# RAMSAY PARK

WHITE SUFFOLK | SUFFOLK | BLACK COMPOSITE

Peter & Julie Button and their family welcome everyone to their Final Suffolk Dispersal & Black Composite Reduction Sale.

After a lot of thought & deliberation, we have made the big decision to disperse our entire White Suffolk & Suffolk flocks & greatly reduce our Black Composite numbers as we move to the next exciting phase of our lives .....more time to spend with family and travel !!!!

Rest assured we will still remain involved in the Sheep Industry and will continue with a few Black Composites and in a full circle, we have re-registered a small Hampshire Downs flock to play around with.

We are excited to present to you the nucleus of our breeding flock, bred after years of careful selection for relevant industry traits and structural correctness, while keeping breed type in mind. At Ramsay Park we don't aim to have the highest ASBV figures on Lambplan but an optimum balance genetically to suit our Stud & Commercial clients needs.

We have been involved in showing over many years and see this as an important tool to promote our stud and compare our sheep for type and structure against the best in Australia. AI programs, combined with the purchase of some specially selected stud sires have helped the rapid increase in quality of Ramsay Park stock.

We are confident the ewes on offer will fit well into your current stud breeding programs or form a solid base for anyone establishing a new stud.

At Ramsay Park we have had many enjoyable years being involved with the Suffolk breed and the people involved within the breed & we see this continuing into the future.

We are very proud of what we have been able to achieve over the years with our sheep and even more proud to be able to present them to you.

## SALE INFORMATION

### Explanation of Ewes Upgraded through Suffolk Appendix

Please note there are a selection of Suffolk Ewes that are noted in the comments as “Upgraded through the Appendix”. These sheep are now 15/16<sup>th</sup> Suffolk and will be inspected for inclusion in the Suffolk Flock Book prior to sale, as per ASBA regulations.

### Explanation of Composite Ewes

Since 2009 , we have been running a Black Composite program, crossing Suffolk’s & Hampshire Downs to produce varying percentages of Suffolk & Hampshire genetics to suit our individual clients needs & maximize crossbred vigour in their progeny.

In this catalogue we have a selection of Black Composite ewes, ewe lambs & a ram lamb for sale that are 87.5% Suffolk blood.

These sheep if mated back to Suffolk, will produce progeny that are registerable as Suffolk’s through ASBA appendix grade-up regulations. Feel free to contact Peter for more details.

We would like to thank all fellow breeders for your participation and support for our FINAL Stage Dispersal Sale.

We wish everyone all the best for the future with your purchases and we hope they bring you as much satisfaction as they have for us over the years. Many lifetime friendships have been made over many years and we look forward to continuing these in the future.

The sheep may depart but the friendships will remain.

To everyone that has helped us in any way with the organising and running of the sale or given advice when needed, Julie & I cannot thank you all enough. It has been a huge task to get to Sale Day and we really appreciate everyone's help in making it easier.

Peter & Julie Button & family
