Welcome

Warm welcome again to all repeat and new clients as we undertake our Sixth Annual on Property Sale offering 30 rams for sale.

This year we present a great run of rams for your competition. These rams have enjoyed prosperous seasons and present in ideal condition to work going forward.

The rams catalogued run as lots 1 to 16, 29 & 30 being Towarri bred and Lots 17-28 being rams purchased as lambs from the Olde Bourkeleigh stud dispersal purchased in September 2021.

The Olde Bourkeleigh rams are sired by a single Cadell sire and no birth type data was available on those rams. Micron testing and Stockscan ema date are available on all rams.

We keep receiving great reports of our rams being hardy, fertile and achieving great results with progeny. If any issues arise please let us know and we will help in any way possible.

Brucellosis accredited, Gudair Vaccinated & NWVRBSA. Able to enter SA.

Any rams to be registered as stud rams must be purchased for \$3000+GST.

The Farley Family

Welcome

Welcome again ladies and gentleman to Ellsmere's Fifth Annual Production Sale.

32 big barrel and big boned rams have been catalogued and present in great condition once again.

These rams are achieving great growth rates allowing flexibility when marketing progeny.

Majority of this years rams are by a Janmac sire purchased in 2020 who left a consistent type with great structure and breed type. He had extra muscling and has passed this onto his progeny.

The EMA scans done by Stockscan were taken in May this year, the rams were 12 months of age at scanning. This is done as it is more relevant to the age that fat lambs are marketed by clients rather than a scan at 15-18 months of age.

Brucellosis accredited, Gudair Vaccinated & NWVRBSA. Able to enter SA.

Any rams to be registered as stud rams must be purchased for \$3000+GST.

Any queries please contact Colin Gitsham 0438092722.
