

Clermont Bull Sale

1pm, Friday 14th October 2022

Clermont Saleyards, QLD
& via AuctionsPlus

Selling Agents: Elders / Kennedy Livestock Clermont

Lot 1

WWW.GLENLEABEEF.COM.AU

WELCOME TO OUR ANNUAL CLERMONT BULL SALE

The Glenlea Beef Stud Charolais herd is now in our 48th year. Based on the Sub Tropical North Coast of NSW our cattle adapt quickly when moved north and west. The North coast as with most coastal environments in QLD, feed quality and trace element deficiencies have to be managed constantly.

With sales this year in Winton, Roma and Clermont it's been busy with our bulls also sold at multi vendor sales to repeat and many new clients. Our focus is Queensland with our bull sales, now and into the future.

Our performance recording and genetic testing is a key part of our growth, and we are committed to providing full performance data, from collecting and submitting Raw data for analysis to BREEDPLAN. Weights and carcass scans (ALL OUR BULLS ARE CARCASS SCANNED TWICE, ONCE FOR EBV's prior to sale preparation and again PRE SALE). DNA Testing and identifying PP polled bulls, all bulls in this sale have been tested, and PP bulls identified in the catalogue. THE EBV's you see have higher accuracies that many other Charolais bull sales because we submit the data on all bulls so that the figures produced are more reliable and predictable and therefore useful.

We have been selling over 100 bulls per year over the last few years, privately and at Auction and in 2021 we exceeded 150 with 200+ the target for 2022! Our stud cattle are our primary business and selling bulls that add value to our client's bottom line, and the entire supply chain is what we strive to produce in everything we do with our cattle. Our after sales service we take very seriously and back our stock with 100% guarantee. If a bull doesn't perform to your expectations, call us and we find a better one for you at no cost, including delivery!

Our bulls have thrived at their new homes in the Clermont area, along with Emerald, Alpha, and further north and west to Charters Towers, Prairie and Julia Creek, feedback has been very positive with repeat buying the benchmark, we attributed this easy adaptability to having generationally bred cattle with natural doing ability as our number 1 selection criteria, with performance recording and all the other selection and breeding tools we use being applied after that.

The bulls we have on offer in this sale include our some of our lead sire prospects for the year. The draft includes 11 bulls from Calmview, personally selected by myself with Calmview Stud, principal Tony Farrell, we both agree they are the best bulls he has ever offered. Joint prefix bulls are from our joint venture breeding program and is the cornerstone of our growth now and in the future.

Bulls have been vaccinated for 3 germ blood, botulism, 3 day and 7 in 1. All bulls have been Semen tested and physically examined by qualified practitioner.

Lunch and refreshments will be complimentary to all attendees, provided by local service club in Clermont and we hope to meet as many people as possible, so even if you have made your bull purchases this year or don't need any until next year, we extend an invitation to come along and inspect our Bulls and welcome your feedback and enjoy lunch on us.

Regards.

Roderick Binny

GLENLEA BEEF

CLERMONT BULL SALE

1pm on Friday the 14th of October 2022

Sale to be held at Clermont Saleyards, QLD and via AuctionsPlus

40 Charolais Bulls on offer
White & Red Factor Bulls with many tested PP Polled.

INSPECTIONS OF BULLS

Available from Wednesday 12th September after midday at Clermont Saleyards.
Bulls will be penned from 10am on sale day.

VIDEOS OF FEATURE BULLS

Available to view at www.glenleabeef.com.au a week before the sale.
They will also be on AuctionsPlus from Monday 10th October on our sale page.

WWW.GLENLEABEEF.COM.AU

BULL HEALTH AND FERTILITY

All bulls have been vaccinated for 3 germ blood, 3 day, pesti virus, botulism and 7 in 1. Bulls have all been semen tested. Glenlea Beef is a JBAS 7 herd. Bulls have been semen tested for motility and morphology.

SUPPLEMENTARY SHEET

Available from Monday 18th July with updated information such as weights and carcass scans.

GUARANTEE

All bulls are guaranteed to be able to serve cows naturally at the time of sale and are guaranteed for 6 months from sale day. If a bull should prove infertile or unable to serve cows naturally, provided the inability not caused by injury or disease contracted after sale, the bull will be replaced with a bull of similar quality or credit given for another of our sales by discussion with purchaser. Less salvage value of the bull.

INSURANCE

We recommend you insure your new bulls. Elders can arrange this at fall of hammer sale day.

AGENT REBATE

A rebate of 2% to all licensed agents is available, introducing buyers 24 hours prior to sale and settling accounts within 7 days.

REFRESHMENTS

A complimentary lunch and drinks will be provided on sale day by a local service club on behalf of Glenlea Beef, so even if you don't require a bull this year come along, inspect the bulls and enjoy lunch on us!

PHONE BIDDING

Phone bidding is available by contacting the agents or vendor prior to sale to arrange for a dedicated agent to call you and assist you with your bidding.

TRANSPORT

Delivery will be coordinated by Scott Taylor of Elders Winton.

BULL PROGENY AND TARGET MARKETS

I personally (Rod Binny) make a number of suggestions on individual lots regarding target markets for progeny. Many bulls will fit all markets for progeny as plans change with seasonal and market conditions. When making these suggestions I take into account physical body type or Phenotype, maturity pattern and doing ability, along with pedigree and EBVs. We have bred many of these bloodlines for generations and so know how they breed. These suggestions are just another assistance for you to assess the bulls in a sale environment, in a very short space of time, while we have watched them grow and develop over their life to date from birth to sale day. Having said that, many factors effect breeding outcomes - seasonal conditions from birth to weaning, your cow herd breed make up, management and type of country your cattle run on.

ACCURACY OF CATALOGUE

Every effort is made to be as accurate as possible. However mistakes can happen in the construction of catalogue and printing, we will resolve any issues at best as possible but make no warranty.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

Australian Charolais breeders have embraced performance recording as other countries have reduced their efforts, I have seen this first hand in north America. Our data now is more accurate and detailed, making looking overseas less likely to add genetics that take your herd forward in genetic development than using **Australian evolved genetics that are the best in the world for our environments and markets** with large amounts of individual data to help us as seedstock producers, identify positive influences.

Glenlea Beef is now a large seedstock enterprise, totalling 1000 Charolais females. This includes the purchase of the Fairfield herd in 2021. We have been using **Australian bred sires** to continue the evolution of the herd over the last 10 or so years as Australian bred sires are the best adapted to our country and markets. The genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and that meet our criteria and with the heart being a number of Glenlea cow families that have origins going back over 40 years, with descendants not only directly in our herd but many studs throughout the country.

Our genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. We have a degree of type variation, which is necessary with our range of markets and geographic footprint, from higher growth and yield types for northern markets over bos indicus cows to more moderate, early maturing types

that suit more southern markets, but all assessed through the same process for all economic traits. This will be evident through the catalogue and comments, and EBV's on individual lots will highlight this.

Our breeding strategy is to produce powerful performance cattle in a medium to moderate frame score with a complete carcass. By that we mean above average yield, EMA, fat cover and IMF%. Measuring birthweights to be able to assist our bull clients to make the best selections for their operation and maintaining calving ease through BW and early gestation length.

Maternal strength focus on fertility, milking ability with great udders and moderate sized teats for longevity. While we are primary a terminal breed, in northern markets especially, Charolais x heifers are retained in there 1000's, so as seedstock producers we must always have our customers and in turn their customers in the front of mind in our breeding decisions, as those decisions ripple down the supply chain and leave big impacts, both positive and negative.

Polled genetics have progress in our breed to match horned bloodlines for every economic trait. Our herd still has a number of horned females and these are joined to homozygous polled sires. 98% of our calves born in the last 5 years are polled, many homozygous, and all testing will be available in catalogue or supplementary sheet.

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

BREEDPLAN is a genetic evaluation tool now over 30 years old and proven across many breeds and countries. We no longer print a detailed general explanation in our catalogues for bull sales or female sales as that information is available at the touch of your phone screen or click of your mouse! We are happy to explain any of the finer points of EBV's as they relate to the Charolais breed and specifically to our cattle, just call and ask! In the comments of each lot, you will see our summary of the EBV's printed for that lot.

Customer Service is at the heart of what we do, we spend much of our time travelling to clients both commercial and stud to help with a full range of services. We provide many services to all our clients from the most basic to full stud breeding and marketing support. Your success is our success. We are here to assist and work with you and your agents to help you achieve the highest possible price for your Glenlea sired stock.

For more information about Glenlea Beef, please contact Stud Principal Roderick Binny on 0409 911 791.

Lindsay Hindle and Roderick Binny at Winton Bull Sale 2021. With the purchase of the Fairfield herd in late 2021, the Hindle's Fairfield Herd is now part of Glenlea Beef.

Top Priced bull at our 2021 Clermont Sale. Dark Red Charolais Sire Glenlea Kowboy Q405 (P) R/F with Roderick Binny and Jake Kennedy.

DAM OF LOT 6

DAM OF LOT 2

GLENLEA KENWORTH (P)

TATTOO: GLE K80E

DOB: 01/10/2014

COLOUR: White

SIRE: RANGAN PARK RIO BRAVO D15 (RAN D15E) (P)

Photo:

DAM: THW TATT MAC D10E (THW D10E) (P)

One of our most consistent sires, his sons are thick carcass bulls with great finish, good bone and ideal maturity type to have enough shape to attract premiums as weaners and enough growth and carcass to grow out into heavy feeders and bullocks.

EBVs are above average in 11 out of 16 recorded traits in the Charolais breed.

CHALLAMBI MUSCLES (AI) (ET) (P)

TATTOO: CHA M15E

DOB: 22/07/2016

COLOUR: White

SIRE: LT VENTURE 3198 M835612 (OAU J5612E) (P)

Photo: Taken at 5 years out with cows.

DAM: ROSEDALE HIGHNESS G114E (MR G114E) (P)

Early maturing sire we have used on heifers and larger framed cows. Big bodied type with loads of overall carcass and excellent Fat Cover. His sons are highly sort after. **EBVs** very low BW Top 6% of breed. Top 15% 400- and 600-day weight and Fat Cover, with positive EMA. **Sire** was Ultra Low BW and early maturing USA Import LT Venture (PP). **Dam** is a leading donor in the Rosedale herd, from one of their leading cow families.

DOUGLASDALE M1 (P)

TATTOO: DOU M1E

DOB: 01/01/2016

COLOUR: White

SIRE: DOUGLASDALE WYOMING (DOU E2E)

Photo: On light coastal country.

DAM: DOUGLASDALE OLIVE 2 (DOU D22E)

M1 is an early maturing good carcass bull whose progeny are great doers with moderate BW, great calving ease and good bone. Suited to weaners through to heavy feeders. Excellent daughters with good milk and perfect udders.

EBVs Above breed average in 9 out of 16 traits, including all fertility and maternal traits.

CHARNELLE LOUIS (AI) (ET) (P)

TATTOO: GKA L73E

DOB: 26/12/2015

COLOUR: White

SIRE: GALLWAY - RS 8900451063 (OAF G1063F) (P)

Photo: Taken at 5 years out with cows.

DAM: CHARNELLE ELLE (GKA E10E) (P)

Purchased in 2017 for \$20,000 this sire has produced great progeny adding thickness and EMA while also adding Fat Cover, often opposing traits. His early maturing body type is passed onto his progeny along with his extra length and many sons are PP Polled. **EBVs** show moderate BW with Top 1% EMA and Top 5% fat Cover with good 400-day growth.

Sire is a Full French import, Polled, massive carcass and bone, with great maternal traits. **Dam** was a fully imported Embryo from the USA, was a leading Donor cow and produced several stud sires, including Louis. Total outcross to all Polled bloodlines.

SILVERSTREAM MINISTER M130 (P)

TATTOO: OAN M130E

DOB: 11/09/2016

COLOUR: White

SIRE: SILVERSTREAM EVOLUTION E168 083090168E (OAN E168E) (P)

Photo:

DAM: SILVERSTREAM LOTUS E96 083090096G (OAN E96E)

Powerful growth bull with extra bone and performance in his progeny. A great draft of his sons are catalogued in this sale.

Semen was imported from NZ by Calmview Charolais, guest vendors in the sale.

PALGROVE MONARCH (AI) (P)

TATTOO: PK M628E

DOB: 29/08/2016

COLOUR: White

SIRE: LT LEDGER 0332 M791626 (OAU F3168E) (P)

Photo:

DAM: PALGROVE DESIRE 172 (PK F724F)

Great breeding sire producing thick bodied early maturing sons with moderate BW and good carcass, fine hair. **EBVs** Trait Leader for 200 day weight Top 3% of breed, Top 10% EMA and Beef Yield, Top 15% for 400 and 600 day weight. **Sire:** is a low BW carcass sire, with early maturity and fine hair type from USA. **Dam:** is a Full French donor female from Palgrove's well known Desire cow family.

RANGAN ROUNDUP K18 (AI) (P)

TATTOO: RAN K18E

DOB: 19/06/2014

COLOUR: White

SIRE: MERIT ROUNDUP 9508W PMC326558 (OAC E6558E) (P)

Photo:

DAM: RANGAN PARK ALETTA H57 (RAN H57E) (P)

High growth sire, being a 400 and 600 day growth trait leader in the Charolais breed, above average EMA and carcass yield all with moderate BW, gives this sire real breeding value.

EBV's 12 out of 16 measured traits above breed average.

RANGAN PINAY F21 M96 (AI) (P)

TATTOO: RAN M96E

DOB: 25/07/2016

COLOUR: White

SIRE: RANGAN PARK PINAY F21 (RAN F21E) (P)

Photo:

DAM: RANGAN PARK ALETTA G123 (RAN G123E) (P)

Early maturing, Low BW sire with great carcass. His sons are early maturing and thick throughout with low BW, ideal for heifers, to give added shape and performance over other breeds to attract market premiums! Ideal for weaners to heavy feeders.

COMMENTS: The first of the “S” bulls and first of a number of Embryo Transfer bulls purchased on their recipient mother’s as part of our Huon stud herd purchase in early 2021, these bulls have been under our management since a few weeks of age. All are out of Palgrove donor females, the S7 being out of the top priced cow at the 2017 Palgrove female sale selling for \$18,000. Deep, easy doing, bomb proof temperament we have admired this calf since arriving at our property. *Semen retained for in herd use, semen collected, no further call on bull.*

	BW	200	400	600	MCW	Milk	SS	EMA	Rump	IMF
EBV	+0.6	+11	+25	+37	+38	+3	+1.6	+0.7	-0.3	+0.1
Acc	69%	60%	55%	56%	53%	47%	45%	34%	37%	34%

COMMENTS: Another deep bodied, good muscle patterned bull by Minister. Polled and red factor. Plenty of carcase and softness.

Golden opportunity to improve your herd with this stud sire.

EBV	+1.7	+13	+28	+44	+47	+2	+1.7	-0.1	-0.3	+0.2
Acc	69%	61%	58%	58%	55%	51%	49%	40%	43%	39%

COMMENTS: This potential sire is an ET calf by Minister out of Gobongo Rebbly D87E, a cow family renowned in the Charolais breed. Bulls of this calibre seldom come along.

Top end sire that will suit multiple uses within your herd.

Acc	51%	48%	51%	56%	47%	30%	62%	35%	37%	34%

COMMENTS: A lovely big strong polled bull, 28 month old. We deliberately catalogued him late in the sale for buyers who missed out on early bulls.

Long bodied, great carcass with finish and yield, and a bomb proof temperament!

EBVs top 10% EMA with moderate BW.

EBV	-0.7	+1	+5	-5	-10	+3	+0.4	+2.4	-0.4	-0.9
Acc	40%	47%	50%	58%	46%	28%	62%	32%	31%	31%

COMMENTS: Very early maturing moderate framed polled sire. Thick as a brick, ideal to produce lovely thick set weaners with shape at early age.

Will handle the rougher country and produce those premium Char X calves. Also ideal for brahman or charbray heifers.

EBVs Top 15% EMA, with low BW

Acc	72%	62%	64%	69%	60%	49%	73%	51%	53%	50%

COMMENTS: Extra long bodied bull that we expect to grow out to a great sire.

Another leading Palgrove donor as his Dam.

Fine coated, easy finishing, MSA type animal for premium domestic market finished or heavy feeders that will have the buyers coming back chasing them, as our feeder program will be, starting in 2023! Glenlea Sired progeny will attract a 20 cent per kg premium to the grids of the day.
