S	Single	Pfat :	EBV for fat depth
TW	Twin	Pemd :	EBV for eye muscle
DOB :	Date of birth	LEQ :	Lamb Eating Quality
		TCP :	Total Carcase Production

SEMEN RETENTION

Bundara Downs advises their intention to maintain a semen interest in all rams offered. This means Bundara Downs reserves the right to collect semen from any ram offered, for use within own flock only (unless otherwise stated).

This collection of semen is to be done at the convenience of the purchaser and at the cost of Bundara Downs.

FLOCK PERFORMANCE FIGURES

Performance figures in the catalogue are provided by LAMBPLAN from information collected on our flock by Rachel Chirgwin of RAC Farming (Ph. 0428 600 265) The figures shown are estimated breeding values (EBV's) for growth, fat depth and eye muscle depth at post weaning (9 months). They are compared with all White Suffolk sheep in the LAMBPLAN data base. The index value shown - Carcass Plus - is a combination of the above EBV's describing the value of each ram in a breeding programme.

ULTRAWHITE STUD HISTORY

The Bundara Downs Ultrawhite stud was founded in 2020 with the purchase of 10 Ultrawhite ewes and 1 Ultrawhite ram from Hillcroft Farms in WA. The ewes purchased were selected with good balance of figures in growth, fat, muscle & structure. From this solid foundation, we are producing high quality soundly structured ramsthat are making a positive impact on the lamb industry.

To do this we evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. The Lambplan data is compared across studs within Australia to give us a comparison of our performance, not just within our stud.

To enhance a faster progression in the Ultrawhite breed, we have introduce a number of Embryo Transfer programs.

MEMO OF SIRES

Hillcroft Farms 197489

Well muscled ram used as a base through ET and natural mating. Complete shedder.

Hillcroft Farms 208545

Exceptional young ram purchased for \$15000 in partnership with the Anden stud.

This ram is a complete shedder. Used in the ET and natural mated programs.

Hillcroft Farms 207176

A good growth & muscled ram purchased for \$5000 in partnership with the Anden stud.

This ram is a complete shedder. Used in the ET and natural mated programs.

Hillcroft Farms 217078

A ram lamb purchased in partnership with the Anden stud. Used naturally.

As a young ram lamb e expressed complete shedding characteristics.

Bundara Downs 218199

A ram lamb out of HF 197489. Best structured, growth and muscled ram

A complete shedder with excellent presence.
