SEMEN RETENTION

Bundara Downs advises their intention to maintain a semen interest in all rams offered. This means Bundara Downs reserves the right to collect semen from any ram offered, for use within own flock only (unless otherwise stated).

This collection of semen is to be done at the convenience of the purchaser and at the cost of Bundara Downs.

FLOCK PERFORMANCE FIGURES

Performance figures in the catalogue are provided by LAMBPLAN from information collected on our flock by Rachel Chirgwin of RAC Farming (Ph. 0428 600 265)

The figures shown are estimated breeding values (EBV's) for growth, fat depth and eye muscle depth at post weaning (9 months). They are compared with all White Suffolk sheep in the LAMBPLAN data base. The index value shown - Carcass Plus - is a combination of the above EBV's describing the value of each ram in a breeding programme.

HYPOTRICHOSIS (HrF)

Bundara Downs takes its responsibilities as a producer of seed stock genetics for the prime lamb industry seriously. Not only do we need to provide the industry with genetics that improve profit driving traits such as growth, efficiency, yield, muscling and fertility, we have a responsibility to ensure genetic conditions that could have a negative effect on productivity are identified, managed and eliminated. When Hypotrichosis (HrF) was identified as an issue in White Suffolk's (and other breeds), Bundara Downs took the bold (and expensive) step of DNA testing our White Suffolk stud sheep resulting in a DNA tested HrF free flock. All progeny are from DNA tested HrF free sires and dams meaning there are no HrF carriers in our registered flock. Because HrF is recognised as a simple autosomal recessive trait, meaning that both parents must carry the gene for it to be expressed in the progeny, using DNA tested HrF free Bundara Downs rams or ewes and their progeny means the problem will not appear in their progeny in your flock, even if HrF is present in your flock.

WHITE SUFFOLK STUD HISTORY

The Bundara Downs White Suffolk stud was founded in 1993 with the purchase of elite genetics from highly successful studs within Australia. From this solid foundation, we are producing high quality soundly structured rams that are making a positive impact on the prime lamb industry. To do this we evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. The Lambplan data is compared across studs within Australia to give us a comparison of our performance, not just within our stud.

Acquisition of leading sires has enhanced our excellent muscling and growth without restricting our genetic pool, allowing us to produce rams with varied traits to suit different production systems of our clients. In 2011 Bundara Downs joined the Super Whites group, to further increase genetic gain within the stud through access of high performing sires.

POLL DORSET STUD HISTORY

The Bundara Downs Poll Dorset stud was founded in 2002 with the purchase of stock from renowned studs within Australia. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Poll Dorset stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions. We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry.

The Poll Dorset stud produces rams with exceptional muscle while maintaining sound structure and conformation. We target sires with clean points to reduce grass seed issues as well as a smooth modern shoulder to maintain the lambing ease. In 2006, Bundara Downs joined the Meat Elite group to identify, develop and utilise superior genetics.

SUFFOLK STUD HISTORY

The Bundara Downs Suffolk stud was founded in 2015 with the purchase of stock from renowned studs within Australia.

The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs.

The Suffolk stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions.

We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months.

This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry.

Bundara Downs main aim is to breed a Suffolk with good growth, positive fat and muscle while maintaining the breed attributes.

MEMO OF SIRES

| | |
|----------------------|---|
| Bundara Downs 193386 | Used as a ram lamb as outcross over ewe lambs. |
| Bundara Downs 181546 | AS 160516 son with good eating quality. Won the interbreed group of 3 rams. |
| Bundara Downs 181503 | Out cross ram with good type and balance of figures. |
| Bundara Downs 181653 | G 160103 son with excellent muscling. Won the interbreed group of 3 rams. |
| Bundara Downs 182596 | W 173980 son with good figures. |
| Bundara Downs 183069 | W 173980 son with good figures and exceptional type. |
| Bundara Downs 181596 | Exceptional carcass ram with good type and balanced figures. Sired by Illoura 160621. |
| Bundara Downs 181462 | Outcross ram with excellent muscling. |
| Ella Matta 180100 | Record price ram in SA. Purchased in partnership with Anna Villa and Ashmore studs. |
| Leahcim 180361 | Outcross from used for backing up AI programmes. |
| Ashmore 180986 | Out cross ram with excellent figures. |
| Ashmore 180080 | Top price ram Ashmore sale. Purchased in partnership Woolumbool & Majarda studs. |
| Illoura 181598 | Out cross ram with exceptional growth. |
| Yonga Downs 180703 | Top price ram Wagin sale WA. Semen used. |
| Somerset 180279 | Out cross ram with excellent hind quarter. Semen used. |
| Pepperton 180468 | Out cross ram purchased in partnership with Gemini stud. |

MEMO OF SIRES cont.

| | |
|----------------------|---|
| Woolumbool 173980 | Exceptional muscled ram with excellent EQ. Purchased half share with Woolumbool stud. |
| Bundara Downs 179821 | Well muscled ram with good type and excellent EQ. |
| Illoura 160621 | Top price ram SAFBI sale. Excellent type and outcross ram. |
| Gemini 180171 | Super Whites YST. Semen used |
| Gemini 170470 | Top price ram Gemini sale. Exceptional carcass and balance of figures. |
| Bundara Downs 181548 | Exceptional ram used heavy in stud. Outcross ram with balance of figures and good LE. |
| Bundara Downs 182708 | Outcross ram with good balanced figures. |
| Bundara Downs 181700 | Out cross ram with exception growth at an early age of weaning weight. |
| Bundara Downs 170180 | Sired by HF156, exceptional figure with a proud arrogance of stance and presence. |
| Derrynock 180016 | Exceptional eating quality and balance of figures. |
| Woolumbool 184993 | MEA YST semen with good eating quality and growth. |
| Linton 160625 | MEA YST semen with good eating quality and growth. |
| Karinya 188123 | Outcross blood with excellent growth & muscle. Semen used. |
| Kerangie 180501 | Top price ram Kerangie Sale. |
| Lynburn 170125 | Suffolk ram purchased in partnership. Exceptional carcass and outcross pedigree. |
