NOTES	59

Nestled in the picturesque Darling Scarp 120km north of Perth, the family farm of Kamarah is run by Errol, Annette, Brenden and Ashlee Howard.

Started as a mixed farming operation of merino sheep and grain in 1980, the 1450 hectares now includes a commercial Murray Grey herd initiated in 1996, the establishment of many perennials and a 22,200 place grow out piggery enterprise.

Speckle Park is Australia's newest breed of beef cattle. Originally, from Canada they are renowned for their quiet temperament, milking ability and meat quality.

It is with tremendous pleasure
that we welcome you to our

Inaugural Kamarah Speckles Sale Catalogue

IT HAS CERTAINLY BEEN AN INTERESTING and sometimes challenging exercise to get to this day. No one could have forewarn us of the effort, time and dedication required for a stud sale, and then to add COVID. Eleven years ago we had great success with an AI trial using 10 predominantly Murray Grey cows. Today through AI and Et programs, we have over 100 pure breeders.

Kamarah Speckles has a strong focus on producing consistent, quality breeding stock and aspire to produce bulls that will deliver crossbred calves for the premium meat market. Nestled in the picturesque Darling Scarp, 120km north of Perth, we pride ourselves on our teamwork, honesty, excellence, and passion in sharing the Speckle Park story.

Raised on perennial grasses, oats, hay and healthy nutritious feed pellets our stud cattle are run alongside our commercial herd. Managing the cattle on our 1450 hectare property promotes the attributes of the bred, in having them develop robustness to walk and fend for themselves. A valuable partnership with Wattle Grove Speckle Park Stud enabled us to grow our herd and select 8 month old weaned calves to be transported to Oberon NSW in preparation for showing and to be included in the Wattle Grove Annual Speckle Park Stud sale. The reliability of the Kamarah breeding has been recognized with Kamarah Speckles gaining outstanding results at these sales.

In 2017 an embryo flushing program and semen collection using top Kamarah stock commenced with BOS Veterinary and Rural Services, Dongara.

Running our Speckle Park bulls over our commercial herd has resulted in the progeny being sought by lot feeders.

Yielding flavoursome, tender, juicy steaks through a local butcher is another Kamarah Speckle achievement. Some customers at Northern Valley Quality Meats, Bindoon, pre order and drive 100kms to secure this meat, which is described by owner Jason, as the best quality carcasses he has seen in 35 years. "Big muscle, yields so good and the quality sells its self."

As the Speckle Park goes from strength to strength, we hope you are as excited as we are with what we have on offer today.

Kind Regards
Errol, Annette, Brenden & Ashlee

Please talk to one of the Elders team who can assist you.</p>		

SUPPLEMENTARY SHEET

Updated weights , scan data and any other new or relevant information will be posted online or available on Open day & Sale Day.

BREEDPLAN &EBV'S

A 2019 EBV Percentile table has been included in the catalogue for your reference.

EBV's can be a tool for purchasers to assist them in making selections, however we strongly suggest more emphasis should be placed on raw data and visual inspection.

Our belief is Speckle Park EBV's currently have a very low accuracy due to limited breed numbers and we are uncomfortable in promoting these figures for that reason.

We trust in our knowledge of our cattle and the ability and performance of their individual pedigrees and we are happy to discuss any part of that to assist in your decision making.

GENETIC TESTING

SNP#	SNP case number from Neogen
MSTN	NC - Non Carrier of the myostatin gene nt821 C - Carries one copy of the myostatin gene nt821
COAT	ED/ED - Homozygous black Ed/e - Dominant black/ recessive red
POLL	PcPc - Homozygous polled HPc - carries one copy of the horn gene
LEPTIN	CC CT TT A Leptin TT genotype animal has an increased rate of fat accumulation as compared to a Leptin CC animal.

VISITOR SAFETY

While every care has been taken to ensure the safety of all persons and property, the Vendors and Agents are not liable for any damage or injury caused.

All our cattle have been screened for temperament and are quiet to handle under normal circumstances.

Understandably Open Day and Sale Day is a very different experience for our cattle. We

ask that you be aware that one may misbehave due to the change in their surrounds and the pressure of many strangers invading their space.

VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK. CHILDREN/PRAMS ARE NOT PERMITTED TO ENTER THE YARDS.

We cannot cover every example of the dangers of cattle handling, we just request you use a little common sense and have your wits about you at all times.

FREIGHT

In WA we offer freight to all regional sale centres, through Lee McCallum, Old Bambun Grazing, 0438905990, or by appointment with Elders or Lee McCallum.

Interstate Freight will be provided by Falls Transport 0429826342 to their SA, Victorian or NSW Depot, or by arrangement with Lochie Falls. We will pay 50% of the interstate transport cost through Falls Transport.

HERD HEALTH

Kamarah Speckles is JBAS 8 Accredited
All animals have been drenched with

7in 1	16.2.2021	19.4.2021
Vibrio	16.2.2021	19.4.2021
Marksman	16.2.2021	
Pestiguard	16.2.2021	19.4.2021
Paramectin RV	16.2.2021	

COLLECTION OF BULLS

Lots 3,5,7 & 15 have been collected for in herd use with no further call

Our Guarantee to you

BULLS

Kamarah Speckles guarantee the fertility of the bulls at the time of the sale. The entry of every bull constitutes a guarantee by the Vendor that if a bull should prove infertile within 4 months of purchase, for reasons other than injury, misadventure, disease, mismanagement or negligence, the Vendor will provide you with a satisfactory replacement if available or issue you with a credit equal to the purchase price (excluding any costs and expenses of the Purchased price in taking delivery) minus salvage. This credit may be used to purchase an animal at a future Kamarah speckles Sale.

Any request for replacement/credit must be lodged with the Vendor within 4 months of the Sale date and be accompanied with a vet certificate and a signed declaration by the Purchaser to the effect that the substance of the vet report is true and correct.

FEMALES

Females have been vet checked and are guaranteed to be fertile for a period of 6 months after the Sale date and free from Gonadel Hypoplasia.

The entry of every female constitutes a guarantee by the Vendor that if a female should prove infertile for reasons other than injury, misadventure, disease, mismanagement or negligence, the Vendor will provide you with a satisfactory replacement if available or issue you with a credit equal to the purchase price (excluding any costs and expenses of the Purchased price in taking delivery) minus salvage. This credit may be used to purchase an animal at a future Kamarah speckles Sale.

Any request for replacement/credit must be lodged with the Vendor within 4 months of the Sale date and be accompanied with a vet certificate and a signed declaration by the Purchaser to the effect that the substance of the vet report is true and correct.

This guarantee is exempt if the female is flushed within this 6 month period, as we believe this can be counterproductive to her long term breeding.

FROZEN GENETICS

All embryos and semen are stored at BOS Vet & Rural, Dongara. Phone 0899261331 – bosvetandrural@gmail.com

Insurance and freight ex BOS Vet & Rural, is the responsibility of the purchaser. All genetic material is qualified for Australia only.

All animals in the Sale are parent verified and carry the SPI pedigree assurance tick

DISCLAIMER

All reasonable care has been taken to ensure that the information provided in this catalogue is correct. However the Vendor or the selling agent do not assume any responsibility for the correctness, use or interpretation of the information included in this catalogue.

THE NEW WAY TO BACKGROUND WEANERS

1800HD

3800HD

BETTER PASTURE UTILISATION

Pasture is the cheapest energy and protein source so it is important to get the most from it. Supplementing carbohydrates (grain or pellets) little and often increases microbe populations in the rumen. This increases pasture and forage digestion, leads to a higher weight gain and turns over more stock on a set amount of pasture.

Trials have shown that supplementing weaners with only **1kg/day feed can increase weight gain by more than 300g/day.** See www.advantagefeeders.com for all the trial results.
