www.mawarragenetics.com.au

Coming up six years ago we purchased our foundation females for our Australian Hereford herd, Graham Genetics, from the first Ladies Day Sale at Mawarra. We have been so pleased and impressed by the cows we purchased, the quality of the Mawarra cow herd is unrivalled in our eyes and now first hand experience.

Successful businesses often apply a constant focus on improvement ... and a fundamental pillar of this philosophy is benchmarking with other like businesses, attempting to establish “**what good looks like**”, and then aspiring to that standard.

One of the things we have learnt from purchasing from Mawarra is “**what good looks like**” in relation to high-performing cows. We thought we knew the benchmark for good cow performance, but that has been well and truly smashed ever since we began breeding and raising cattle from the Mawarra Genetics base.

Our advice to anyone who is looking to establish a stud or add to an existing one is that you will not be disappointed by choosing to participate in this Sale.

We believe there are females from some of the very best cow lines in the breed on offer, and quality herd opportunities are available from the first female through to the last.

As an example, at Mawarra’s first Ladies Day Sale we spent from \$3,500 - \$14,000 for individual females from throughout the catalogue, and the truly exciting thing is that every single one has impressed.

One of our favourites from the first Ladies Day Sale was sold as an in-calf heifer from the Miss Titania line. At the time she wasn’t really on our list but, after some discussion with Logan, we found out that he had not wanted this heifer to be included in the sale because she was going to be such a great cow. On that recommendation, how could we not purchase her!

We sold her first bull calf privately to a renown stud, and her second calf was awarded Junior Champion at the National Hereford Heifer Show at Parkes in 2019. An ET bull from her sold for our record price of \$20,000 at the Wodonga National this year.

Her heifer from last year is currently being broken in for our local Cootamundra Show ... and her current bull calf at foot may be the best yet!

The quality of the Mawarra cow herd is unrivalled in our eyes and now first-hand experience, and we would encourage you to talk to any of the Mawarra team. Let them tell you about the female lines and some of their favourites ... they are as honest as the day is long ... and they know...

“what good looks like”.

Jason, Jody & Evie Graham

LADIES DAY SALE

MONDAY, 21ST NOVEMBER, 2022 AT 11 A.M.
183 REGISTERED WHITEFACE FEMALES

BJS Livestock video sale will be interfaced with AuctionsPlus

DIRECTIONS

Mawarra is approximately 12 minutes drive from Sale. Travelling from Bairnsdale, take the South Gippsland Hwy to Yarram, at Sale, & turn right at Longford towards Rosedale. Kellys Rd is approximately 8kms on the right.

Travelling from Melbourne, via Princes Hwy, turn right at the roundabout in Rosedale & take the first left towards Longford. Kellys Road is approximately 19kms on the left.

AIRSTRIP

Available at Sale airport. Planes will be met on request by agents or vendors.

REFRESHMENTS

Light lunch, morning and afternoon tea will be available from 9:30 a.m. on Sale Day thanks to the Longford Primary School Parents' Club.

INSPECTION

All cattle can be inspected, by appointment, prior to the Sale. Gates will be open from 2 - 6 p.m. on Sunday the 20th November (refreshments and light evening meal provided) and from 8 a.m. on Sale Day.

HERD HEALTH

All females and calves have been treated with Ultravac 7in1. Pestiguard has been administered according to Zeotis guidelines. Prior to Sale, all females and calves will be treated with Dectomax Injectable, Multimin and B12. J-BAS score 6.

NO VERBAL INSTRUCTIONS

Please fill out the Buyers Instruction Form available on our website prior to the Sale, or from the office on Sale Day. Only agents introducing 24 hours prior to the Sale or attending on the day will receive a rebate.

AGENTS REBATE

3% payable ONLY to those agents who accompany their clients on Sale Day and co-sign the Buyers Instruction Form. 1% rebate is available to those agents who introduce their clients in writing, by fax or email, at least 24 hours prior to the Sale.

DELIVERY

Staff from Joe Wilton Transport will be in attendance to co-ordinate deliveries. Stock awaiting delivery will be held free of charge for a period not exceeding one week or, in the case of interstate destinations, until regulation tests have been completed. Every care will be taken, but no responsibility accepted. Sale will be cancelled on any animal failing health tests.

ACCOMMODATION

Accommodation and transport can be arranged by contacting selling agents or vendors. We recommend the following motels:

THE MATADOR

68-78 Raymond Street,
Sale 3850.
T: 03 5144 1422
E: info@thematador.com.au

QUEST APARTMENTS

DESCRIPTION OF ESTIMATED BREEDING VALUES (EBV)

Calving Ease EBV (%) are based on calving difficulty scores, birth weights and gestation length information. More positive EBV's are more favourable and indicate easier calving.

Gestation Length EBV (days) is an estimate of the time from conception to the birth of the calf and is based on AI and hand-mating records. Lower (negative) GL EBVs indicate shorter gestation length and therefore easier calving and increased growth after birth.

Birth Weight EBV (kg) is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

200 Day Growth EBV (kg) is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400 Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600 Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

Mature Cow Weight EBV (kg) is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Steer breeders wishing to grow animals out to a larger weight may also use the mature Cow Weight EBV.

Milk EBV gives an estimation of the animal's milking ability. For sires, this EBV indicates the effect of their daughter's milking ability, inherited from the sire, on the 200 day weight of her calves. For dams, it indicates her milking ability.

Scrotal Size EBV (cm) is calculated from the circumference of the scrotum taken between 300 and 700 days of age and adjusted to 400 days of age. This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

Days to Calving EBV (days) indicates the fertility of the daughters of the sire. It is the time interval between the day when the female is first exposed to a bull in a paddock mating to the day when she subsequently calves. A negative EBV for days to calving indicates a shorter interval from bull-in date to calving and therefore higher fertility.

Carcase Weight EBV (kg) is based on abattoir carcass records and is an indicator of the genetic differences in carcass weight at the standard age of 650 days.

Eye Muscle Area EBV (sq cm) is calculated from measurements from live animal ultrasound scans and from abattoir carcass data, adjusted to a standard 300kg carcass. This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300kg dressed carcass. More positive EBVs indicate better muscling on animals. Sires with relatively higher EMA EBVs are expected to produce better-muscled and higher-percentage-yielding progeny at the same carcass weight than will sires with lower EMA EBVs.

Rib Fat and Rump Fat EBVs (mm) are calculated from measurements of subcutaneous fat depth at the 12/13th rib site and the P8 rump site (from live animal ultrasound scans and from abattoir carcasses) and are adjusted to a standard 300kg carcass. These EBV's are indicators of the genetic differences in fat distribution on a standard 300kg carcass. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcass weight than will sires with higher EBVs.

Retail Beef Yield EBV (%) indicates genetic differences between animals for retail yield percentage in a standard 300kg carcass. Sires with larger EBVs are expected to produce progeny with higher-yielding carcasses.

Intramuscular Fat EBV (%) is an estimate of the genetic difference in the percentage of intramuscular fat at the 12/13th rib site in a 300kg carcass. Depending on market targets, larger (more positive) values are generally more favourable.

Net Feed Intake (Feedlot Finishing) EBV (kg) is an estimate of genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a feedlot finishing phase. NFI-F EBVs as expressed as kilograms (kg) of feed intake per day. Lower, or more negative, NFI-F EBVs are more favourable. For example, a bull with an NFI-F EBV of -0.6 kg/day would be expected to produce progeny that eat less feed per day than the progeny from a bull that has an NFI-F EBV of +0.8 kg/day (when the progeny are of similar weight, are growing at a similar rate, and are in a feedlot finishing phase).

HEREFORD Group Breedplan - Average EBVs for 2020-born calves.

Hereford Pedigree Abbreviations:

In accordance with Herefords Australia regulations, the following abbreviations appear in the pedigree of animals denoting their horn status:

| | | |
|-------------|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (H) | = | Horned |
| (H#) | = | A horned animal either containing Polled genetics OR missing a percentage of it's four-generation-horned pedigree |
| (P) | = | Polled |
| (PP) | = | Homozygous Polled |
| (S) | = | Scurred (Note: The scurred gene is independent to the polled gene. It gives no indication of the level of horned or polled progeny that will result from this sire.) |

CONDITIONS OF SALE

- 1 The highest bidder shall be the purchaser and, in the event of any dispute arising, it shall be settled by the Auctioneer unless one of the claimants will advance, in which case the lots shall be put up again.
- 2 The purchaser shall deposit 25% or the whole of the amount of the purchase money (if required) at any time during the sale.
- 3 All stock shall be paid in cash immediately on conclusion of the sale, and prior to delivery, but, unless other arrangements are specifically agreed in the event of delivery being made or possession obtained by the purchaser or his representative prior to payment of the purchase money, then until payment in full of the purchase money, or any cheques given on account of same of the purchaser to hold the stock as trustee only for the vendor.
- 4 Each lot shall be at the risk and expense of the purchaser immediately upon the fall of the hammer.
- 5 Lots will not necessarily be offered in numerical order.
- 6 All conditions and warranties which might but for this clause be implied by law are expressly negated and excluded. Lots are sold with all faults (if any) and no fault, error, omission, or misdescription in such particulars or pedigrees shall invalidate the sale or be made the subject of any claim for compensation.
- 7 The auctioneers or vendors shall not be responsible for any errors or omissions in any particulars appearing in the description of pedigree of any lot offered for sale, and no error, omission or misdescription in such particulars or pedigrees shall invalidate the sale or be made the subject of any claim for compensation.
- 8 The purchaser authorises the auctioneer and/or the auctioneer's clerk to sign on his or her behalf the contract of sale.
- 9 Any statement in the catalogue in relation to a particular cow that has been pregnancy tested as being in calf or to the like effect shall not imply any warranty by the vendor that the cow is in fact pregnant and the purchaser is required to take the risk of the pregnancy or tests being wrong.
- 10 If the purchaser shall neglect or fail to comply with any of the above conditions, any stock purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such re-sale, and shall not participate in any profit accruing therefrom.
- 11 GST: All payments to be made under this agreement are exclusive of GST as that term is used and defined in A New Tax System (Good and Services Tax) Act 1999 (as amended). The purchaser acknowledges that, in addition to all payments payable by the purchaser for all supplies made under this agreement, the purchaser must pay all applicable GST on supplies made.

Mawarra Emperor (AI) (ET) (H) Born: 16/09/2015

CHURCHILL SENSATION 028X (H)
CHURCHILL A1 ET (IMP USA) (H)
 CHURCHILL LADY 6109S ET (H)

COOTHARABA MAGNUM (H)
MAWARRA MINERVA 816 (AI) (ET) (H)
 MAWARRA MINERVA 554 ET1 (AI) (ET) (H)

Emperor L336 sired Australia's 2020 \$100,000 top-selling Hereford bull (Talbalba Emperor P043), and the \$103,000 top-selling bull (Mawarra If Only Q264) at the 2021 Herefords Australia National (Wodonga). Emperor L336 was accepted into the Herefords Australia Young Sire Program, the BIN Progeny Test - 7th Cohort, and the DPI Southern Multi-breed Project. He is a trait leader for IMF and one of the leading sires in the breed for Net Feed Intake (Top 1% EBV / Ranked No.5 in the breed). His dam, Minerva 816, was an outstanding female. She is a full sister to international sire, Vice Admiral. We have 17 daughters currently retained in herd, and her six sons sold to date (three at the Herefords Australia National [Wodonga]) have topped at \$22,000 recording an average of \$14,000. Emperor has 37 daughters in herd and 13 are offered to you in this catalogue.

 MAWARRA MINERVA 823 (H)

If Only was purchased by Melville Park Herefords in 2021 for the Herefords Australia National (Wodonga) record price of \$103,000. His dam is a donor and his sire, Emperor L336, is featured above. If Only's EBVs rank in the top 1% of the breed for IMF, 5% NFI, 10% 600, SS, EMA, SSR & NBT, 15% 400, Milk, Cwt, Rump, NSR & SBM. His first calves at Mawarra are very impressive reflecting not only his EBVs but also the phenotype and depth of pedigree this young sire combines. If Only Q264 is a joining sire in this catalogue, and also represented as sire to a number of the calves at foot.

Sugarloaf Nowra N124 (AI) (H) Born: 21/07/2017

SOUTH BOOROOK BOMBAY (H)
BATTALION BLACK HAWK K7 (H)
 BATTALION CHERRY RIPE 6 (AI) (H)
 SUGARLOAF LEGION C059 (AI) (H)
SUGARLOAF JEWEL G171 (H)
 SUGARLOAF JEWEL Z148 (H)

We purchased Nowra for \$18,000 at Sugarloaf's 2019 Sale. He is always standing up - ready for a picture ... a sign of his great structure and presence. A big, powerful sire; his B-butt shape, beautiful Hereford cosmetics and dark, soft coat is perfectly suited to the commercial marketplace. We have been impressed with the consistency of his progeny. His first 13 sons sold at our 2022 Sale to \$24,000 and recorded an average of \$14,925. Six daughters were sold in the same sale to \$8,000, averaging \$5,670. Nowra ranks in the top 5% of the breed for EMA & RBY, 10% 600, Mwt, Cwt, 15% 200 & 400. We are pleased to offer nine, of our fifty-two, Nowra daughters in this catalogue. He also features as a joining sire.

Mawarra After Shock (AI) (H) Born: 01/02/2011

GLENDAN PARK STORM W134 (H)
BOWMONT STORM C093 (H)
 BOWMONT MARITANA W168 (H)
 MAWARRA SENTIMENTAL ET1 (ET) (H)
MAWARRA MINERVA 774 (AI) (H)
 MAWARRA MINERVA 458 (AI) (H)

The excellence of udder shape and milking ability, combined with the depth, volume and softness of After Shock's daughters saw over fifty active in our herd only a couple of years ago. The average birth weight of the 125 calves he sired at Mawarra is 37kgs. His dam, Minerva 774, had a perfect udder. Her sons sold to \$36,000. Twenty After Shock sons sold at auction to \$15,000, recording an average of \$7,025. His four Mawarra daughters, sold to date, have topped at \$8,000. After Shock semen has been exported to New Zealand, and the EU semen rights are held by The Haven and Dieuacresse Herefords, England. After Shock has been a true herd-improving sire and his sons have bred consistently well across a range of environments in both Australian and UK stud and commercial herds. Recently a son was awarded Grand Champion at the 2022 Royal Adelaide Show. We highly recommend your inspection of the twelve daughters we offer to you in this catalogue.

Pute Nascar N13 (IMP NZL) (H) Born: 22/08/2017

KIWI YARDSTICK Y47 (H)
GAY OLYMPUS 1180088 (H)
 GAY AMETHYST 050139 (H)
 GLACIER JOHN 372 (H)
PUTE ROSA H105 (H)
 PUTE ROSA F 1220 (H)

Brent & Anna Fisher, Pute Herefords, New Zealand offered the following comments, "We kept Nascar as a herd sire because we thought so highly of his sire, Olympus. He was an exceptional bull that had the Hereford qualities that we strive for. Nascar was his best son, displaying those same qualities on a more moderate frame, and with a better shape. Nascar is a sound bull with a great sire's head and has that lovely softness and easy do-ability that we have found so prevalent in the Olympus daughters. His second drop of calves are outstanding. They are so consistent in their type. Showing the natural thickness, constitution, strength of bone and softness we look for when breeding Herefords." Nascar's first Mawarra sons will be offered in 2023. His first Mawarra daughter sold for \$5,000 at our 2022 Sale. He is a joining sire in this catalogue. Nascar's EBVs rank in the top 5% of the breed for EMA, 10% for Rib & Rump and 20% IMF.

Daybreak is one of the most complete sires we have bred; outcross genetics, sound structure, balance, softness, weight-for-age, carcass and IMF combine with elite maternal genetics. Doreen 225 has sold eight sons to \$20,000 (recording an average of \$12,375), and her daughters have sold to \$5,000. Two ET daughters were in the winning 'Pen of Three' at the 2016 World Hereford Conference, Uruguay. Daybreak was purchased for \$20,000 by Ironbark Herefords at the 2016 Herefords Australia National (Wodonga) and he has bred exceptionally well for them. His sons have topped their sales, and the Spencer family regard him very highly. The Daybreak progeny are industry-driven, performance-orientated cattle. They will add profitability to your program. At Mawarra, Daybreak's 38 sons have sold to \$22,000 (seven at the Herefords Australia National [Wodonga]), at an average of \$10,320. Two daughters have sold to \$5,000 and we offer you another six in this catalogue.

The Jasper daughters are amongst the best in our herd. They are consistently easy doing, fertile, great milkers and structurally sound. Jasper is a trait leader for IMF and his EBVs for Rib and Rump rank in the top 1% of the breed. He ranks in the top 10% for CEDTRS, DC, 15% Milk & EMA. Jasper's 24 Mawarra sons have sold to a top of \$20,000 to record an average of \$10,500. We have sold three daughters, to date, to \$4,500. Seven, of the twenty-seven daughters we currently have in herd, are offered to you in this catalogue.

 MAWARRA MISS TITANIA 140 (AI) (H)

Alan Mitchell, Wonthaggi, purchased Platinum M401 for \$12,000 at our 2018 on-property Sale and kindly allowed us to use him for a season. Miss Titania 414 has seven daughters retained, including some outstanding full sisters to Platinum M401. She is also the dam of retained sire, Blizzard. Another four of her sons have sold to \$14,000 (twice). The first Platinum M401 calves are really special and we welcome your inspection of them as calves at foot.

Evolution was purchased for \$32,000 at the 2017 Herefords Australia National (Wodonga) by Graham Genetics. His top-selling Mawarra son, \$42,000 Mawarra Influential Q162, is featured above. Evolution's 16 Mawarra sons have recorded an average of \$15,750. We currently have ten daughters retained in herd. Evolution is a trait leader for 200, 400, 600 & SS, top 1% Cwt, 5% Mwt, EMA, 15% Milk & 20% RBY. Doreen 300's other sons include \$18,000 Black Heart (2014 Herefords Australia National [Wodonga] - Talbalba and WRL Herefords). The Evolution sire line is consistently breeding industry-relevant cattle. We offer you four Evolution daughters in this catalogue.

Showtime commands your attention. A complete sire; his phenotype and EBVs combine to create a formidable package. His semen has been exported to New Zealand, the UK and numerous EU countries. Showtime's EBVs rank in the top 1% EMA (he is the No.1 2018-born Hereford bull for EMA), RBY, 5% Milk, Rump, 10% CWT & Rib, 20% GL. Showtime's maternal brothers include retained sire, Private Eye M013, \$53,000 Terminator (Oak Downs & Morganvale Poll Herefords), and \$40,000 Rhinestone (Yarram Park Herefords). They have three maternal sisters retained and a fourth is offered to you in this catalogue. The first Showtime son to sell in Australia was exhibited by Mawarra B Herefords at the 2022 Herefords Australia National (Wodonga). This yearling was awarded Junior Champion and went on to sell for \$12,000. Showtime's first Mawarra sons will feature in our 2023 Sale and we currently have 32 young Showtime daughters in herd. Thirteen progeny are offered to you in this catalogue between the yearling heifers and calves at foot. Showtime is also a joining sire.

The breeding prowess of both Anzac E114 and DB Tabitha Y177 is well documented. These two elite Poll Herefords have combined pedigree, phenotype and performance resulting in this 'Outstanding' sire. He was in the Herefords Australia Young Sire Program and his semen has been exported to New Zealand, the United Kingdom and Finland. His progeny scan consistently well, he is a trait leader for SS and in the top 5% of the breed for IMF. An Outstanding daughter owned and exhibited by Kianma Poll Herefords was Reserve Junior Champion at the 2022 Royal Sydney Show. Outstanding's 13 sons have sold to \$13,000 and his 12 daughters have sold, to date, to \$9,000. He has twenty daughters currently in herd and we are pleased to offer five of them to you in this catalogue. Outstanding is also a joining sire.

NJW Endure 173D has proven himself one of the most influential sires in the Poll Hereford breed of recent time. A sire who promises eye appeal, powerful performance and breed-leading EBVs. Endure's progeny have sold around the globe and include our record highest-selling bull, \$130,000 Mawarra Ultra Star R182. He and his full brother, \$35,000 Ultimate, were purchased by Devon Court Herefords with a half share in Ultimate to Cascade Poll Herefords. Ultra Star now holds the record for the highest-selling bull at the Herefords Australia National (Wodonga). Endure's 12 Mawarra sons have recorded an incredible average of \$30,000. Of the thirteen young daughters we have in herd, two are offered to you in this catalogue. Endure is a trait leader for 200, 400, Milk, EMA & IMF. His EBVs rank in the top 1% for SSR, NSR, SBM, 5% CWT, Rib NBT, 10% CEDTRS, 600 & DC. A sire who combines phenotype and figures at an elite level.

Solitaire combines the breed-improving sire, Techno, with one of our elite Minerva maternal lines. Solitaire's EBVs rank in the top 1% of the breed for 400, 600, SS, CWT, 5% 200, Milk, SSR, NSR, 10% MCW, EMA, RBV, SBM, NBT & 15% DC & IMF. He impresses those who see him and his first calves have not disappointed. We are excited about his future contribution to our herd. You will find him in this catalogue as a joining sire.

Miss Titania 111 has a Real Time N038 heifer retained. Miss Titania 023 sold five sons to \$20,000. They include Manitoba J051, who bred well at Kanimbla Poll Herefords, after being purchased at the 2015 Herefords Australia National (Wodonga). There are four maternal sisters to Miss Titania 111 currently retained in herd. They include our elite donor dam, Miss Titania 054 (see feature Lot 115).

Miss Titania 103 provides an exciting opportunity to secure a female from one of our most successful maternal lines. Miss Titania 299 is a full sister to \$60,000 Mawarra Nostalgia. Their dam sold twenty-nine sons to \$60,000, recording an average of \$12,000. Combine this with the homozygous Poll Hereford breed-improving sire, Anzac E114, and you have the basis for a phenomenal new poll female line. We have retained Miss Titania 103's only daughter to date, and she has a son in our 2023 Sale draft.

Peter considers Minerva 842 to be one of the best cows we have bred. Her impeccable pedigree boasts Magnum and Minerva 554, who have each had two sons claim Herefords Australia National (Wodonga) Grand Champion titles. A full sister to Vice Admiral, the genetic prowess of Minerva 842 is immense. With three other daughters currently in herd, we are pleased to offer you the opportunity to secure Minerva 984 for your program. Minerva 984 sold a daughter for \$3,000 and has another six in herd. Two more are offered to you in this catalogue as Lots 80 & 154.

MAWARRA MISS TITANIA 414 (AI) (H)
 MAWARRA MISS TITANIA 140 (AI) (H)

Miss Titania 736 is one of four full sisters to sire, Mawarra Platinum M401, currently in herd. Unlike her other siblings, she misses pigment on one eye but has equal breeding potential. She sold a son for \$6,000 and a daughter for \$5,000. Miss Titania 414 has been an incredible donor with 24 progeny.

Miss Titania 070 has a beautiful nature, she's always keen for a scratch. Shown as a heifer, she was Intermediate Champion at the Herefords Australia Youth Expo in Parkes, and won her class at the Royal Adelaide Show. She has a young daughter in herd and we retained her son, Revolution, as sire. Miss Titania 154 is a very promising young cow.

POTENTIAL SHOW HEIFERS.
THEY HAVE BEEN HALTER BROKEN.**

This catalogue represents the very best genetics we have to offer. Peter has individually selected every joining with a view to combining phenotype and EBVs to the best advantage.

Peter has developed his method over many years and implements it across our entire herd. It is the cornerstone of our breeding program and allows us to maintain the fundamental phenotype and commercial traits that ensure the market suitability and profitability of the cattle we breed, whilst also improving EBVs, especially for the not-so-visible traits (i.e. IMF).

Research is continually conducted to keep abreast of sire lines performing well across the globe. New sires are only selected after thorough investigation.

Our sire pool is extensive, and evenness of type is achieved by maintaining a strong, maternal-focussed, performance-orientated breeding herd.

We calve over 400 cows annually at our Traralgon property and over the last two years we have assisted only ten births (all of these were either abnormal presentations or twin births). Our cows are fertile, easy calving, good milkers with neat udders.

The consistency of our Sale drafts, our continually-increasing client base, and the results our genetics achieve throughout Australia and internationally, is testament to Peter and his methodology.

Backed by an extensive embryo transfer program, we can now share with you the elite bloodlines that have proven so successful for us.

We are proud of our breeding herd and welcome the opportunity to showcase it to you.

Tabitha 025 has an excellent Showtime P277 son for our 2023 Sale. Granddam, Tabitha 005, was a great donor. Ravensdale Poll Herefords purchased a Pick of the Herd flush and chose her as the donor. Her son, Ravensdale Guardian, topped the Herefords Australia National (Dubbo) at \$32,000. The combination of Sensation P168 and this Tabitha line is exciting. Tabitha 073 has outstanding genetic potential.

Wallace H427 has over 600 registered progeny and we were delighted to have him spend his last years at Mawarra. A proven low-birth, easy-calving sire, his sons from our stable have sold to \$13,000. A strong maternal line with Minerva 817 on the bottom side of her pedigree, and potential joining to Terminator Q274, Minerva 226 is an exciting potential breeder. Minerva 156 is featured in this catalogue (see Lot 45).

Allflex Livestock Intelligence

Tissue Sampling Unit (TSU)

Our Tissue Sampling Units are easy to use, yielding excellent lab results. Collect a clean, uncontaminated sample in seconds with a single squeeze motion.

When paired to a matching NLIS and management tags, we've simplified DNA sampling, creating an absolute sample to animal linkage

CLIENT TESTIMONIAL

We have been purchasing from Mawarra for nearly 30 years now and what impresses us most about their cattle is how well they put on condition, and how well they hold condition, regardless of the season. Our decision to return year after year to buy quality females that will suit our operation is made easy due to their consistency in temperament and

fertility, and our herd has improved dramatically as a result. The animals the Sykes Family produce for commercial operators like us to purchase is an absolute credit to them ... and we couldn't be happier.

Minerva 239 is one of our first Terminator daughters. His calves have impressed in each herd he has been used in and ours is no exception. His sons will lead our 2023 Sale draft. His dam, Miss Titania 054, is featured with Lot 115. On inspection, we are sure you will agree this young heifer is outstanding. Minerva 161 is out of donor Minerva 843 (\$14,000 - Graham Genetics - 2016 Ladies Day Sale) and by \$40,000 Yarrandabbie Jingle. Minerva 843 is a full sister to Vice Admiral (see their dam featured with Lot 22). The maternal strength of this pedigree, on both sides, is unquestionably elite.
