COOINDA BORDER LEICESTERS

4th On Property Ram Sale

Tuesday 14th September 2021

Offering 65 Flock Rams

Including 60 \$Superborder\$

Inspections from 11am

Auction commencing at 1pm

*Please note due to Covid restrictions we will not have any catering available at the sale

Selling Agents:

CPS Thomas Ballhausen

Wes Thomas: 0428 634 173

Elders

Paul Jameson: 0428 667 998

Elders Dubbo: 02 6883 1800

We would like to welcome you to our 4th on property ram sale and thank you for your ongoing support.

Due to ongoing Covid restrictions our sale will be run a little differently to usual this year. We will be interfacing our sale with AuctionsPlus for the first time to allow you the option of bidding from home. Videos of all lots will be available to view on the AuctionsPlus website in the lead up to the sale or alternatively inspections of rams on property can be arranged at a time that suits you. On sale day if you are attending in person we ask that only one person from each business attends and please only attend if you intend on registering to bid. Covid safe procedures will be in place so ensure you check in, wear your mask & keep your distance from each other.

Our flock is performance recorded through Lambplan with a focus on selecting for animals with excellent fertility (NLW), maternal (MWWT), carcass (PFAT, PEMD) and growth traits (WWT, PWWT). The ASBV information displayed in our catalogue has been calculated in the 15th of August Lambplan analysis. All efforts have been made to ensure we provide accurate data both in the analysis and this catalogue.

The Border Leicester Cross Index shown in our catalogue has been developed to suit a production system using BL sires crossed to merino dams producing 1X progeny. It has a strong emphasis on fertility, maternal and early growth traits whilst capping adult ewe weight. The average BLX of our 65 rams on offer is 131.9 compared with the breed average of 120.5. The BLX index has replaced the older Maternal \$ index which is being phased out, it is important to note the two index's cannot be directly compared.

We have maintained our health status of OB Accredited Free and OJD rating of MN2-Vaccinated for added peace of mind.

Inspections will open at 11am with the Auction to commence at 1pm. Unfortunately due to the ongoing Covid situation we will not have any catering available on sale day. Delivery on rams purchased can be arranged, please speak with us after the sale if required.

Our future sale ram numbers will be driven by your demand so please get in touch with any feedback or enquiries on 0407 537 836 or cherie@cooindaborders.com.

George & Cherie Pagan

Cooinda Health Status & Treatment Information

- Accredited Brucellosis Free (Accreditation No. OB 17/31)
- OJD Market Assurance Program MN2V (Accreditation no. NS21005)
- All rams approved Gudair vaccinates
- Vaccinated with 6in1+B12 and Eryvac at Marking & Weaning
- Drenched with Triguard on 28/8/2021
- Last 6in1+B12 vaccination in August 2021
- Shorn and treated with Extinosad on 7/6/2021

In the interest of the longevity of your purchase we would recommend bringing any purchased rams into line with your current health and worm control programs. If you look after them, they will look after ewe!

All sale rams have been fed a small ration of Oats while grazing vetch. If you plan on feeding grain we recommend increasing their ration as per grain feeding guidelines.

All rams vet inspected on Thursday 9th September by Dr Nadine Allan, Gilgandra Veterinary Clinic.

- ASBV's in **BOLD** indicate traits in the top 25% for the breed
 - Rams with a \$ next to the BLX index indicate a \$uperborder
 - Figures in the white row below ASBV's show accuracy of breeding values provided (%)
-
- BT = Birth Type
 - 1 = Single
 - 2 = Twin
 - 3 = Triplet
 - BWT = Birth Weight (kg)
 - WWT = Weaning Weight (kg) at 100 days
 - PWWT = Post Weaning Wt (kg) at 200 days
 - AWT = Adult Weight (kg)
 - MWWT = Maternal Weaning Weight (kg)
 - PEMD = PW Eye Muscle Depth (mm)
 - PFAT = Post Weaning Fat (mm)
 - NLW = Number of Lambs weaned (%)
 - BLX = Border Cross Index (\$)

SuperBorders is the brand name for Border Leicester Rams that are of high genetic merit for a first cross production system. The official SuperBorder yellow ear tags allow SuperBorder rams to be easily identified.

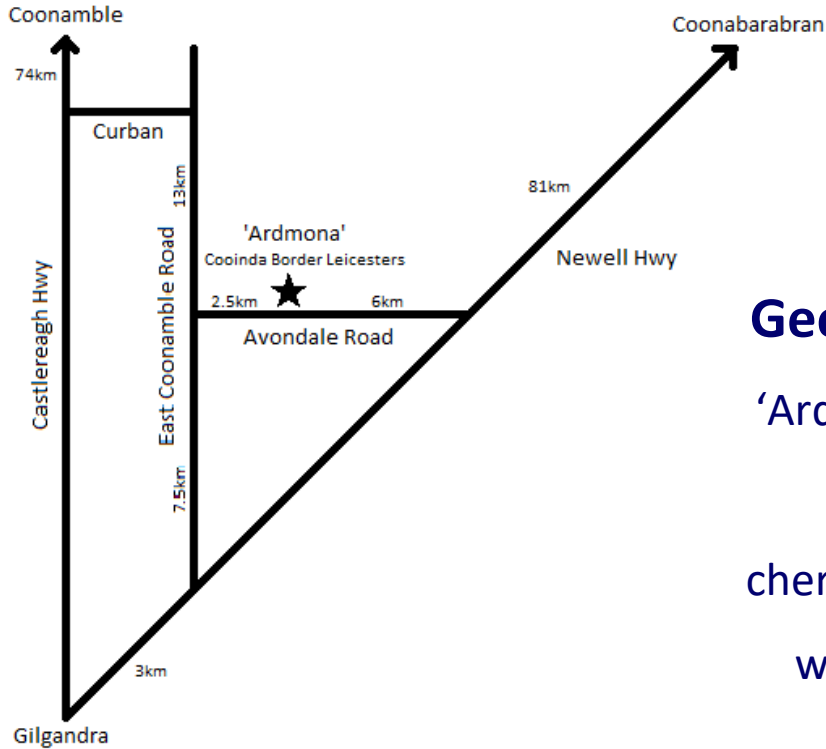

To qualify as a SuperBorder a Border Leicester ram must be above the 50th percentile for the breed based on the BLX index (Border Leicester Cross Index). The 50th percentile index value is calculated based on the 15th of August LAMBPLAN run each year. It is used to determine SuperBorder rams for that selling season. The BLX Index has been developed for production systems using Border Leicester sires crossed to Merino dams to produce first cross progeny. BLX balances maintaining mature size with significant improvements in early growth and reproduction. A higher BLX index targets animals that are more profitable in this production system.

Not all rams sold by SuperBorder members are necessarily SuperBorder quality, but are bred by committed, registered breeders striving for genetic gain. SuperBorder rams must be structurally sound and of good breed type.

The SuperBorders group is made up of a number of studs across 5 states who work together in meeting market requirements for objectively measured maternal genetics in the Australian Lamb Industry. SuperBorders members are industry leaders with longstanding involvement in research, trials and industry resource flocks.

First cross lambs sired by 100% SuperBorder rams may be sold as 'Bred from SuperBorders'. Special yellow pen cards and SuperBorders ear tags are available to identify these animals when sold in physical sales. Virtual yellow sale cards are also available for SuperBorders progeny sold on online sale platforms. Please speak with us if you would like either of these marketing materials.
