SPECKLE INFUSED SALE 10AM

STUD SALE 12PM

FROM THE AGENTS..

AgStock PTY LTD is a community focused Stock & Station agency and CRT store with merchandise branches in Gundagai and Tumut. AgStock is a founding member of South Eastern Livestock Exchange (SELX) and thus has been operating at the weekly sheep and cattle sales at the facility since August 2016.

We are a small, but dynamic team of Agricultural professionals that are results driven, for our very loyal base of livestock, merchandise and rural property clients. We pride ourselves on our attention to detail, product knowledge, customer service and community involvement.

We are delighted to be involved in the Inaugural Speckles in The Capital sale, to be held at SELX on the 18th of September 2021. The Speckle Park breed has organically gained popularity; not only due to the striking appearance of the cattle but more importantly due to the real-world commercial attributes that the breed offers. AgStock clients have consistently had excellent results when incorporating the Speckle Park breed into either their breeding or trading operations. The livestock team at AgStock have found the breed to consistently perform in grass and feedlot situations, with the cattle exhibiting added shape and dimension, as well as do-ability and commendable carcass qualities.

The offering of bulls and females in this year's sale are consigned from breed leading operations; breeding programs that have been developed by cattlemen and women to produce cattle that offer you, the buyer, a premium product. From front to back the catalogue consists of animals sired by breeding pieces that have been designed to take your program to the next level. With an extremely buoyant and prosperous cattle market, there is no better time to be involved in purchasing well-bred and managed seedstock cattle.

The sales agent, Sam Hunter, has had a long involvement with the breed on a stud and commercial level. Sam has been involved with the breed since its introduction to the country and has a broad knowledge and experience in the specific Speckle Park breed and industry. He was able to gain insight and expertise by working closely with breed leading operators. This interest and involvement has continued as he developed his base of cattle breeding and trading clients. You can be rest assured you are dealing with a knowledgeable member of the agency business.

If you have any questions or enquiries regarding the sale, sale terms and operations or would like to further discuss the offering, please do not hesitate to contact one of the AgStock team to assist you.

Best regards.

Sam Hunter

AGSTOCK PTY LTD

SPECKLES **IN THE CAPITAL**

**AUSTRALIA'S MOST DIVERSE OFFERING OF
LEADING SPECKLE PARK GENETICS FROM
AUSTRALIA AND CANADA IN ONE PLACE.**

**TIGHT ENTRY CONDITIONS MEAN YOU CAN BE
CONFIDENT IN THE QUALITY**

- All cattle are registered with Speckle Park International and have therefore been DNA tested including parent verification, myostatin, polled and coat colour status. Results are stated.
- All cattle have been Pesti-Virus tested free
- All bulls have been vet checked, semen tested, mouthed and scanned
- All females have been vet checked. Where possible (depending on age or pregnancy status) females have been examined to ensure that they are capable of breeding and that they have two functioning ovaries. Females have also been mouthed and scanned.
- All studs involved in the sale practice high quality cattle care including regular vaccinations etc. Talk to individual vendors about vaccination dates.

SALE INFORMATION

OUR VISION

The idea of a Speckle Park Sale in southern NSW was first developed by the principals of Rose Hill and Kikiamah Speckle Park Studs in an effort to bring Speckle Park cattle to the Monaro. The hardiness of Speckle Park combined with their excellent feed conversion, carcass qualities and ability to finish earlier than traditional breeds of this area can seamlessly add a new revenue stream to cattle operations. Choosing Yass SELX widened the catchment of the sale and also added the opportunity to sell quality Speckle Park cattle to the south coast dairy farmer as well as the astute smaller acre farmer looking to maximise profits per acre. With the current weather conditions and with cattle prices at an all-time high, there has been no better time for the cattle producers of southern NSW to discover the benefits of including Speckle Park in their operations. The vendors of the Inaugural Speckles In The Capital Sale are proud of the diverse and high quality offering in this sale.

SALE LOCATION

SELX

Bellevale Rd, Yass NSW 2582

SELLING AGENTS, AUCTIONEER & ONLINE BIDDING

The sale will be conducted by Agstock with Sam Hunter as Auctioneer. All lots will be sold subject to the usual conditions governing auction sales. The auction price will be exclusive to GST. Auctions Plus will be streaming live audio & footage of each sale lot. Online bidding will be available through Auctions Plus. A rebate of 2% is offered to outside agents registering buyers, in writing 48 hours PRIOR to the sale and settling on their behalf within 7 days of the invoice. Introduction emails to sam@agstock.com.au

Contact details-

Sam Hunter- 0448 011 604

John Sheahan- 0419 218 093

Kate Lenehan- 0269 441 888

GENETIC TESTING KEY

MSTN	NC- Non Carrier of the myostatin gene nt821 C- Carries one copy of the myostatin gene nt821
COAT	ED/ED- Homozygous black Ed/e- Heterozygous black, carries one copy of the red gene
POLL	PcPc- Homozygous polled HPc- carries one copy of the horned gene
LEPTIN	CC CT TT A Leptin TT genotype contributes to increased weaning weight, milk production, fat at the P8 and marbling compared to a CC genotype

BREEDING GUARANTEES

BULLS

All bulls come with a six-month structure and fertility guarantee. In the case (supported by a Veterinarian report) that a bull is found to be incapable of natural service or infertile, the selling stud vendor will replace the bull with an animal of comparable value or provide a credit (less disposal proceeds) to the buyer for future purchases from the stud vendor. This condition is provided on the basis that the problem was not caused by injury or disease incurred post fall of the hammer at auction.

FEMALES

All females are sold as guaranteed breeders. Females over 12 months and not too far in calf have passed a manual check for the physical symptoms of ovarian hypoplasia (small dysfunctional left ovary). In the unlikely event that a female cannot be bred successfully within 6 months from the date of the sale or by the time the female reaches 22 months, the vendor guarantees (without expenses, interest, costs and damages) the purchase can be refunded or a replacement female will be given (provided that the purchased female has not been injured or contracted a disease since leaving the sale) upon return of the affected female. This guarantee does not apply to a female that is entered into an embryo transfer program.

The sale as a separate entity assumes no responsibility for individual animals or vendors. Any complaint must be made direct to the vendor.

CATALOGUE DISCLAIMER

All reasonable care has been taken by the vendors to ensure that the information provided in this catalogue is correct. However, the vendors and selling agents do not assume any responsibility for the correctness or accuracy of the information provided

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

“Speckles in the Capital”

Rose Hill

Rose Hill Speckle Park Stud was established in 2011 with the birth of our first three embryo calves. Breeding stud cattle, in particular Speckle Parks, has meant a steep learning curve. We began this journey seeking a breed that could produce a carcass at 14 months that meets MSA specifications, is marbled and is sought after by consumers. After looking at Speckle Park in

Australia and in Canada we are convinced that this is the breed of the future in beef. From humble beginnings we now have an additional stud spanning Australia and Canada, MX Rose with Max Graham in Canada. Having a trusted partner like Max in Canada allows us to make the most of the Canadian offering even when we can't attend the sales ourselves. We have learned a lot over the past ten years and are excited to be bringing a Speckle Park Sale to southern NSW. We would like to thank Gerard Walsh, Kikiamah, for helping us get this sale off the ground and the other vendors for their faith in us to make this sale happen. We are proud of the cattle on offer and hope that this inaugural sale grows from strength to strength.

Kikiamah

Welcome to the Inaugural “Lennox RAM” Speckles in the Cattle Sale. This sale has been in the pipeline for a number of years and we are proud and privileged to participate along with the other studs to present a wide array of genetics for our inaugural sale.

Kikiamah Speckle Park Stud commenced in 2016 with the purchase of Rose Hill Vincent. From there we have increased our numbers with several embryo transfer programs in partnership with Rose Hill. Carolyn, Pat and I are very proud of the quality of our cattle and know that these animals would be a proud addition to any commercial or stud breeder. We are offering stud cattle along with F2/F3 commercial cows and heifers.

I would also like to thank all the participating studs in the sale and their contribution and efforts to bring this sale to light. We look forward to visiting with you on sale day over a coffee/drink and thank you for your support. “Don't let the attractive looks deceive you – Speckles will always deliver!!”

Blue Spark

I have always loved breeding good looking beef cattle of any breed. My passion is for crossbreeding, which Speckle Park do spectacularly well with all other breeds! The breeding of seedstock animals using technologies such as Artificial Insemination,

BLUE SPARK SPK

has been my driving force for over 30 years. Firstly, with Murray Greys, then Angus and since 2010 - Speckle Park. We present for sale our entire mature herd of 11 years of stud breeding. There are no embryos retained and the only animals not being offered at this sale are 10 'S' drop ET calves that are too young for the sale. We are proud of this offering developed through rigorous culling and multiplying the best genetics. We wish you all the best with your selections from these and the other cattle in the sale. Please contact Damien at any time for further information. (0490 067 968)

“Speckles in the Capital”

Pemberton

Pemberton Speckle park was established in 2013. In 2018 Taleah took over the stud, expanding the herd to over 100 stud animals. In 2019 we purchased 50 recipient cows in Canada where we are slowly building up our Canadian herd. Pemberton Speckle Park has been heavily involved in showing cattle and was the joint owners of the Sydney grand champion bulls in 2014 and 2015. In 2017 Premier L14, born on our property, was the world's first Speckle Park bull to win interbreed at a Royal Show. In 2018 Taleah travelled to Canada to work on the Notta Ranch stud, she went to many of the local shows including Agribition. Taleah learnt so much in her short time over there and it will be an experience she will never forget. Pemberton is also a part owner in some of the best bulls in Canada including the great champion of the world Notta Hawkeye. 2021 was another exciting year **when our Junior bull Pemberton Thunderbolt Q65 took out Supreme Champion at Sydney Royal.**

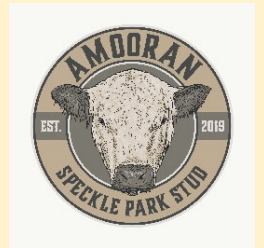

At Pemberton Speckle park we take great pride in breeding structurally correct animals. We work very hard on making sure our cows have great udders and our bulls are very sound and won't break down when they are put out to work. At Pemberton we believe “don't wait for the opportunity, create it.”

Amooran

Amooran is excited to be a partner in this Inaugural Speckles In The Capital Sale and we thank everyone contributing to the event.

Supported by his family, including three generations, John has realised a 'dream', a dream of owning a Speckle Park Stud at Amooran.

Every young bull we offer for sale from Amooran has elite genetic breeding and has been carefully raised on fertile, pasture-improved, paddocks. We are very proud of our offering and are certain that the purchasers of our bulls will be pleased with their performance in their herds.

Ersyldene

Thank you to Alex, Nat & Gerard for organising this sale & inviting us to be a part of the inaugural “Speckles in The Capital Sale”

We at Ersyldene Speckle Park are stud and commercial focused. We breed cattle that are going to perform for our clients. In the past 11 years of breeding stud cattle we have been blessed with many repeat buyers.

We see the results of all the time and effort put into our breeding programme on a daily basis with our commercial cattle going through our family butcher shop (Robert's Meats – Singleton). Since using Speckle bulls over our Angus cross Cows, the demand for speckle meat has taken our shop to the next level.

Hoping we get the opportunity to see and talk with you at the sale.

Mark & Colleen Constable

“Speckles in the Capital”

Mowbray

Mowbray Speckle Park is a family owned and run stud that was started with a couple of commercial speckle cows with the goal of producing and breeding quality cattle. We were so impressed with the performance of the commercials that we decided to breed purebred Speckles and our stud was born. We chose Speckle Park because of their rich

and red coloured marbled meat as well as their thickness, body depth and great fertility. We find them to be free moving, easy to handle cattle. Most of our calves are daughters or sons to Wattle Grove Buzz N38, a Putnam son that consistently breeds high quality calves. It is a great pleasure to be involved in this year’s ‘Speckles In The Capital’ sale. We are excited with our sale offerings and confident they will be a great addition to your commercial or stud enterprise.

Ebbwvale

Ebbwvale, located in the Southern Highlands, NSW, was established as an Angus stud some 20 years ago, moving later into crossing our Angus with Bonsmara and Belmont Red cattle before changing our focus to the Speckle Park breed over the last 3 years. Our aim now is to establish a foundation herd using elite genetics to produce seedstock to assist in increasing the profitability of commercial breeders. We are constantly striving to improve our genetics

looking for new and exciting sires. We aim to produce sound, functional, fertile, animals with good maternal and growth traits that will boost profits for our clients. Having many small paddocks our cattle are rotated regularly, therefore are quiet and easy to handle. Being just the two of us working the cattle, temperament is all important to us. Inspection prior to sale welcomed. There will be an on farm Open Day on Saturday 28th August, please ring Gary 0419482415 if you are interested in attending.

Ebbwvale Speckles

Almarlea

Almarlea Speckle Park was established in 2008. In that time, we have continually used genetics that we believe meet our Selection criteria. Through this process we have developed our own elite genetic lines or what we call blood line wealth. This

can be seen through our show animal results and the success fellow breeders have had using Almarlea genetics. We are proud to be part of the inaugural Speckles in the Capital sale and a big Thankyou to Alex and Natalie for being the driving force to get this sale of the ground.

KELLY'S
FINANCE GROUP

Equipment | Business | Property | Agriculture

Kelly's Livestock LEASING

WHAT IT IS?

Livestock Leasing is a product that has been developed specifically for the Beef Cattle Industry and allows customers to preserve their capital by using ours. As the cattle are used for the production of assessable income, Livestock Leasing may let customers structure their repayments to benefit business cash flow and taxation position. However, we recommend consultation with an Accountant for further advice in this area.

HOW DOES IT WORK?

Livestock Leasing allows you to finance the acquisition of a herd using the livestock as security. Pure Bred, Stud Cattle and Commercial Cross Bred Cattle will be considered upon application. Kelly's Finance Group will not finance existing herds or a share of livestock. Only a Livestock Lease (Finance Lease) document can be used to finance livestock.

GENERAL APPROVAL CRITERIA

- Finance amount is restricted to a maximum of \$500k.
- Must derive the majority of their income from livestock trading or breeding activities and have a minimum of 3 years experience as a Livestock Breeder or Grazier.
- Cannot be reliant upon the proposed income generated by the specific animals being financed for repayment capacity.
- Cannot be operating their core business in another industry and be seeking Livestock Leasing as a Tax Driven Investment.
- All Livestock Leasing transactions are to go through a recognised Stock Agent and they must invoice the cattle accordance with Loan Approval Conditions.

REPAYMENT OPTIONS

- Terms range from 12 months to a maximum of 60 months for Breeding Stock (Stud Cattle).
- Interest Rate is fixed for the term of the Lease.
- Standard Residual Values apply as advised by the ATO, *Tax Office Ruling IT213*.
- Repayments to be made in advance with options to pay monthly, quarterly, half-yearly, annually or by seasonal structure.

OTHER REQUIREMENTS

Veterinary Certificates and Insurance:

FOR BREEDING STOCK (STUD CATTLE)

- Current Vet Certificates are required.
- Insurance must include:-
 - Death (including calving death).
 - Theft.
 - Loss of use or commercial incapacity eg: permanent impotency, sterility or inability to perform due to accident, disease or illness.

FOR NON BREEDING STOCK (COMMERCIAL CATTLE)

- Insurance must include:-
 - Only death cover is required.

Let us make Finance simple for you!

FEMALE LOTS

Lot 60

Almarlea Theta

ASP F142

Here is a classy female that is bred in the blue. A moderate frame well balanced with great structure. We have flushed Theta in the past we think she is that good.
