# Welcome

**Hello everyone and welcome to our 28th Annual on property Bull Sale at “Moongool” Yuleba Qld on Monday 20th September at the NEW starting time of 11am.**

Nice to begin our 2021 Sale Welcome with some good vibes and positive thoughts – we’re having a great season and cattle prices are unbelievable.

Progeny of our bulls have performed well in the carcass competitions as well as in the Sale yards, so what better reason to continue with our Stud Beef Breeding Enterprise. Hope you are experiencing a great season and reaping the rewards too.

While Shows have mostly been cancelled again this year, we were fortunate to have attended Beef 2021 at Rockhampton. Our display and hospitality area was well patronised indeed - Ian actually admitted that it WAS all worth it after all.

The icing on the cake had to be the back to back win of the Supreme Champion Interbreed Female – our Charolais Cow – Moongool Radical 26.

During the 2019 drought, we acquired Gowrie Station Charleville, from the Mobbs Family. We also purchased a number of their Simmental and Simbrah Cows and Heifers. At this year’s Bull Sale here at Moongool, we are happy to be offering 54 of their progeny, which have all been bred at Gowrie Station.

It's always been our focus to provide fertile and structurally sound cattle that carry softness and adequate fat cover and most importantly the ability to fatten on natural grasses at a young age. We are pleased with our draft of bulls this year with new blood lines added and our proven lines remaining.

These bulls have been scanned for fat coverage, eye muscle area, marble score and soundness evaluated. They have been individually semen tested, Vaccinated for three day, 3 germ blood, Vibrio and morphology tested.

With our continual improvement in our offering, we're confident that the bulls on offer will have an impact on your breeding programme and help increase your profit ability. So, invest in a Moongool Bull to ensure high yielding top quality beef cattle.

We will continue to monitor the covid 19 situation, so on sale day, just be mindful of the ongoing rules and PLEASE frequent the hand sanitiser.

Meanwhile, enjoy our complimentary smoko and lunch prepared by the Bowls Club, and also post sale beers.

As usual all of the Bulls that go under the hammer, carry our guarantee so you can feel quite comfortable about investing in our progeny.

So, until sale day – Keep Well & Stay Safe. Hope to see you on 20/09/21 at the **NEW START TIME of 11am**

Regards,  
**The Price Family**

Supreme Exhibit Sydney Show 2019 Moongool Fanmail

# History of Moongool

In the 1850s Moongool consolidated holding was composed of the runs of several blocks. In 1884 the "Runs" were consolidated but we're not divided until April 1888.

T.L.N. Fitzgerald obtained the first lease on one portion of the run and acquired depasturing rights on the resumed portion. Moongool, which is only 16km South of Yuleba, was purchased by the Price Family in 1954 for 2/6 an acre. It consisted of Brigalow, Belah, Box and Sandlewood scrub - those were the days! Fences were few and far between. Mustering took place most days with a (newspaper wrapped) lunch in the saddle bag. Those pioneering days are gone and we now have a successful breeding and fattening enterprise here at Moongool. A commercial herd of 1600 Charolais cross cows run at Moongool. The old people (Ian and Dell) also reside there.

Our Charolais Stud was founded in 1985 and the Brahman, Angus and Charbray studs added some years latter. We now have 1200 registered females. Ivan, Helen, Iva, Hunter and Tori live at Noorindoo Surat where the majority of the Stud females run. Located on the Condamine River between Yuleba and Surat is Bookooi.

Our other local property Leabrae, joins Moongool and here we pasture our weaner heifers each year and farm when the season's favourable. During the dry weather in November of 2019, we purchased Gowrie at Charleville, where we have continued with the Simbrah/Simmmental program.

The other member of our family is Alison who has lived overseas for the past 19 years and continues her medical research in Malawi.

Now you have our family history.

## UNIVERSAL FEEDERS

**EFFICIENT | PRACTICAL | ROBUST**  
DROUGHTBREAKER SOLUTION

- 4,200 Litre Capacity  
(Holds approx 2.8 tonnes of pellets)
- Feed 50 weaners for + \$1.25 / head / day  
(Depending on location)
- Save your grass for the other cattle

- Increases productivity & turn off rate/time
- Improve cattle saleability for the right market
- Lowers stocking rate

# Breedplan & EBVS

Charolais Breedplan ranks the performance potential of animals using Estimated Breeding Values (EBVs) for different traits. EBVs are a measure of an animal's ability to produce superior progeny. They are based on the animal's own performance plus the performance of all known relatives (sire, dam, half-sisters and brothers, etc). **Only Australasian Charolais Group Breedplan EBVs and Interim Group Breedplan EBVs with Accuracies (Acc) can be validly compared between herds in Australia and New Zealand.** (Within herd EBVs from Charolais Breedplan cannot be used to compare between herds.)

**ESTIMATED BREEDING VALUES (EBVS)** - The EBV for a trait is the best available estimate of an animal's generic merit for that trait.

**ACCURACY** - Accuracy (%) is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives. As a general indication, accuracies below 75% should be regarded as low, between 76-90% as medium, and above 90% as high. In all cases there is an equal chance of EBVs moving up or down with the addition of further performance information.

**HOW TO USE EBVS** - The first step is to decide which characteristics are important in your breeding program, then select the EBVs which fit the bill for your herd.

**GESTATION LENGTH EBV (days)** - This EBV gives an estimate of the number of days from the date of conception to the calf birth date. Lower (negative) EBVs means shorter gestation lengths which indicate easier calving and increased growth to weaning.

**BIRTH WEIGHT EBV (kg)** - This EBV gives an estimation of the animal's breeding value for birth weight. Use this EBV to select against birth weight if calving ease is a problem. The lower the EBV, the lighter the calves are expected at birth.

**200-DAY MILK EBV (kg)** - This EBV gives an estimation of the animal's milking potential. The value is calculated from the weaning weights of the animal's progeny and other relatives. The 200-Day Milk EBV is calculated independently from 200-Day Growth. If a bull is to be used to breed replacement heifers and superior mothering and milking ability is required then this EBV is important.

**200-DAY GROWTH EBV (kg)** - This EBV gives an estimation of the animal's generic merit for 200-Day Growth calculated independently of the maternal milk effect. 200-Day Growth is most important if a bull is to be used as a terminal sire for vealer production.

**400-DAY WEIGHT EBV (kg)** - This EBV gives us an estimation of the animal's yearling weight potential. Steer producers and lot feeders should place most emphasis on this EBV.

**600-DAY WEIGHT EBV (kg)** - This EBV is an estimation of the animal's genetic potential for growth beyond yearling age. Heavy steer and bullock producers will be interested in this EBV as it is the best measure of an animal's ability to grow on to maturity.

**MATERNAL VALUE EBV (kg)** - This EBV is an index of the EBVs for 200-Day Milk and 200-Day Growth.

**SCROTAL SIZE EBV (cm)** - This EBV is an indicator of male fertility in regards to semen quantity. Higher (positive) EBVs indicate bulls which will breed sons with bigger scrotal sizes and daughters with earlier puberty and shorter calving intervals

**RUMP FAT AND RIB FAT EBVS (mm)** - Positive EBVs indicate animals which will breed progeny fatter (or earlier finishing) than base animals and the converse for negative EBVs.

**EYE MUSCLE AREA EBV (sq cm)** - This is currently analysed on an age constant basis so that bulls with high growth and at least average "muscling" have the highest EBVs.

**ESTIMATED MEAT YIELD (%)** - This EBV is an indicator of carcass composition, (in particular muscle:bone ratio) as distinct from total yield. Bulls which are lean and with bigger eye muscle areas for their age will have progeny with the highest yields. (Note: It is a difficult trait to predict from existing measurements and current equations are only moderately successful, as can be seen by the low accuracy on EMY% EBVs.

**The Australasian Charolais GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Charolais Society of Australia Ltd nor the ABRI oversee or audit the collection of this data.**

# Notice to Buyers

No verbal instructions can be accepted

In the interest of buyers, all instructions concerning the delivery of cattle purchased at this sale must be given in writing and signed by the buyer or his representative.

Buyer's Instruction Slip is provided herein.

---

## INSPECTIONS

## Comments

It's not often you say but this is a bull that ticks all the boxes. He's a beautiful moving red factor son of Silverstream Evolution, he exhibits extra testicle size, has the ability to lay down plenty of fat, carries desirable breed characteristics and has a wonderful disposition. His dam has had 6 calves in 6 breeding years.

## BEEF AUSTRALIA

# Price pair go back-to-back

BY LUCY KINBACHER

THE Price family of Moongool Charolais at Yuleba made it back-to-back Beef Australia supreme female wins when Moongool Radical 26 was elevated to the top title during interbreed judging last Thursday afternoon.

In what was just her second show appearance, having received a reserve junior championship as a heifer at the Royal Queensland Show in 2019, judge Brett Kinnon of Bungoona Brahman, Clermont, couldn't go past the sheer volume and milking capacity of the 31-month-old who was paraded with a heifer calf, Moongool Radical 27 by Airlie Kris.

She was back in calf to the same bull.

"You don't appreciate her until you get in behind her, you stand beside her and she is a female that has got a huge amount of volume," Mr Kinnon said.

"A female that is very angular, a real matron-type cow that I think has a lot of maternal traits I'm looking for.

"For a big female, she still walks about very nicely and

Nutrien's Justin Rohde and Mark Scholes with handler Chloe Kemp, owner Ivan Price, judge Brett Kinnon and Nutrien's managing director Rob Clayton during the supreme female trophy presentation. Picture: Lucy Kinbacher

once again she is putting a lot into this calf; a calf with a lot of growth rate and milk going into her as well."

Radical 26 came from a successful line of show cows as a daughter of Moongool

Radical 17 and was by Fabas.

"Her mum was a fairly successful cow and the pedigree is very strong," Moongool's Ivan Price said.

"The Australian record price \$83,000 Charolais bull

came from the same family so we've been very lucky to come across the genetics we have and they have been very successful for us over a number of years."

Moongool could arguably

be one of the most successful stud beef cattle outfits when it comes to interbreed competitions.

In recent times, their cow and calf claimed the interbreed female title at Sydney

in 2019, they won the group title there in 2017 and at the Royal Queensland Show in 2013 they secured both the male and pair interbreed titles, just to name a few.

"There is a fair bit of luck involved but we breed a type and the type that we breed is suitable for our Australian needs and it's very rewarding to win it again," Mr Price told the Queensland Country Life.

"There is a lot of hard work that goes into it by a lot of people and it's good to come to these events and get a win."

In the end, it was the Simmental, Fleckvieh, Angus, Charolais, Speckle Park and Red Angus who were pulled up in the final line-up.

"It's a fact that it takes 400 litres of blood to pump through the mammary glands to make one litre of milk," Mr Kinnon told the crowd.

"So when I look at these females, what I'm looking for is a lot of heart room and a lot of depth through the heart but back to a maternal rump that is still easing calving, a rump that lends itself to easy breeding."

## Standard Stud Stock - Auction Terms And Conditions Of Sale

### IMPORTANT NOTICE

All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneers absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
2. The sale will be conducted on a "Sale" or "No Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "No Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
4. The auctioneer expressly reserves the right, without giving any reason therefor, to:-
  - (a) Refuse to acknowledge any bid;
  - (b) Withdraw any lot or lots before or during the sale;
  - (c) Exclude any person from the auction venue should it think fit.
5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.
7. In the event of any dispute in respect to the sale of any lot:-
  - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.
  - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
  - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
  - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
- 9(a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
  - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
  - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.
- (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.
12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.
13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
- 16(a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded. The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
- (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.
17. GUARANTEES OF FERTILITY:-
  - 17.1 BULLS. Save and except for calves at foot, all bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.
  - 17.2 FEMALES. Save and except for female calves at foot, all females are guaranteed to be in calf or go into calf within six months of the date of sale or by the age of 30 months whichever date shall be the later. A positive pregnancy test certified by a qualified veterinary surgeon shall be sufficient evidence that the animal is in calf.
  - 17.3 Claims under Clauses 17.1 and 17.2 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.
    - 17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.
    - 17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.
    - 17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.
- 17.4 LIABILITY OF A VENDOR. Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.
- 17.5 REFUNDS. In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.
- 17.6 This guarantee shall be voided by the purchaser if -
  - (a) The animal is returned to the vendor -
    - (i) in poor physical condition or with any injury;
    - (ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animals fertility or ability to breed naturally; or
  - (b) the purchaser has collected and stored semen from a bull or embryos from a female.
- 17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.
- 18(a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
- (b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
19. DELIVERY - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
20. In these Conditions:-
  - (a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;
  - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1;
  - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;
  - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

### IMPORTANT NOTICE

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.

All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur. The hammer price is exclusive of GST but GST will be applied to the final hammer price and included on the invoice.

# Location Map

"Moongool" is situated 16km south of Yuleba, off the Warrego Highway.
