Auctioneer: Paul Dooley

Mobile: 0458 662 646

Stud Advisor: Craig Wilson

Mobile: 0428 250 982

REBATE TO OUTSIDE AGENTS

5% rebate will be paid by the vendor to outside agents accompanying buyers to the sale and settling on their behalf within seven days of invoicing

Estimated Breeding Values.

The ASBV's presented in this catalogue were generated by Merino Select in the analysis dated 21st August 2021. For the most current analysis results please search for the sale on the Merino Select website or the Ram Select App. The ASBV's reported are based on first stage data (yearling) collected under the Sheep Genetics quality control protocols.

An ASBV gives the most accurate indication of the genetic value of each animal. It takes into account not only the individuals own performance relative to its peers but also the performance of its siblings, other relatives, the heritability of the traits, whether it is a single or twin, date of birth and the age of its mother.

Selecting animals on ASBV data will give a more accurate reflection of the performance of the progeny of a sire than selection on phenotypic (raw) values

Definition of terms.

ASBV: Australian Sheep Breeding Value, see explanation above

YWT: Yearling Body Weight %, + is faster early growth, Heavier

AWT: Adult Body Weight %, + is heavier mature weight, - is lighter

YCFW: Yearling Clean Fleece Weight, + is Heavier cutting, - is lighter

ACFW: Adult Clean Fleece Weight, + is Heavier cutting, - is lighter

YFD: Yearling Fibre Diameter, - is finer, + is broader

EBRW: Early Breech Wrinkle, - is less wrinkle on the breech area

Indexes

The index value gives an indication of the overall genetic merit of the animal based on the ASBV's for each trait and the breeding objective (Index) selected. For each index the average is 100. The higher the Index value the quicker the animal will take you to your selected breeding objective.

The MPP_W Index

This year we have been working on developing a custom index, one which better reflects the direction of our breeding program.

Our new index MPP_W is aimed at giving the following genetic response to the major traits in our breeding objective.

Trait	Predicted Response over 10 years
YWT: Yearling Body Weight	+8.9%
AWT: Adult Body Weight	+ 3.8%
YCFW: Yearling Clean Fleece Weight	+7.9%
ACFW: Adult Clean Fleece Weight	+4.4%
YFD: Yearling Fibre Diameter	- 0.2
NLW: Number Lambs Weaned	+ 7.6
EBRW: Early Breech Wrinkle	- 0.6

FP: Fibre Production Index. Based on a production system which retains wethers as wool growers. More emphasis on reducing micron & maintaining fleece weight.

MP: Merino Production Index. Based on a production system whereby wether progeny are sold at 11–12 months. Balance between reducing micron, increasing fleece weight and early growth.

MPP_W: Our custom index which accurately reflects the Bogo breeding objective. See explanation above. Similar to MP+ index with the addition of reducing breech wrinkle whilst increasing fleece weight and early growth.

The raw fleece data (FDD, SD, CV, CF) based on wool samples taken from the midside of each animal in August 2021.

Body weights were taken on 19 & 20th August, with 24 to 48 hours curfew. The average body weight of the 600 rams weighed was 76 kg.

Fleece weight measurements were recorded at shearing in early April with 10 months wool growth and at 10 months of age.

FD: Fibre Diameter - average micron.

FDD: Deviation of the micron of the individual from the average of the test group. This year's group of 600 rams tested 18.0 therefore an animal with a FDD of -1.0 had a Fibre Diameter of 17.0 when tested in early August.

SD: A measure of the spread of micron of the fibres in a sample. Lower is better

CV: The spread of fibres in a sample expressed as a percentage.

CF: Comfort Factor. The percentage of fibres in a sample less than 30 micron, the higher the better.

BWP: Bodyweight expressed as percentage of the deviation from the group average with 100 being average. An animal with a BWP of 110 was 10% heavier than the average of the group.

CWP: Clean fleece weight percentage

GWP: Fleece weight expressed as a percentage of the deviation from the group average with 100 being average. An animal with a GWP of 110 cut 10% more wool than the average of the group.

BirthT: Whether the animal was conceived as a single (1) or a twin (2)

RearT: Whether the animal was reared as a single (1) or a twin(2)

Visual Scores

The 2019 drop rams have been scored for visual characteristics, the following table provides a brief explanation of how to interpret this data. Generally a score of 1 (one) is best and 5 (five) is worst, the exceptions being Hcks and FaceC where the ideal is a score of three and a score of one or five considered less desirable. As the animals have been assessed for these traits throughout their lives and they are forever developing and adjusting to the environment and management you should use this data in conjunction with your own appraisal of each animal. For further information and explanation of these visual traits please refer to the Sheep Genetics Visual Classing Guide.

Code	Trait	Score				
		1	2	3	4	5
Col	Wool Colour	White			Excessive	
Char	Wool Character	Well defined			No Crimp	
SStrc	Staple Structure	Thin			Blocky	
FIRot	Fleece Rot	Nil			Excessive	
Face C	Face Cover	Bare		Ideal	Excessive	
Pigmt	Pigment	Nil			Excessive	
Ffeet	Front Feet	Ideal			Poor	
Bfeet	Back Feet	Ideal			Poor	
Hcks	Hocks	In		Ideal	Out	

- The wool traits (colour, character, staple structure and fleece rot) were assessed in mid August with 4 months wool growth.
- Structural traits (Hocks and feet) were assessed in May.
- Where ever possible we employ trained contractors to undertake the visual assessments.

Col: Wool Colour

Char: Wool Character – Degree of crimp definition

SStrc: Staple structure – Staple size

FIRot: Degree of fleece rot and water stain present

Face C: Degree of wool growth on face

Pigmt: Degree of pigmentation on non wool growing areas

Ffeet: Shape & structure of the front feet

Bfeet: Shape & structure of the back feet

Hcks: Structure of the hocks

The measurements presented in this catalogue are intended as an aid to assist with your ram selection. Consideration should also be given to the important visual traits (conformation, constitution, type, wool quality etc) when making your selection decisions.

Test details

May June 2020 drop

Machine Shorn 8th April 2021

Current Test August 2021

4 months wool growth

(600 rams tested)

Average FD – 18μ

Testing House:

Riverina Wool Testers (Laserscan)Health

Management

- Rams were fed a ration of Conqueror 16% Protein sheep pellets from weaning until April
- Vaccinated Gudair at lamb marking
- Drenched with Zolvix on delivery
- Vaccinated Weaning
- Vaccinated 6 in 1 booster 3rd April, 2021.
- Click Zin Sept 2021 on Polls

AuctionsPlus

This year we are excited to be interfacing our sale with Auctionsplus. This is to help people who are unable to attend the sale due to distance and COVID19 restrictions to still be able to fulfill their Ram Purchase requirements.

Important - If you are intending to operate on Auctions Plus and are not already registered, your registration must be completed 24hours prior to the sale. If you require assistance please contact us or your preferred agent. If anyone has any enquires about using Auctionsplus please contact us

Covid-19 Management

The health and safety of you our clients and our staff and affiliates is of utmost importance. To this end our 2021 ram sale will be a bit different to past sales. The sale will be conducted under strict COVID-19 protocols which will include:

- *Scanning the QR code upon arrival.*
- *Practise safe social distancing – rams will be penned to help facilitate this*
- *Please limit the number of people representing your business to essential business members only.*
- *Utilise hand washing facilities: We will have hand sanitiser available on sale day.*

Catering will be available, however will be provided and served under strict COVID-19 guidelines.

Pre-Inspections by appointment are available and encouraged. Please contact:

Mal Peake 0408 426 103, Will Wragge 0428 396 698 or Matt Crozier 0427 486 805, or your preferred agent to organise a convenient time

If you are not comfortable in attending the sale or cannot due to the above restrictions please contact us as we have plans in place to ensure you can still participate in the sale.

Thank you in advance for adhering to these protocols. Your wellbeing is our highest priority.

Free delivery to your property will be available to all purchasers.

Important - If you are intending to operate on AuctionsPlus and are not already registered, your registration must be completed 24 hours prior to the sale. If you require assistance please contact us or your preferred agent.

Peter Westblade Scholarship

Providing opportunities to the next generation of leaders in the sheep and wool industry

Peter Westblade Scholarship Applications open

Monday 4th October 2021

Wyvern Weekend

12th-13th February 2022

Save these dates!

The Peter Westblade Scholarship honors the Late Peter Westblade a true visionary passionate about breeding profitable sheep and a strong supporter of young people interested in agriculture.

The Scholarship and Wyvern Training Weekend exists to promote the practical skills associated with the sheep and wool industry and aims to deliver hands on experience and mentoring to young people aspiring for a career in this dynamic industry.

**NEW
21 DAY ESI**

SHEEP

THE FIRST CHOICE WEANING AND SUMMER DRENCH

Your sheep need the best protection against worms for optimal health and performance. Zolvix Plus is the only combination drench that delivers the power of monepantel. Its unique mode of action provides >99.9% efficacy against a broad spectrum of internal parasites, including single, double and triple resistant strains.^{1,2} Its **new 21-day Export Slaughter Interval** is the lowest of any combination drench containing abamectin, making Zolvix Plus the first choice weaning and summer drench. Always read and follow the label directions.

Elanco

**elanco.com.au
1800 226 324**

1. Refer to registered label. 2. Hosking, B.C. et al. (2010). A pooled analysis of the efficacy of monepantel, an amino-acetonitrile derivative against gastrointestinal nematodes of sheep. *Parasitol Res* 106:529-532. Zolvix Plus contains 25 g/L monepantel and 2 g/L abamectin. For full product details, contact Elanco Customer Service on 1800 226 324 between 8 am and 5 pm EST Monday to Friday. NUTRIEN AG SOLUTIONS®

PROVIDING QUALITY AGRICULTURAL SERVICES

Nutrien Ag Solutions is committed to providing clients with services and expertise to better their farming operation.

Specialising in:

- Rural Merchandise
- Real Estate
- Finance
- Fertiliser
- Livestock
- Equine
- Insurance
- Wool

Thankyou for your on-going support of Bogo Merinos.

SEMEN COLLECTION & MARKETING RIGHTS

Bogo Merinos Retains 50% semen share in every ram sold, unless negotiated otherwise.

GUARANTEE

It is important to us that you are happy with your purchase.

If you should encounter a problem with any ram you purchase within 12 months of the purchase date we will replace the ram with one of equal quality and value, or credit the full amount less GST against any ram you purchase from us at any sale venue we offer rams.

DISCLAIMER

The data provided in this catalogue is intended as an aid to assist with your selection decisions. Bogo Merinos accepts no responsibility for the accuracy or repeatability of the measurements, classing scores provided.

Bogo Merinos

Performance Genetics

Bogo Merinos/ Industry Leading Breeders of Merino and Poll Merino Genetics.
Part of Cavan Station.
