

DUNGAY PARK
ANGUS
EST. 1990 | NSW MID NORTH COAST

AUCTIONS PLUS ONLINE COMPLETE DISPERSAL SALE 23-24 NOVEMBER 2022

Ed and Kim Lahey owners of Dungay Park Angus have decided it is time to begin a new journey in our lives, we are therefore going to sell our entire female herd and our two standing sires.

We began our love affair with the angus breed when our family changed from Herefords to Angus in the early 80s. We purchased a flush from Forres Burnette C60. We now have a small but diverse female herd made up of genetics from our original family herd Willsbro Angus, Raff Angus, Millah Murrah Angus and Wattletop Angus.

Blending of these great genetics has given us a group of young Females with very diverse lineage. There will be 44 lots made up of cows and calves in calf. Cows and calves open for joining and a group of unjoined heifers.

The bulls used in 2022 Joining programme are: Stellar, Iceman, New Ground, Paratrooper and backed up with our own Sires NISP2 and NISR19.

We invite anyone interested to contact us and to make an appointment to inspect the herd at any time prior to the sale.

We will have an open day for inspections on the 11th from 10.00am till 4.30 pm and 12th of November from 9.00 am till 1.30 pm.

This a great opportunity for producers who are beginning their seed stock business and for those producers keen to add a little diversity into their herd.
