2022 PRODUCTION SALE TEAM

163 Dorper and White Dorper Rams (9-14 months old).

6 Amarula Dorper Stud Sires

41 Stud Dorper ewes

Amarula Dorper Rams are robust, hardy rams, bred under commercial conditions and raised on perennial pastures for growth, moderate adult weight and good conformation. Our rams aren't the biggest, fattest or fanciest rams, but they will perform and their progeny will make you money.

Our focus is producing rams for commercial enterprises, with production traits of fertility, quick growth and carcass. Our ewes produce over 200% lambs per year, with lambing intervals of 6.5 to 8 months.

Information is vital for making decisions on ram selection.

- Visually assessed – Dorper Typing System and Classmate Assessment (used together offer a huge amount of visual data)
- Performance recorded using Lambplan (genetic information)
- DNA genotyping and parentage testing (more accurate genetic information and eating quality trait information)

Classification of the Sale Team with Christo

"I would like to thank Justin and Lorroi from Amarula Dorpers and White Dorpers, for the opportunity to Type their sheep for their upcoming sale, on the 4th February 2022.

Congratulations on presenting an outstanding line of rams and ewes for your sale. I don't have to wish you luck. Your hard work and dedication to the Dorper and White Dorper breed, over many years, has paid off and I am confident that you will have an successful sale.

To you the Buyers. This is a sale you can buy from with confidence, either being present at the sale or from home. These rams are not pampered or manicured. You have not one or two **but three** assessment tools, to help you to select the perfect ram for you. If you are looking for an Elite Stud Ram there are plenty to choose from, or if you are just looking for a good sound commercial ram you will find them there too."
