HF	Hillcroft Farm	YD	Yonga Downs	TW:	Twin
J	Jusak	ET :	Embryo Transfer	TP:	Triplet
K	Karinya	LE:	Lambing Ease Direct	14*	Appendix Breeding

## SEMEN RETENTION

Bundara Downs advises their intention to maintain a semen interest in all rams offered. This means Bundara Downs reserves the right to collect semen from any ram offered, for use within own flock only ( unless otherwise stated ).

This collection of semen is to be done at the convenience of the purchaser and at the cost of Bundara Downs.

# FLOCK PERFORMANCE FIGURES

Performance figures in the catalogue are provided by LAMBPLAN from information collected on our flock by Rachel Chirgwin of Advance Livestock Services, Hamilton Victoria ( Ph. 0428600265 )The figures shown are estimated breeding values ( EBV's ) for growth, fat depth and eye muscle depth at post weaning ( 9 months ). They are compared with all White Suffolk sheep in the LAMBPLAN data base.The index value shown - Carcass Plus - is a combination of the above EBV's describing the value of each ram in a breeding programme.

## HYPOTRICHOSIS (HrF)

Bundara Downs takes its responsibilities as a producer of seed stock genetics for the prime lamb industry seriously. Not only do we need to provide the industry with genetics that improve profit driving traits such as growth, efficiency, yield, muscling and fertility, we have a responsibility to ensure genetic conditions that could have a negative effect on productivity are identified, managed and eliminated. When Hypotrichosis (HrF) was identified as an issue in White Suffolk's (and other breeds), Bundara Downs took the bold (and expensive) step of DNA testing our White Suffolk stud sheep resulting in a DNA tested HrF free flock. All progeny are from DNA tested HrF free sires and dams meaning there are no HrF carriers in our registered flock. Because HrF is recognised as a simple autosomal recessive trait, meaning that both parents must carry the gene for it to be expressed in the progeny, using DNA tested HrF free Bundara Downs rams or ewes and their progeny means the problem will not appear in their progeny in your flock, even if HrF is present in your flock.

# WHITE SUFFOLK STUD HISTORY

The Bundara Downs White Suffolk stud was founded in 1993 with with the purchase of elite genetics from highly successful studs within Australia. From this solid foundation, we are producing high quality soundly structured rams that are making a positive impact on the prime lamb industry. To do this we evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. The Lambplan data is compared across studs within Australia to give us a comparison of our performance, not just within our stud.

Acquisition of leading sires has enhanced our excellent muscling and growth without restricting our genetic pool, allowing us to produce rams with varied traits to suit different production systems of our clients. In 2011 Bundara Downs joined the Super Whites group, to further increase genetic gain within the stud through access of high performing sires.

# POLL DORSET STUD HISTORY

The Bundara Downs Poll Dorset stud was founded in 2002 with the purchase of stock from renowned studs within Australia. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Poll Dorset stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions. We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry.

The Poll Dorset stud produces rams with exceptional muscle while maintaining sound structure and conformation. We target sires with clean points to reduce grass seed issues as well as a smooth modern shoulder to maintain the lambing ease. In 2006, Bundara Downs joined the Meat Elite group to identify, develop and utilise superior genetics.

# SUFFOLK STUD HISTORY

The Bundara Downs Suffolk stud was founded in 2015 with the purchase of stock from renowned studs within Australia.

The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs.

The Suffolk stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions.

We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months.

This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry. Bundara Downs main aim is to breed a Suffolk with good growth, positive fat and muscle while maintaining the breed attributes.

# MEMO OF SIRES

Bundara Downs 194158	Ram with real presence, type and exceptional figures.
Bundara Downs 194644	Outcross pedigree, well balanced figures and breeding.
Bundara Downs 181653	Interbreed winning group 3 rams, outcross ram with excellent muscle & type.
Bundara Downs 181546	Interbreed winning group 3 rams, outcross ram with excellent EQ.
Bundara Downs 182596	Well muscled ram by Woolumbool 173980.
Bundara Downs 183069	Very stylish and clean pointed ram by Woolumbool 173980
Farrer 190001	Well muscled and balanced ram purchased in partnership Gemini stud.
Ashmore 190016	Well muscled and balanced ram purchased in partnership Booloola& Charinga studs
Ashmore 180080	Well muscled and good type, purchased in partnership Woolumbool & Majardah studs.
Ramsay Park 199256	Outcross ram purchased in partnership Yonga Downs stud.
Ella Matta 180100	Exceptional ram well suited to breed rams for maiden ewes & ewe lambs with good LE. Purchased in partnership with Anna Villa & Ashmore studs.
Pepperton 180468	Extreme growth ram with low birth weight, purchased in partnership with Gemini stud.
Yonga Downs 190388	Outcross ram with exceptional muscle & structure, semen used.
Gemini 170470	Top price ram at sale, has bred exceptional muscling and balance of figures with good LE.

## MEMO OF SIREs cont.

Woolumbool 173980	Purchased half share at 4mths of age, next generation leading sire for EQ and muscle.
Ella Matta 190088	Outcross ram with good balance of figure, semen used.
Ella Matta 190303	Super Whites YST, semen used.
Langley Heights 170497	Super Whites YST link sire, semen used.
Anden 190087	Super Whites YST, semen used.
Bundara Downs 181548	Outstanding ram well muscled, leading sire in Bundara Downs with balanced EBV's.
Derrynock 180067	Out cross ram with excellent muscle, EQ and EBV's
Bundara Downs 195339	Son of BD181548 with out cross ewe pedigree.
Bundara Downs 170952	Outcross pedigree.
Rangeview 190045	Outcross pedigree with excellent type, purchased in partnership.
Newbold 190027	Meat Elite Australia YST, semen used.
Hillcroft Farm 197389	First Ultra White ram purchased to establish new stud through ET & natural matings.
Karinya 199028	Purchased privately with Karinya stud, top figured ram in Australia.
Jusak 199008	Top price ram at Williams WA sale, outcross pedigree with length & type.
Gemini 191006	Top price ram at Gemini sale, outcross pedigree with muscling, structure & type.

RAHS Winning Pairs of Lambplan Trade Class  
White Suffolk 1st and 2nd. Poll Dorset 1st and 2nd. Suffolk 1st and 3rd  
10 winning rams in a class of 12 rams
