Welcome to our fourth solo sale at Emerald.

This year we welcome Hayden Beresford and his Bony Villa herd to the sale. Hayden is a young Limousin breeder based near Biggenden.

As usual, all bulls are catalogued by age with the oldest leading out.

What a great time to be breeding cattle! When this group of bulls came along we were wondering if it would ever rain again and with hindsight we should have fed more and sold less, but it is what it is. Not enough bulls this year but plenty coming on again for next year.

We feel that our Talana genetics are unique within Australia in terms of the ability to offer both exceptional carcass/finishing and breeding/maternal flexibility. Our focus on some of the “small” things like skin, longevity, walking ability and sensible mature weights make our Limousins more suited to the heat and Central/Northern conditions than any other Limousin herd in the country. Our use of proven, known genetics with no need to be at the “cutting edge” means fewer surprises for us, and therefore fewer for you, and we offer a depth and consistency suited to Qld.

Oats grazing commenced 13 June with access to a high roughage grain ration designed for stomach health and low/moderate gain of 1.4kg/day. Given the good season and bountiful oats the bulls are taking little supplement and although weight gain is less this way we feel it is the ideal sale preparation for long, functional breeding lives.

Featured in this sale are the first sons of two of our senior walking sires: Longreach Leon and Birubi Jupita. For more information on these bulls please have a look at our website [www.talana.com.au](http://www.talana.com.au). Both bulls are working very well in the Talana herd, each with a different but complimentary mix of traits.

AuctionsPlus will be available this year for bidders not wishing to travel. If not familiar with the online platform some information can be found later in the catalogue.

With such strength in the cattle markets and a beneficial weather outlook we are all in for a prosperous next twelve months.

Please call us on the phone or talk to us at the sale about your requirements for bulls particularly what you need them to be able to do. We are here to help.

All the best,

**Anthony Graham**

## SALE INFORMATION

**Inspections:** Bulls will be at Ag-Grow grounds from Tuesday 14 September. Call in and say hello.

Sale day inspections from 9am

Auction Starts at 2pm.

**Covid-19:** All visitors to site must comply to all current government restrictions, requirements and guidelines relating to Covid-19.

**Registration and GST:** Buyers bid card system will operate. All prospective purchasers will be required to register prior to the commencement of the auction. All sale lots are sold exclusive of GST.

**Catering:** Please join us for food and refreshments on sale day.

**Phone Bidding:** Can be arranged prior to sale by contacting the vendor or agent.

**Online Bidding:** Available via AuctionsPlus. Please make sure you are signed up and authorised before the sale. Information on how to sign up can be found later in the catalogue.

**Agents:** Elders Emerald.

**Outside agents Rebates:** A 5% rebate will be paid to all agents that attend the sale and introduce their buyers in writing. Accounts must be settled in 7 days of sale.

A 3% rebate will be paid to all agents that introduce clients in writing but do not attend the sale. The agents must settle within 7 days of the sale.

**Warranty:** All animals fall under the Limousin Assurance Program (details in catalogue). In the unlikely event that you have a problem please call.

**Terms & Conditions:** As displayed on sale day.

**Accuracy of Catalogue:** While all care has been taken in preparing this catalogue we cannot guarantee it to be free from mistake.

**Health:** Bulls are ready for immediate use and have been treated as follows:

- 3 Germ Blood (tick fever)
- 7 in 1 vaccinations
- 3 day vaccinations
- Dectomax injectible
- Tested Pestivirus PI negative
- Talana herd holds J Bas 7 Johnes status
- Veterinary Bull Breeding Soundness Evaluation (VBBSE) – Physical examination and semen motility

**Safety Disclaimer:** The owners, employees and representatives of Talana Limousins accept no responsibility for any accidents that may occur at the bull sale or site. Although such occurrences are rare, any persons attending the Talana Limousins Bull Sale or inspecting animals beforehand do so at their own risk while on-site.

It is not advisable to take small children into sale pens.

**Insurance:** Elders Insurance will be available at the sale venue. While all care and attention will be taken, liability of the bull passes at the fall of the hammer.

**Buyers Instruction:** At completion of the sale all successful buyers are to attend the office and complete the buyers delivery sheet.

**Transfer of Registration:** Bulls can be transferred to new owners on request.

**Unloading at home:** On arrival ensure that other cattle (not other bulls) are in the yards to minimise stress while the bull/s familiarises with the new environment.

# EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

**Horn Status:** (HP\*) Homozygous Polled by DNA test, (2P) Homozygous Polled by Pedigree, (P) Polled, (S) Scurred.

**Colour:** (HB) DNA tested Homozygous Black, (2B) Homozygous Black by pedigree, (B) Black, (R) Red (not Apricot)

**Protoporphyrin Status:** (PN) Proto Normal, (PF) Proto free by pedigree, (PC) the animal is a carrier of the abnormal gene for Protoporphyrin, (PS) Proto Suspect (parent of diseased animal), (PU) the animal has not been tested for Protoporphyrin or have parents which have been tested normal or are free by pedigree.

**Homozygous:** Is the term where an animal has two copies of the particular gene (tested or pedigree) for a trait (colour, polled). An example is Homozygous Polled where all progeny will be polled from that particular animal or Homozygous Black where all progeny will be black.

**F94L:** (AA) 2 copies, (AC) 1 copy, (2A) 2 copies by pedigree, (CC) no copies.

## UNDERSTANDING EBVS

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured.

EBVs are provided for the following traits:

**Gestation Length:** ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

**Calving Ease Direct:** indicates the influence of the sire on calving ease. Sires with positive EBVs for calving ease will increase calving ease and sires with negative EBVs will decrease calving ease.

**Birth Weight:** indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

**200, 400 & 600 Day Weight:** give us an estimation of the animal's genetic potential for growth.

**Milk:** a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

**Scrotal Size:** indicates whether the bull will produce sons with above average or below average scrotal sizes.

**Docility:** is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion

Breed Average EBVs for 2019 Born Calves								
GL	CED	BW	200	400	600	MLK	SS	DOC
-2.1	+0.4	+1.6	+20	+34	+47	+7	+1.0	+41

of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

## Comparing EBVs

The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

## Accuracies

Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the

animal's EBV as more information is analysed for that animal and its relatives.

### **Disclaimer**

The Estimated Breeding (EBVs) contained within catalogue were compiled Agricultural Business

Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

## **FERTILITY WARRANTY FOR BULLS**

All bulls are to be sold as fertile and capable of natural service. The purchaser is to have the right to a full refund of the purchase price of the bull (excluding any costs and expenses of the purchaser) within six months of the date of the sale subject to submitting a veterinarian's report stating that the bull is infertile or incapable of natural service. The veterinarian must also state that in his opinion the bull has not suffered any injury or illness since being sold to the purchaser which could have affected his breeding ability. The veterinary report (together with a statutory declaration by the purchaser to the effect that the substance of the report is believed by the purchaser to be true and correct) must be forwarded to the vendor within 14 days of the date being six months after the sale date.

## **DOCILITY WARRANTY**

All the animals are sold as having acceptable docility as defined by scores 1, 2 and better than a score of 3 of the official scoring system used by the Australian Limousin Breeders' Society. The purchaser is to have the right to a full refund of the purchase price of the animal (excluding any costs and expenses of the purchaser) within 28 days of the date of the sale or a replacement animal of similar quality and price to be supplied by the vendor subject to submitting a veterinarian's report stating that the animal is of unacceptable docility defined as score 3, 4 or 5 in the official scoring system of the Australian Limousin Breeders' Society.

The veterinarian must state that in his opinion the animal has not been mistreated in a way which would have affected its behaviour since being sold to the purchaser. The veterinary report (together with a statutory declaration by the purchaser to the effect that the substance of the report is believed to be true and correct) must be forwarded to the vendor within 14 days of the date being 14 days after the sale date.

## HOW TO REGISTER AND BID ON AUCTIONSPLUS

- 1 Go to [www.auctionsplus.com.au](http://www.auctionsplus.com.au) to register at least 48 hours before the sale.
- 2 Select "Sign Up" in the top right hand corner.
- 3 Fill out your name, mobile number, email address and create a password.
- 4 Go to your emails and confirm the account.
- 5 Return to AuctionsPlus and log in.
- 6 Select "Dashboard" and then select "Request Approval to Buy"
- 7 Fill in buyer details and once completed go back to Dashboard.
- 8 Complete buyer induction module (approx. 30 minutes).
- 9 AuctionsPlus will email you to let you know that your account has been approved.
- 10 Log in on sale day and connect to auction.
- 11 Bid using the two-step process – unlock the bid button and bid at that price.
- 12 If you are successful, the selling agent will contact you post sale to organise delivery and payment.
