

# NOREMAC

White Suffolks, Suffolks & Southies

## 6<sup>TH</sup> ANNUAL ON-PROPERTY SALE

**Friday 7th October 2022 at 1pm.**

*Viewing from 11am.*

### **OFFERING:**

**73 White Suffolk Rams**

**20 Suffolk Rams**

**47 Southdown x White Suffolk Rams**

### ***Flock Health***

Ovine Johnes Disease Vaccinated

Footrot and Lice Free

Ovine Brucellosis Accredited Free (No.3649)

## 6<sup>TH</sup> ANNUAL ON-PROPERTY SALE

Friday 7th October 2022

Viewing from 11am for a 1pm start

The Cameron Family would like to extend a warm welcome to their Annual Ram Sale.

Our White Suffolk & Suffolk Stud started in 2011 and presently has 450 White Suffolk and 70 Suffolk stud ewes.

Our aim is to continue to breed structurally sound rams with good raw data to support positive outcomes for farmers such as fast finishing lambs, while maintaining a high genetic database for improved lambplan figures.

Our primary focus is the overall look and performance of the animal.

We do not make breeding decisions based solely on lambplan figures. Our breeding program also includes a line of White Suffolk/Southdown rams for composite breeders which are suited to fine wool sheep.

We are brucellosis accredited and OJD vaccinated. We look forward to meeting you and discussing your ram needs.

### Bendigo Elite Show & Sale

*Highest priced ram for Noremac stud*

**Noremac 210143**

**\$10,000**

*plus 50% semen rights sold to Rene Stud*

### Abbreviations

(TW)	Twin
(Tr)	Triplet
BWT	Birth Weight
WWT	Growth to weaning (6-16 wks)
EPWT	Weight at approx. 4-7 mths
PWT	Weight at approx. 7-10 mths
FAT	Scanned raw data of fat depth
EMA	Calculated Eye Muscle Area
EMD	Scanned raw data of eye muscle depth
EMD WIDTH	Scanned raw data of eye muscle width

ASBV	Australian Sheep Breeding Values
PEMD - ASBV's	value for eye muscle depth
PFAT - ASBV's	value for fat depth
TCP - ASBV's	Terminal Carcass Production
EQ - ASBV's	Eating Quality
LMY - ASBV's	Lean Meat Yield at slaughter.
IMF - ASBV's	Intra-muscle Fat, percentage of fat in the loin (marbling)
Shearf5 - ASBV's	Shear Force is the tenderness of the meat.

Highlighted figures represent data that is higher than average across the breed
