**SALE RAM DETAILS**

140 Elite SRS® Merino Rams

10 Elite SRS® Horn Rams

Aug–Sept 2021 drop

Shorn 22th March 2022

Tested 9th August 2022

**Inspection 9.30am**

**Sale 1pm**

**DIRECTIONS**

From Wellington take the Mudgee Road for 5 km.

Then take the 12 Mile Road for a further 24 km, take turn to right sign posted "Glenwood Wool-shed" and Glenwood Merinos. Or Google "Glenwood Merinos"

## WELCOME

In our 21<sup>st</sup> year of selling rams on property we are very proud to present this years sale team after some dramas which have meant that the sale was postponed for a month. Every year we see a continual improvement and depth in our rams which vindicates our breeding direction. We are focused on breeding the most profitable and productive Merinos and these sheep just so happen thanks to the SRS<sup>®</sup> breeding philosophy to be very ethical for a discerning and ever changing market.

The SRS<sup>®</sup> group has this year developed a partnership with a new app called Classmate which enhances each studs transparency for rams that are sold but also collates lots of visual data to improve breeding outcomes.

All Rams in the sale this year have been assessed using the app for visual wool, structure, and welfare traits which will be available on the website and also on sale cards on the day for people to make more informed breeding decisions.

Simply scan the QR code on the cover of the catalogue to see these results.

Kind Regards,  
**Norm & Pip**

A Customer is the most important visitor on our premises, he is not dependent on us. We are dependent on him. He is not an interruption in our work. He is the purpose of it. He is not an outsider in our business. He is part of it. We are not doing him a favour by serving him. He is doing us a favour by giving us an opportunity to do so.  
— Mahatma Gandhi

## TEAM AVERAGES

### Disclaimer:

Measurements provided are to be used as a guide only. The vendor and their agents accept no responsibility for the accuracy nor the repeatability of the fleece production information supplied with the rams in this sale.

### OUTSIDE AGENTS

Outside Agents will be offered a rebate of 2% where buyers are introduced to Peter Milling and Company (the selling agents) by email [livestock@petermilling.com.au](mailto:livestock@petermilling.com.au) 24 hours prior to sale.

**All accounts must be settled in 7 days.**

Thanks to Rabobank Dubbo who are kindly supplying refreshments after the sale. Please join us!

**Rabobank**

## UNDERSTANDING ASBVS

Glenwood is collecting carcass performance data to improve the meat and fertility attributes of the flock. Through the collection of live weights from weaning to yearling and meat scanning (by accredited scanner) combined with improved pedigree recording we are finding enormous benefits for our own enterprise and in turn for our ram clients.

ASBV's are simple and easy tool to use and get improved production.

### YWT (Yearling Weight)\*

Estimates the genetic difference between animals in live weight at 360 days of age.

**The higher the value the better.**

*\*Rams with more positive WT ASBVs produce progeny that grow quicker and are heavier at an earlier age.*

### YFAT (Yearling Fat)

Estimates the genetic difference for fat depth between animals at 360 days of age. **There is a genetic correlation developing with positive fat and higher reproduction rates in tough times.**

### YEMD (Yearling Eye Muscle Depth)

Estimates the genetic difference between animals in muscle depth at 360 days of age.

**Rams with a more positive ASBV for EMD produce lambs that are higher yielding.**

### YFDCV (Yearling Fibre Coefficient of Variation)

Estimates the genetic difference in Clean fleece weight at 360 days of age, expressed as a percentage.

### YSL (Yearling Staple Length)

Estimates the genetic difference in staple length at 360 days of age.

**The higher the value the better.**

### Accuracies

The accuracy for each measured trait is listed next to the ASBV as a percentage.

**The higher the figure the more accurate it is.** This is determined by such things as known sire and dam linkage, pedigree and the number of animals measured.

The measurements can change over time as more information and progeny are measured, however the higher the accuracy the less the value should move.

### Using the DP+ Index

The Dual Purpose (DP & DP+) indexes rank animals on their ability to produce merinos for a dual purpose operation. These indexes are aimed at those producers whose majority of sheep income comes from sheep sales. It is for self-replacing merino flocks that do not keep their wethers and also join a portion of their ewes to terminal sires for lamb production.

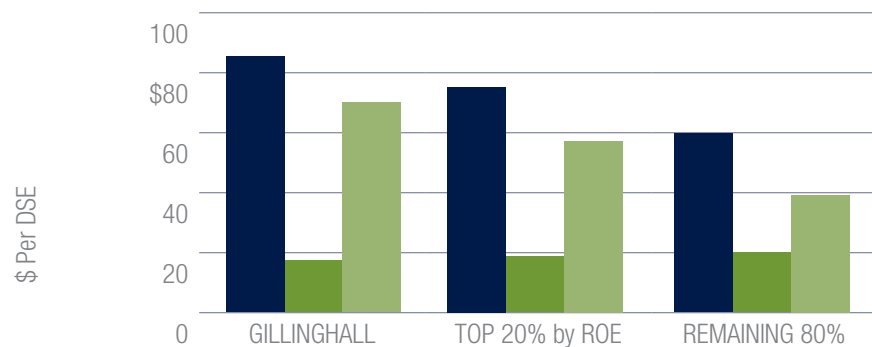

## REPORT: MERINO PERCENTILE BANDS — 07/10/2022

**YOUR NOTES:**

## TAKING HOME AND CARING FOR YOUR GENETIC INVESTMENT

- ✔ Take care of the Glenwood ram when travelling home, transport stress may put him off, have a good stock crate and tarp if there is bad weather or travelling long distances.
- ✔ When you get the new ram home put him in a **shaded paddock with plenty of feed and clean water**, he is a highly productive animal and will be expected to mate up to 100 ewes.
- ✔ Give him time to adjust to his new home, **try to give him 6 weeks** before joining him.
- ✔ Plan to shear, drench and vaccinate him well before joining.
- ✔ **Shear him twice a year and allow 8 weeks before joining**, treat as a preventative on the horns with Klik to avoid any risk of flies.

## MAXIMISING THE GENETIC POTENTIAL

- ✔ It takes about 7 weeks from when sperm is made to when it is available. **This means in a 5 to 6 week join all sperm will have already been made before hand.**
- ✔ Bring your ram in at least **8 weeks before joining for a health and testicle check**. It is too late after this time to fix any problems.
- ✔ Feeding a high protein grain like lupins prior to joining at about 500 grams per day can help with his fertility.
- ✘ **Do not allow your ram to be over fed** or get too fat – this can effect his short and long term fertility as well as his mobility.

With acknowledgment to Adam Mort of Hilltop for putting this guide together.

### All of the Glenwood rams have been treated with the following:

- ✔ **Vaccinated with 6 in 1 as lambs and a booster in 14/07/2022**
- ✔ **Backlined with Extinosad 22/03/2022**
- ✔ **Drenched with Zolvic Plus 16/9/2022**
