HEALTH

Burando is Ovine Brucellosis Free Accredited No 313, OJD vaccinated and are approved 3rd generation vaccinated flock, being vaccinated since 2005.

All sheep offered are footrot and lice free, being a closed flock fully vaccinated with 6 in one, vitamin ADE, Cydectyn LA injection, B12, Vetmec oral combo drench, selovin Selenium and backlined with Viper on 12/9/21.

Note Lambplan and Stock Scan measurement sites for EMD Depth and Fat are taken at different carcass site areas and should not be compared against one another.

Our selection is placed on Lambplan breeding values as a guide or tool, but we will not compromise structure, breed type or quality. Lambplan is a guide to assist you making genetic decisions on each animal and should not replace visual selection. **Balanced figures are important for consistency.**

UNDERSTANDING LAMBPLAN.

Bwt - Birth Weight. Rams with lower ASBV's for birth weight (BWT) produce lambs with lower birth weight. Both low (lamb survival) and high (lambing difficulties) should be avoided.

Wwt - Weaning Weight. Rams with a more positive ASBV for

weaning weight (WWT) will, on average, produce lambs that grow quicker to weaning.

Pwwt - Post weaning weight. Rams with more positive ASBVs for post weaning weight (PWT) produce lambs that grow quicker and reach target weights in a shorter time.

Pemd - Post eye muscle depth. Rams with a more positive ASBV for post weaning eye muscle depth produce lambs that have more muscle, independent of weight, and a higher lean meat yield.

Pfat - Post fat. Rams with a more negative ASBV for post weaning fat (PFAT) will produce lambs that are leaner at the same weight.

Carcass + was the most widely recognised index on Lambplan. It is a desired gains index promoting animals with high growth, high muscle and a smaller emphasis on fat. The index was based on the 1990 average of 100. Sheep genetics have identified that by solely focusing on Carcass traits, it was having

a negative impact on eating quality. Therefore Carcase+ will be phased out from 2020 and replaced with a new TCP (terminal Carcase Production) Index which incorporates eating qualities and Carcase traits.

TCP The TCP Index has been created to assist producers to achieve both gains in their major production traits, such as post weaning weight and muscling, as well as ensuring consumer satisfaction from lamb is maintained through focusing on key eating quality traits such as shear force (tenderness) and intramuscular fat (marbling).

TCP we believe this new index is a good tool to index our sale rams for these traits within flock.

Fincham's Burando Southdowns

**Annual Southdown Sale
Monday 7th, November 2022**

Welcome to our third annual stud and flock ram sale. We have a really even group of rams for sale. We have gone to a lot of effort to supply you with independent tools to help in your selection, in Lambplan and Stock scan for your assessment. We always emphasize that structural soundness and balance is paramount at Burando. We have had a really wet winter like most, without much sun to polish the stock off and here we go with a really even group of special stud and flock rams, cheers.

This year's Southdown rams are sired by the sires Listed.

**All of our sires for this crop of sale rams are Gaucher tested
NON CARRIERS**

Johnos 19009 (J0090) twin. This is his first crop of rams for sale this year, he is a high growth, big EMA,carcase sire, with real grunt with perfect Black feet. He has a lot to offer the breed and is of old rarer blood lines in his pedigree and this will be outcross blood for most Australian Studs to tap into. Gaucher tested non carrier.

Yentrac 190746 (Y746)Triplet. A very correct, moderate framed sheep, very clean faced and legs, This is his first crop of rams for sale this year, he is a high growth, big EMA,carcase sire, with perfect Black feet, structure and very balanced constitution .He is a very deceptive ram. Y746 also has a lot to offer the breed and is also of rare blood lines in his pedigree being MacLaka 20/10 New Zealand and this will be outcross blood for most Australian Studs to tap into as there is not a lot of Maclacka blood in Australia . Gaucher tested non carrier.

Fairbank 170881 (F881)Triplet, This is his first crop of rams for Burando for sale this year, he is a very correct sheep-deep bodied ,clean faced and legs with perfect Black feet, he has a lot of Fairbanks best sheep in his pedigree as well as his mother by Merrydowns 70120 New Zealand bloodlines. Gaucher tested non carrier

Chandpara 13/148 (T) (JR) -Purchased for the top price at the 2014 Chandpara Sale for \$5,000 sired by NZ Clifton Downs 241 out of Chandparas best Breeding ewe 23/08 is sired by NZ Clifton Downs 225, Full sister to 148 won at numerous national shows. Consistently puts on long bodied, big hindquarters and loins, positive fat and carcass an outstanding breeder. Caucher tested non carrier

Burando 16/B56 (T) Tank – Sired by Lochdale 11051. Tank is a low birth rate high muscle, positive fat, IMF and carcass. An open clean faced ram that lives up to his name Tank. Caucher tested non carrier.

Kirkdale 16/206 (T) - Reserve Champion Southdown at the 2018 National show Geelong. An impressive ram with a big body & heavy carcass sire. This ram is really stamping his progeny outstanding carcass, structure & breeder. We have kept 4 sons. Caucher tested non carrier

Chandpara 16/169 - A moderate framed ram with a very thick Loin & very good overall carcass shape. He breeds a very good consistent type.Caucher tested non carrier.

Fairbank 17/867 (T) purchased for the top price of \$5,000 at Fairbanks 2018 sale in partnership with Kirkdale Southdowns. His sire is NZ Mapua 14706 .867 is a tremendous carcass sheep with a deep bodied , big hindquarter, clean bare face and legs. Caucher tested non carrier

Fairbank 160864 (T) Purchased from Fairbank in 2017 for his outstanding carcass, clean bare face, legs and figures he is a breed trait leader for growth rate. Mother is sired by NZ Clifton Downs 241. Caucher tested non carrier
