Ovine Brucellosis Accredited Free. Footrot & Lice Free.

All sheep fully vaccinated with GlanEry 7in1. Multimin, Cydectin LA and oral Triguard. Backline of Imidalab off shears.

Contact: Andrew McLauchlan – 0428 577 243, Email: admin@valma.com.au

Refreshments and light meal provided

ABOUT VALMA Poll Dorsets:

Foundation flock: First established in 1954 by Lyell Stuart and then daughter and son-in law, Keith & Anne McLauchlan. Continuing today with my family, Caroline, Beau and Oscar.

Our continued success over so many years has come from our clients making money out of their Valma purchases and our love for the breeding stud stock. Each year we seek a very wide range of important bloodlines, thus giving our clients a continuity of desired qualities from a broad gene pool and allowing us to assess their performance against our own bloodlines.

A measure of our present flock status is reflected in the number of Poll Dorset studs throughout Australia that use Valma sires and the continual high standing against all terminal sires in across-flock comparisons on Lambplan. Our breeding program is very commercially orientated – as well as the obvious carcass and growth rates that the industry strives for, finer fronts for lambing ease, longer bodies for carcass weight and mobility.

What goes into getting a ram into our sale:

Starts with Genetics: Mating and recording: sire / dam and their pedigrees.

Birth wt taken within hours of being born.

Weaning wt recorded – Lambplan takes into account- birth type – whether a triplet, twin, single-sex and factors this into their equation for giving a wean wt figure.

Post weaning wt/ fat score and muscle scan – done by independent assessor. Only animals run under the same conditions such as feed can be compared. For this reason we run all the ram lambs in one group until all Lambplan assessments have been done.

Physical assessment by breeder and agent at cataloguing.

Only the best make the sale day out of a stud ewe base of 900- all recorded. As stud breeders on Lambplan we do this so you can be assured of getting the best possible rams we can produce.

WHY buy Valma Poll Dorset and White Suffolk Rams?

- * Suit Tasmania's climate
- * Clean points/downs wool
- * Fine shoulders and long bodied
- * Early turn off of lambs-quick growth rates
- * Strong maternal instincts
- * High fertility
- * Comprehensive recording-accuracy
- * Proven record with repeat clients

MEMO OF POLL DORSET SIRES

Valma 20-0040- Sold for a world record Poll Dorset price of \$41,000 in last years Stud ram sale. He has bred exceptionally well.

Valma 20-0095- Sold for \$14,500 in last years stud ram sale. Top 5% TCP, PEMD & IMF Top 10% PWT & SHEARF

148 White Suffolk Rams

About Valma White Suffolks

Our aim at Valma with the White Suffolks is to continue to breed the same type of rams with low birth weights that Spring Valley focused on. We see the White Suffolks as complementary to our Poll Dorsets , giving our clients the additional options when buying rams suitable for smaller merino ewes, maiden ewes and retaining ewe lambs.

We are constantly infusing top Australian genetics via AI into our stud in an attempt to continue making genetic gains. In addition we participate in Sheep Genomics testing, which assists in building our Lambplan data accuracies as well as establishing eating quality traits.

200 lambs hanging at TQM. Bred by Spring Valley & Blackwood park sired by Valma rams.

WHEN IT MATTERS

Shaping the future
of animal health

MEMO OF WHITE SUFFOLK SIRES

Somerset 19-0158- Ai sire used. Top 5% PWT PEMD & LMY

Valma 20-2189- Exceptionally well balanced ram with tremendous muscle pattern & thickness. Outstanding lambplan figures.

Felix 17-0735- Very low birthweight. Top 5% PEMD Top 20% TCP and a positive Pfat.

Farrer 19-0005- Purchased in 2020. Top 5% for TCP & PWT. Top 10% IMF Top 20% SHAERF

With our White Suffolks we are focusing on producing rams that will provide high accuracy low birth wt rams. Other WS studs in Australia do not require this high emphasis on low bwt but as we also have the Poll Dorsets we have chosen this as a point of difference between the two breeds at Valma. We focus a lot on the Lambplan figures in the catalogue to give clients the best direction for sires for the ewe flock but all rams are structurally sound and we will never purchase a sire solely on figures. Structure remains our foremost criteria for our flock.
