 by John Barty Snr on 678 acres. Today, the property consists of approximately 7500 acres and is operated by the founder's son Mac, his son John and wife Kerryn, grandsons Alexander and Lachlan and families.

The property is situated 30km South of Bendigo in gently undulating country. The area was once a bustling centre for goldmining activities in the late 1800's. The soil types range from granite on the East side of Mt. Alexander, through ironstone to basalt country on the Coliban River. The average rainfall is approximately 600mm.

Each year, 13,000 adult sheep plus 5,000 lambs produce between 65,000 and 70,000kg of 15.5 to 18.0 micron wool. A commercial herd of 50 cows is also run in conjunction with the sheep enterprise. Shearing takes place annually in September/October.

The production aim at Beverley is to breed large framed superfine sheep with good constitutions and a soft, well nourished staple with a strong emphasis placed on style and character.

The stud is based on the best of Alfoxtton, Merryville and Rockbank bloodlines. Over recent years Beverley Merino Stud has invested in the future by securing many top sires including "Alfoxtton Diplomat" purchased for \$46,000 in 2010. He has proved to be very influential on our whole flock. In 2018 we purchased the top priced rams at Canberra and Mudgee from Merryville stud for \$12,000 and \$17,000 respectively.

In October 2014, we founded Beverley No. 2 Stud through the purchase of 123 top stud ewes at the One Oak dispersal to give our clients more options in the pursuit of improving wool cut. Along with these ewes, we also purchased a top Nerstane ram in Dubbo 2015 for \$24,000 to compliment this venture. In August 2017, we purchased a share in Eilan Donan "Harvey" who sold for \$52,500 at Dubbo. In 2018 we purchased a Roseville Park ram for \$20,000.

In future years, we believe that the progeny of these sires will only enhance the quality of rams we are able to present to our clients.

COMMENT FROM STUD CONSULTANT

Seasonally it has been pretty good in most areas, whilst it was reasonably dry through the Autumn unless you were fortunate to cop a freakish rain event like some, there was limited rain until June and then the heavens opened and have remained open since. This constant wet is starting to put the pressure on livestock and presenting some animal health issues, particularly worms. The positive is we are set for a good Spring.

There is quite a lot of shearing happening and from what I'm seeing wool is generally sound and cuts are up 20%, merino wool incomes will be up substantially when compared to last year. Interesting to note 17 microns would now be double its lowest point over the past 12 months and we all know how good sheep prices are and look to remain so in the foreseeable future.

I have said to many people and without trying to repeat myself – **I have never seen in my lifetime a bigger opportunity to make money out of sheep than we have in front of us today.**

Based on the success of last year's sale, the very positive wool market and, anticipated demand, we have decided to increase the offering this year by about 20 Rams. This decision was made earlier in the year so with this in mind, I selected a group of 120 Rams in February with the intention of narrowing these down to approximately 80 for the Sale.

Normally I would re class all rams again in late July, unfortunately due to Victoria being in lockdown I was unable to do this myself and entrusted this task to my colleague Brent Flood. Brent needs little introduction and has been on board with Wool Solutions for around 12 months now. He will be a great asset to our team and will transition over to more of my clients over time. Brent shares my views on the importance of sound structure and good wools. I plan to be back at Beverley later in August to Catalogue the Rams.

Demand and supply are certainly starting to play out in the market, the plain facts are that there is a shortage of genuine superfine/fine types that Beverley genetics are renowned for. I am very optimistic going forward for this sector of the market.

Finally, it is certainly my intention to be present at this year's Sale, if any of you require assistance with selection, please give me a call. I look forward to catching up and as always welcome your comments.

EXPLANATION OF TESTING TERMINOLOGY

FD The actual measured Mean Fibre Diameter.

SD Standard Deviation is a measure in microns either side of the mean fibre diameter in which 68% of fibres lie.

CV Coefficient of Variation of fibre diameter is expressed as a percentage of standard deviation over mean fibre diameter.

CF Comfort Factor is the percentage of fibres less than 30 microns.

CURV The mean fibre curvature measured in degrees per mm of fibre length. The lower the the angle, the lower the crimp frequency.

SPIN The Spinning Fineness combines the Mean Fibre Diameter and the Coefficient of Variation into a single measure of fineness. A lower CV will result in an improvement in spinning performance.

**TERMS AND CONDITIONS
FOR THE SALE
OF STUD STOCK BY AUCTION**

1. All bids at auction or offers to purchase are made on, and are subject to, these terms and conditions of sale, (these terms) and bidders agree to abide by and acknowledge that they will be bound by these terms.

2. The Vendor reserves the right to bid by agent, or in person, and may withdraw any lot or lots without declaring the reserve, and subject to Clause 9, the higher bidder will be Purchaser. However, the Selling Agent without giving any reason whatsoever may refuse to accept the bidding of any person.

2.1 The Selling Agent or auctioneer may settle any disputed bid or put up the stock again at least interests of the vendor and may do so without giving any reason.

2.2 The auctioneer may refuse to accept any bid which the auctioneer believes is not in the best interest of the Vendor and may do so without giving any reason.

2.3 A bidder will be deemed to be a principal unless prior to bidding the bidder has given to the auctioneer a written authority to bid for another person.

2.4 The stock will be in all respects at the risk and expenses of the Purchaser immediately on the fall of the hammer or in the case of a private treaty, immediately upon acceptance by the Vendor of the Purchaser's offer to purchase the stock. Neither the Selling Agent nor the vendor will be responsible for the safekeeping of the stock after this time.

3. On conclusion of the sale and before delivery the Purchaser must pay for all stock purchased immediately in cash. The Selling Agent may require any bidder before or during a sale, to deposit with the Selling Agent, an amount on account of the purchase price;

3.1 If delivery is given or possession is obtained by or for the Purchaser before payment, the stock will remain the property of the Vendor and the Purchaser will hold the stock as trustee for the Vendor, but at the risk of the Purchaser until payment of the purchase price in full and clearance of all negotiable instruments comprising any part of the purchase price;

3.2 At any time before payment of the purchase price in full, the Vendor or the Vendor's agent may recover possession of the stock and may come onto any lands occupied by the Purchaser to do so or to inspect the stock at anytime and may sue the Purchaser to recover possession of the stock.

4. The Purchaser acknowledges that the stock for sale has been available for inspection before that sale and the Purchaser is deemed to have inspected the stock to the Purchaser's satisfaction;

4.1 The stock are sold subject to any existing faults whether or not such faults are discoverable by inspection. All conditions and warranties in respect of the stock which might otherwise be implied by law are to the extent permissible by law expressly excluded.

4.2 The Purchaser acknowledges that no representation expressed or implied has been made by the Vendor, the Vendor's agent or the Selling Agent as to the condition of the stock sold. If any breach of a conditions or warranty implied by law arises the Vendor has the option, to the extent permitted by law, to replace the stock with similar stock, improve the stock or refund payment of the stock. The Selling Agent will not be liable for any deficiencies in numbers of any lots sold.

4.3 The Selling Agent gives no warranty as to the Vendor's right to sell and is not liable in respect of any error or omission in the description or pedigree, and the Purchaser will not be entitled to void the sale, reject the stock or claim any compensation, damage or reduction in the price owing to any such mis-descriptions.

5. Any representation made by the Vendor or Selling Agent, that any female has been pregnancy tested in calf means only that a certificate in writing will be supplied to the Purchaser. This certificate will be signed by a qualified veterinary surgeon certifying that the female has been pregnancy tested on a date specified on the certificate and that in the veterinary surgeon's opinion the female was in calf on that date. If the opinion is incorrect neither the Vendor nor the Selling Agent will be liable to the Purchaser.

6. Retention of semen rights by the Vendor

6.1 This condition applies when the Sale Catalogue or the Agent announces prior to the auction of any Lot that the Lot is subject to the Vendor retaining any rights to the semen of the Lot.

6.2 "Semen Rights" means any right to semen reserved to the Vendor including the right to market the semen.

6.3 The Vendor will display in writing before the sale or in the Sale Catalogue or in a prominent place the Vendor semen rights terms and conditions.

6.4 The Purchaser warrants that the Purchaser understands, agrees to and accepts the semen rights terms and conditions.

6.5 The Purchaser acknowledges that if the Purchaser breaches the semen rights terms and conditions the Vendor may be entitled to recover damages from the Purchaser.

6.6 The Vendor hereby releases the Agent from any liability, claim or action whatsoever however arising in relation to the Vendor semen rights.

7. Subject to any clerical errors the prices recorded in the sale book by the Selling Agent's clerk will be binding on the Purchaser and the Vendor. The Purchaser must consult the Vendor in relation to pedigree certificates and transfers and acknowledges that it is not the Selling Agent's responsibility to acquire these on behalf of the Purchaser. The Vendor will notify the society or association for the relevant breed of the Purchaser's details if stock sold is pedigree stock. The Purchaser is responsible for paying the appropriate transfer and registration fees associated with any registration of all stock sold.

8. If the Purchaser does not comply with any of these conditions any stock purchased may without notice to the Purchaser, be resold as determined by the Selling Agent, at the risk of the Purchaser, and any short fall arising from such sale must be paid by the Purchaser. The Purchaser is not entitled to any profit arising from such sale.

9. Interest will accrue and be payable by the Purchaser on any part of the purchase price not paid immediately on conclusion of a sale or as agreed and on any fees and charges incurred by the Vendor or the Selling Agent. Interest will accrue at the rate of 2% higher than the rate set out in the Penalty Interest Rates Act 1958.

10. Notices:

Any notices, invoices, demands or approvals (notices) required to be made in writing or authorised will be duly made if given in person, by post, by facsimile, telegram or e-mail and will be deemed to have been served:-

10.1 If made in person at the time of such service; or

10.2 In the case of prepaid ordinary post, when it would be received in the ordinary course of post whether in fact received or not; or

10.3 In the case of facsimile transmission, at the end of the transmission as recorded by the sender.

In the case of (10.2) or (10.3) notices must be sent to the address or facsimile number of the respective party which is recorded in the sale book or at such other address or number as the addressee may advise.

11. GST:

All payments to be made under this agreement are exclusive of GST as that term is used and defined in A New Tax System (Goods and Services Tax) Act 1999 (as amended).

The Purchaser acknowledges that in addition to all payment payable by the Purchaser for all supplies made under this agreement the Purchaser must pay all applicable GST on supplies made.
