ABOUT FAIRVIEW

Fairview Polwarths is located on loamy undulating country 14km south-east of Colac where the average annual rainfall is 900mm.

Greg, Kaye and Sam Potter run 950 Polwarth ewes in a stud and commercial wool/prime lamb operation. Approximately one third of ewes are selected for the stud, based on wool quality and conformation traits. These ewes are mated to stud Polwarth rams, while the remaining ewes are joined to White Suffolk rams.

Ewes lamb in June-early July with lambs weaned at 14-16 weeks. The flock is shorn in December. 50% of crossbred lambs are sold early December with the balance sold early March.

The flock is classed in November each year by Ken Arnold of Tasmania.

HISTORY

There is a long tradition of Polwarth sheep on Fairview dating back to the 1930's. When Greg took over the family property in 1993, there were 130 ewes and 100 wethers. Greg set about improving the flock and learning about the Polwarth breed. Early rams were purchased from Sazli (flock number 256, VIC). Several years later when the Sazli stud dispersed, Greg purchased the remaining ewes and rams and subsequently registered a new flock (number 700) with the Polwarth Sheep Breeders' Association of Australia in 2000.

From 2003-2009 rams purchased from the successful Mt Alma (flock number 294, SA) stud injected size and improved the frame of ewes who are now robust and upstanding. Between 2011 and 2016, the use of Homeleigh (flock number 213, Heathcote, VIC) rams increased wool quality and density in the flock. A line of Coree (flock number 165, NSW) ewes purchased in 2013 and Homeleigh ewes purchased in 2016 have added further breadth and depth to the genetics of the flock.

In January 2019, Fairview Polwarths purchased the Rendlesham stud (registered flock number 523) from Tasmania. The stud has continued in its own right as Rendlesham at Fairview (registered flock number 709). A further 300 Rendlesham ewe lambs were purchased in January 2020.

PERFORMANCE RECORDING

To work towards our objectives efficiently, animals are individually recorded on Sapien Technology Kool Collect software where the following information is recorded:

- Electronic identification
- Pedigree
- Health treatments
- Weight gain
- Wool & Carcase Measurements
- Breeding Performance

OUR AIMS

Breeding objectives for the next 7 years are for all ewes to achieve:

- Body weight of 55-65kg
- Micron range of 21-22 micron
- Skirted greasy fleece weight of 4.5-5.5kg
- Increase eye muscle diameter and fat depth by a minimum of 15 per cent
- Improved fertility. In 2016, joining was reduced from three to two cycles. From 2020, ewes in the stud have one cycle with Polwarth rams followed by one cycle with White Suffolk rams. This program works well with the cold wet winters at Barongarook.

HEALTH INFORMATION

- Non mulesed
- OJD Vaccination since 2010
- Glanvac 6 in 1 (annually)
- Scabigard
- Brucellosis Accredited No. 3421
- Sheep are paddock reared

WHY CHOOSE POLWARTH'S?

WOOL

PRIME LAMBS

As well as capacity to rear an excellent prime lamb, there is demand for Polwarth wool in a niche Italian market.

Vitale Barberis Canonico (VBC) is an Italian fabric mill established in 1663. For the last 350 years VBC have manufactured fine woollen fabrics for high end suit making.

Polwarth wool is sought after by VBC for its unique compression characteristics. VBC uses a percentage of Polwarth wool in their fabrics to decrease wrinkling.

In Australia, New England Wool sources wool for VBC based on the following four criteria:

- Non-mulesed flock
- 20.4 to 21.8 micron
- 40 NKT minimum
- 85-110mm

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

SIRE REFERENCE

SEMEN SIRE: MT ALMA ORANGE 3278

Potentially the most successful Polwarth sire in recent years. Born in 2010, Orange 3278 was a large upstanding correct sire. He was sold internationally to South America where he had widespread impact in flocks.

FAIRVIEW 16084

16084 Supreme Champion Polwarth at the Australian Sheep and Wool Show in July 2017 when he was only 13 months old. Harry is a solid sire who stands squarely. He has dense stylish well-nourished white wool. His solidness and wool characteristics are clearly visible in his progeny.

FAIRVIEW 16097

16097 won Supreme Champion Polwarth at the Australian Sheep and Wool Show in July 2018 and Best Rams Head in 2018 and 2019. He is a long-bodied ram with good depth of barrel and is well covered from head to toe with excellent belly wool. He has a beautiful, soft, broad muzzle showing great masculinity and a long white staple with a bold 60's count.

FAIRVIEW 17161

The Marcus bloodline stems back to Geoff Kemp and Homeleigh Polwarths at Heathcote in Victoria. The bloodline consistently throws tall upstanding sheep. 17161 is a large framed well-balanced ram who stands squarely. He is an easy care plain bodied sire who is cleaner on the points and has a lovely soft broad muzzle with no pigmentation. His wool is soft, white and of good character. The combination of carcass and productive wool characteristics makes 17161 an excellent dual-purpose sire.

FAIRVIEW 180210

Another Homeleigh bloodline, 180210 was notable for his very soft white wool.

RENDELSHAM R19002 AND R19003

Direct from Tasmania, Fairview purchased the Rendlesham stud in January 2019 from the Andrew Nicolson Estate. The Rendlesham sheep are solid medium sized animals with either a dense blocky staple or a long staple of white stylish wool.

SALE DETAILS

OUTSIDE AGENT REBATE

A 2% rebate will be offered to outside agents if a prospective buyer is introduced to the vendor prior to the sale.
