

Curragindi Charolais

Inaugural Sale

- Bred on the Monaro -

Curragindi Welcomes all existing prospective and new clients to our Inaugural Online Auctions Plus Sale.

We are pleased to offer our selection of modern moderate frame bulls and proud of the evenness they display. Structural soundness and natural do-ability with ease of calving is the main focus of our breeding program.

[View Lots – Curragindi Charolais Inaugural Sale On The Monaro](#)

Health Information:

All sale animals are tested negative for Pestivirus

Fully vaccinated 7 in 1 program

Ivomec Plus August 2022

All Bulls independently vet checked by Dr. Peter J Brennan B.V.Sc of Monaro Vet Clinic.

The sale data examination of reproductive organs and structural assessment will be available on a supplementary information prior to our sale day.

Semen Tested: see supplementary sheet prior to sale

J BAS 7

Sire Verification: All bulls have been sire verified by DNA

All bulls are polled and have been Horn/ Poll tested. See individual lot for **Homozygous Poll (PP) status and should produce poll progeny (even if the cow they are mated to is horned).**

Inspection:

We welcome inspection by appointment

Transport:

We offer Bulls to be delivered free of charge to major selling complex within 200km of Curragindi Charolais on an agreeable date, and where possible direct to your farm.

Remember it is extremely important on arrival at your property to have a few steers or cows in the yards to help your new investment settle in.

Online Bidding:

Online bidding will be conducted through the Auctions Plus live

Link: [Curragindi Charolais Inaugural Sale On The Monaro](#)

We recommend Registering at least 24 hours prior to sale.

NLIS: Vendor will transfer NLIS device to successful buyer PIC.

LOT 1 CURRAGINDI ROUND-UP (P) (R/F)

CCNR195E

DOB: 07/11/2020

HOMOZYGOUS POLL

RED FACTOR

Red factor and Homozygous poll!

A red son of Nulla descending from one of our foundation females in Violet Hills H95. This bull is a thick and fleshy, easy-moving bull that stands on good feet and legs. I admire his thickness, wide muzzle and the strength of bone that this sire displays. His temperament is to be desired in a herd sire, easy to manage in the paddock or the yards. This bull has been started on a halter – unfortunately, Covid-19 disrupted his showing career.

His sire, Nulla, is an LT Ledger red factor, homozygous poll bull that is breeding true to his genetics. Nulla was shown successfully at Sydney Royal Easter Show 2018, Charolais Nationals 2018 & 2019. Nulla's Dam, Curragindi Kuma is sired by Ashwood Park Eldorado linking this breeding to Sparrows Eldorado.

If you are looking for a productive, honest bull with great carcass attributes that is backed by proven genetics, this bull should be considered.

LOT 2 CURRAGINDI RENEGADE (P)

CCNR95E

DOB: 10/12/2020

HOMOZYGOUS POLL

Curragindi Renegade is a sire that oozes softness and depth of body. Renegade is homozygous poll

Renegade was shown at the 2022 Yass Show; awarded the Champion European Breed Junior Bull and went on to win the Grand Champion European Bull of the show, Renegade also formed the Champion Pair for the Yass Show 2022.

Renegade is a bull we think highly of. His Dam, Violet Hills H95 is a matron of the herd that always produces early maturing calves, with thickness and do-ability to be admired.

Renegade is in the top 10% of the Charolais breed for calving ease and birth weight – a bull that would be suited for programs concentrating on smaller birth weights and high production.

LOT 3 CURRAGINDI STATESMAN (P)

CCNS24E

DOB: 25/02/2021

HETEROZYGOUS POLL

A bull with huge potential and genetic backing!

Curragindi Statesman is a bull with presence, he is a long bull, with great depth. Statesman has easy calving figures, with high rib and rump fat data to ensure his calves meet the market specs. His dam, Rosedale Encore, is leaving a true legacy here at Curragindi. To date she has produced four leading sires, these bulls have all gone out into the industry, receiving honourable feedback. Her progeny are always in the pick of the drop. This bull is no exception and your next opportunity to secure one of Encore's progeny.

Encore's females, Curragindi Matilda (Dam of Lot 6) and Curragindi Nicolette have both been shown successfully to Royal levels with her newest calf oozing the Encore potential.

LOT 4 CURRAGINDI OLAF (AI) (P) (T/W)

CCNR19E

DOB: 01/04/2020

HETEROZYGOUS POLL

Curragindi Olaf is a bull of great length and structural integrity.

Olaf was used in the Curragindi program in 2021, with his first calves arriving at 25 months of age. They are impressive, easy calving and low birth weight, the calves are stylish and even.

Olaf's dam, Glenlea Olive 10th is sired by Glenlea Eddie, the top-priced bull in the 2011 Top of the Range sale. Descending from the well-known LT Bluegrass. I think highly of this female, and what she has produced.

Olaf is sired by LT Authority, a bull chosen for his natural fleshing ability, depth and length of body.

Olaf comes from a strong line of female potential, something that we were keen to utilise in our program – to date, his progeny have been exciting. This is your opportunity to secure a proven, genetically diverse sire for your program.

LOT 5 CURRAGINDI GEDDES (AI) (P) (R/F)

CCNS2E

DOB: 10/03/2021

POLL (AWAITING TEST RESULTS)

RED FACTOR

A very special bull!

A red son of Silverstream Geddes, Polled with Homo test pending!

Curragindi Geddes is a bull that is well worth your consideration. One of the younger bulls in the sale at 18 months of age, but don't be deceived – this young bull oozes sire potential. Silverstream Geddes female progeny viewed in Canada, are deep, thick with great maternal attributes and tidy big milking udders. Curragindi Geddes has the genetics to produce quality females, with the diverse genetic backing of Silverstream, Violet Hills and Sparrows. Silverstream Geddes contains high carcass and growth figures with large scrotal, which are evident in this red polled son.

We think highly of this mating, having returned Curragindi Kuma back to Silverstream Geddes for another bull calf at foot.

LOT 6 CURRAGINDI SUNDOWNER (P) (R/F)

CCNS3E

DOB: 06/08/2021

HOMOZYGOUS POLL

RED FACTOR

Red and Homozygous poll!

Sundowner has been a standout since birth, the roundness and shape this young sire presents is outstanding. The soft, rolling skin coupled with his high carcass fat figures present him as a potential influencer for any program.

Sundowner's Dam Curragindi Matilda is the daughter of Rosedale Encore (Dam of Lot 3), a strong, powerful female that maintains the softness and style we like to see in our females.
