### **BWT:**

Birth weight – estimates the genetic difference between animals in the live weight at birth.

### **PWWT:**

At Kurralea we use strict structural assessment and visual appraisal, as well as ASBV's to achieve our breeding objectives of producing a unique blend of elite performance, and structurally excellent rams.

We encourage the use of ASBV's to target market objectives, for more details on any of Kurralea animals, please visit [www.sheepgenetics.org.au](http://www.sheepgenetics.org.au).
