# CAPREE STUD HISTORY

Established on predominantly Charinga bloodlines for the last decade after the purchase of all the Poll ewes from Kirkton Stud on it's dispersal. Rams and ewes from Charinga were added and the stud now has nearly 500 pedigreed ewes. Our aim has been focused on breeding sheep suitable for the table-lands, that grow long stapled heavy fleeces on plain medium framed bodies.

62	<b>Capree Eve</b>	Capree Donald Trump	Capree Pinky III	12/3/21	F- B/T

**Description:** Top all round bitch, that is fully broken in and has done paddock, yard, shed and work on cattle and goats. She cast well and has very correct balance on a few head of stock with nice natural distance. She has a ton of force and bark in the yard and if needed also in the paddock on a mob as well. She is a good backing dog with nice calm disposition.

Eve is a very well bred bitch combining all my main dogs of the past few years and has all the good bloodlines of my foundation dogs.

Eve is a quality bitch for any job or as a future breeder. She offers a rare opportunity to purchase a unique female who combines eye and style with natural distance and free back and bark in the yard. She has great stamina and travels smoothly. Her confirmation is hard to fault.
