Geelong show team 2022 (unfortunately, we were unable to attend due to the floods)

This season has been a wetter one than we have had for many years! Here at Clear Hills, we have been working away trying not to get bogged! Our health program has been designed to deliver the fittest rams for production, all sheep have been vaccinated with 7 in 1 GlanEry and Gudair vaccine which has been part of our program since 2005. All rams have been vaccinated with a long acting moxidectin drench, to provide continuous protection from barbers pole worm and provide a broad spectrum parasite control. We have successfully passed our biannual brucellosis accreditation which we have been a part of since 1955. Lambs have been hitting the ground in multiple this year! Lambing percentages are extremely high, as ewes were mated on green grass thus causing a super ovulation resulting in more multiple births.

With confidence we recommend these sheep to you. We would like to thank John Uebergang, Josh Pepper and the Kerr & Co team for putting on the sale and all the hard work it involves. Thanks to the Hamilton A and P society for the use of the shed.

Graeme Hooper and family.

CLEAR HILLS LAMB At Clear Hills our business has been expanding over the last 12 months we are using our Southdown rams over our commercial mob and have developed Clear Hills Lamb.

Clear Hills Lamb, is a direct marketing lamb enterprise supplying the public with delicious and succulent lamb. Processed and packaged and delivered to your front door. Clear Hills Lamb is supplying direct to the consumer, providing marbled, tender, high sort after cuts of lamb. We are supplying in our local area and hoping to expand our delivery options in the near future.
