ABOUT KIRKDALE.....

Welcome to our sixth on property sale. Kirkdale Southdowns was founded in 1884 and is the second oldest registered stud in Australia. The stud is now run by 5th generation, Andrew Hogarth and his partner Aneika and their two boys Cooper & Jack. Our focus is on producing structurally sound, smooth shouldered, long bodied and well-muscled rams with the aim of easy lambing and producing fast growing lambs for the prime lamb industry.

We are excited to be offering ewes this year as well.

Sires used in 2021

- **Nedelle Downs 140216:** Smaller framed, thick set ram producing well-muscled, correct progeny. Still breeding above himself.
- **Kirkdale 160206:** A long bodied, correct ram with a great hindquarter and exceptional EMA. Reserve Champion Ram at Geelong National Southdown Show in 2018. New Zealand studs have used him by AI along with several leading Australian studs. We believe he is one of the best rams Kirkdale has bred.
- **Fern Hill 140218 & Nedelle Downs 170037:** Used by AI. Both rams where carefully selected on phenotype and previous performances in other flocks. They also give us link sires & benchmarks & quality outcross options.
- **Kirkdale 170358:** Clean head, moderate frame, great hindquarter. He is breeding exceptionally well. Sire Clifton Downs 140279.
- **Kirkdale 190134:** Sired by Burando 160056. Outcross sire. Big growthy, early maturing ram.
- **Kirkdale 190019:** Another ram sired by Burando 160056. A big powerful ram with a great hindquarter & open face.
- **Yentrac 190828:** Purchased in partnership with Nedelle Downs for \$8400. A smaller framed ram, upstanding, moves very well, clean face & magnificent hindquarter.

Sire abbreviations

K – Kirkdale **FB** – Fairbank **ND** – Nedelle Downs
FH – Fern Hill **Y**- Yentrac

Understanding Lambplan

Lambplan has been used for the last seven years at Kirkdale.

Bwt – Birth weight: The lower the ASBV for birth weight on a ram, the lighter their progeny will be born.

Wwt – Weaning weight: A positive ASBV means the animal is genetically faster growing.

Pwwt – Post Weaning weight: Rams that have a higher post weaning weight normally produce lambs that grow quicker and get to their target weight faster.

Pfat – Post fat: A ram with a negative ASBV means a genetically leaner animal.

Pemd – Post Eye Muscle Depth: A ram with a positive ASBV means a genetically thicker muscled animal, and one that will have slightly more of its lean tissue in the higher priced cuts.

TCP – Terminal Carcase Production: The TCP index has been created to assist producers to achieve both gains in their major production traits, such as post-weaning weight and muscling, as well as ensuring consumer satisfaction from lamb is maintained through focusing on key eating quality traits such as shear force (tenderness) and intramuscular fat (marbling).

While the lambplan figures are important to ensure a balance and consistency of progeny, they are only a guide. We believe that the build and structure of the rams should also play a part in the selection process.

Please note – ASBVs are at 01/10/22.

Stud Southdown Ewes

This year, for the first time, we will be offering a selection of stud ewes due to an exceptional lambing percentage last year. This line of ewes are of good quality and should suit any stud operation. All ewes were born multiple births.

Grass fed only, with no supplementary feed.

All ewes are Gaucher tested and are non-carriers.

Five specially selected Southdown Rams

These first five rams were part of our show team and we believe they have stud sire potential, however, there are a number of other rams throughout the catalogue that could also make stud sires.

For anyone interested, there are videos and full pedigrees of these five individual rams on our Facebook page and website. If you'd like any further information, please feel free to contact Andrew on 0438 918 177.

First 8 rams catalogued are Gaucher tested and non-carriers.

LOT 25

Kirkdale 210001

S: Kirkdale 190084 **D:** Kirkdale 120244
SOD: Maccelslie Park 090284

Very long stylish ram, good hindquarter. Dam 120244 is a magnificent ewe & mother of leading sire 160206.

Sire 190084 (flock ram that escaped).
Exceptional ram conceived by mistake.

LOT 26

Kirkdale 210189

S: Kirkdale 160206 **D:** Kirkdale 170327
SOD: Kirkdale 140239

Neat, tidy, well put together & long bodied ram.
Great back end.
By leading sire 160206.

LOT 27

Kirkdale 210020

S: Kirkdale 170358 **D:** Kirkdale 180038

SOD: Nedelle Downs 140216

Big powerful, heavy boned, exceptional hindquarter.

All grunt here.

Sire 170358, sired last year's top priced ram of

\$10,200.

LOT 28

Kirkdale 210060

S: Kirkdale 160206 **D:** Kirkdale 170356

SOD: Clifton Downs 140279

More moderate frame ram by 160206. Very neat, tidy
& well put together. Another great hindquarter.
Great temperament.

LOT 29

Lot 29 - Kirkdale 210079

S: Nedelle Downs 140216 **D:** Kirkdale 130235

SOD: Chandpara 100113

Nothing extreme here but nothing wrong either.

Very neat, tidy, correct ram.

Great temperament.

Southdown/Charollais x Rams

We are also offering 24 Southdown/Charollais rams.

This year's offering is sired by a pure Charollais ram over a few select pure Southdown ewes. As a result, we are offering the progeny, which are 50% Southdown and 50% Charollais genetics. Charollais X are lots 58-81, followed by the remaining Southdowns.

*Please note – Lot 111 was raised a triplet.

NOTES

Where to find us:

“Ridgeside”

196 Ridgeside Lane, Evandale, TAS

Once on Ridgeside Lane, you will need to travel 3km. About 1km in, you come to a fork in the road, stay left. You will go over 3 cattle grids.

www.kirkdalesouthdowns.com

We look forward to welcoming
you to our sale.
