TOP OF THE MOUNTAIN 'DUAL PURPOSE' POLL MERINO STUD SIRE.

140kgs 47EMD 8.5BFAT in July – Lambs teeth at 138kgs!

We travel around viewing sheep and see a lot of very good sheep. Sometimes we come across ABSOLUTE KNOCK OUT IMPACT sire – this is one of those!!

A placid nature with dominating presence he is a 'drum on legs' with good feet and legs. His powerful width through the chest carries right through him to boast and incredible back end and meaty twist. He carries ample staple length with the right fibre density. (NE73 sons are consistently staple length sheep). Studs investing here will access to EXTREME carcass traits. From there 'dual purpose' MOUNTAINS CAN BE CLIMBED!!

COMPLETE 'TOP SHELF' STUD SIRE. Tested PP and is most photographic. Classic 'stud sire' profile and a Peter Wallis favourite. Superb rich stud wool sheep with an excellent pliable skin. He shows lock structure and deeply crimped bold medium wool that carries through to underline. At 122kg in July he is long bodied with great neck extension and for a stretchy type he has genuine width of hip. Again sound on feet and with a loose modern sires front his skin movers freely when he walks.

Tested PH | SL 90mm

This sheep is thriving and has a touch of class about him!

Another Elliott son. He is huge for his age! With length of body and overall frame he is a correctly made poll sire with grunt!

A wool oozier with staple length and crimp character. A combination sheep with: early growth, head purity, deep jaw and wool cut.

REALLYYY do like this sheep!

Keeping with the consistency of the Elliott sons, this YOUNGER poll ram with strong bone is an uncomplicated type - a plainer body with genuine width of body.

Really like the lock and excellent wool character here! A productive wool-growing skin that carries well down his front legs and underline.

A most worthy package!!

27/7: HWT 122kgs | Wool Cut 8.28kg

In top handful of Poll Merino rams to be offered in 2021.

'HULLY' Our gut feel is that this sheep will influence superior wool quality for the next decade and beyond.

With HIGH IMPACTING FIBRE, this Impeccably bred Poll Merino sire tested PP and we believe is the closest thing to the 'perfect wool type' for all Australian conditions. DOMINANT bold crimp character, lock structure and the handle and feel of the IDEAL wax/suint ratio.

He's a heavy cutter of lustrous pearly 'stud' quality white wool. With years of success in dual purpose competitions the Roemahkita ewe flock has developed in built carcass attributes. Overall, we see this sheep and lobbing right in the slot for 'top shelf' modern Merino breeding. We encourage progressive stud masters to consider the merits on offer here! Hully could well be the base that stud masters not only breed stud workers with but highly saleable stud sires to the market-place. The best may still to come from this package!!!

Please note that 35 GP Smithy sons sold at Roemahkita's 31st annual sale to top at \$10,000 (twice) and averaged \$3,842

27/7: HWT 121.5kgs Wool Cut 7.34kg

While we believe 'Hully' TO BE something quite SPECIAL, this Smithy son will rank as one of the very best in Adelaide.

He is an easy-doing, growthy, deep-sided, plainer-bodied poll sire with masculine broad muzzle and deep jaw.

With an appealing ripple through his surface he grows longer-stapled, ideally nourished, sharply-crimped sire's wool. A 'bulky' loose thick wool-growing skin. Really do like this sheep. A 'productive modern' poll sire prospect destined to breed rows on top-shelf on property rams and stud ewes that top studs could lift a cog with!
