FOUNDATION BREEDERS' INVITATION SALE

15 STUD RAMS
75 STUD EWES

2021

WEDS 8TH SEPT 2021 1.00 PM
"ILLOURA", MOORLANDS, SA

ILLOURA
ANNA VILLA
BUNDARA DOWNS

Australia's Livestock Marketplace

Welcome to the South Australian Foundation Breeder's Invitation Sale. The vendors of the sale wish to convey their appreciation for your attendance today. The sheep for sale today represent the best quality and largest selection of White Suffolk sheep offered at a production sale in Australia and we believe you can be assured of finding sheep to suit your requirements. Sheep from the SAFBI sale have been sold to almost all Australian states and include sheep that have gone on to breed major awards winners at feature shows.

The Sale arose after several South Australian Breeders expressed an interest in a sale at which they could sell their better quality White Suffolk stud rams and stud ewes. As a result of their discussion, an invitation was extended to all foundation members of the White Suffolk Association in S.A. to participate in the inaugural sale in 1990. Over the years, other studs have been invited to join the sale to keep the numbers and sheep quality to the high standard of recent years.

BUYERS INFORMATION

INSPECTION: Sheep will be available for inspection at "Illoura" from 10.00 a.m. on the day of the sale. Prior inspection may be arranged with the individual vendors by appointment,

LUNCHEON: A complimentary light lunch will be provided from 11.00 a.m.

DISEASE FREE: All studs carry Primary Industries of SA Accreditation Certificate of freedom from Brucella Ovis. All properties and stock are free from foot rot and are in the Ovine Johnes Disease Market Assurance Program.
Any veterinary testing required for interstate purchases, e.g. Liver Fluke testing, cost to be purchaser's responsibility.

SPECIAL REBATE COMMISSION:
A selling rebate of 4% will be allowed by the vendor to interstate agents (other than interstate representatives of the selling agents) and SA Associated Agents, provided they advise the selling agents in writing, giving names of their buyers, not later than the day prior to the sale.

AUCTIONEERS: Elders - Tom Penna 0428 854 708
Nutrien - Gordon Wood 0408 813 215

RV Piggott & Son

Flock No. 15

The Illoura stud has been breeding prime lamb sires for over 80 years at Moorlands. We have built a loyal clientele over that time providing over 500 flock rams annually for the prime lamb industry. The Illoura White Suffolk stud was founded in 1985 with rams from the University of NSW (Prime Lamb Genetics) over selected Suffolk and Poll Dorset ewes and is a foundation member of the Australian White Suffolk Association.

The stud is also a foundation member of Lambplan, the Brucellosis Accreditation scheme and the OJD market assurance program.

The stud aims to produce early maturing, well carcassed rams with a strong constitution., The stud continually performs well at the Royal Adelaide Show, particularly in the Lamb Production Classes and the White Suffolk lamb classes.

All Illoura rams presented at this sale have been DNA tested and are Hr Free.

BUNDARA DOWNS

S, RL & GJ Funke

Flock No. 243

Bundara Downs White Suffolk stud was founded in 1993, with the motivation to create a superior genetic package focused around servicing and progressing the efficiencies within the trade lamb market. This enables our clients to turn off higher quality lambs faster, allowing for increased stocking rates and turnoff, thus increasing profit levels.

In line with our determination to maintain a flock with the highest physical and genetic health standards, in 2011 we successfully underwent extensive testing of our 2400 ewes and sires to establish a 'Hypotrichosis Free' flock.

Measured performance through Lambplan has been an important part of flock management and generic progress within our business. The pleasing results show most of our sheep are above breed average, with a majority ranking in the top 30 percent of the industry.

Artificial Insemination has played a large part in our mating program with approximately 70 percent of our flock mated this way. This enables access to outstanding industry genetics not available by other means, gives us genetic diversity, plus management stability of our paddock and backup sires.

Bundara Downs genetics have been sought by breeders in most states in Australia, with a significant proportion of the pedigrees within the national flock having some Bundara Downs influence.

We currently supply approximately 700 rams to industry on an annual basis through a spring & summer sale, plus offer 260 ewes mated to industry leading sires in our Mated Ewe Sale held every two years.
