Welcome to our 16th Ram and Ewe Sale,

We're proud to present this years lineup of rams and ewes that you can go home happy with. With one of the best lineup of rams we have ever offered and our selection over the years of stud rams and ewes for breeding this progeny. That produce conformation correct progeny, eliminating feet issues, that are fertile and ready to thrive in all environments with clients from Queensland to Tasmania, that continue to breed from AWD genetics.

We have been working hard behind the scenes with our livestock program to give the best opportunity for our stud and commercial ewes. We endeavor to improve our soils and our pastures to create a sustainable enterprise that the White Dorper's will thrive off all year around. With the extra hands on deck with Jack and Isa this year we have been able to get more done on the days that it wasn't raining.

Since the drought and over three lambing's from August 2020 to November 2021 with our 400, 3 and 4 year old commercial ewes we have lamb marked 1,220 lambs, that's 305% lambing over less than 18 months.

We again took all honors in the Prime Lamb Hoof & Hook competition at Dubbo 2021 show for the second time running (2014). We achieved 2nd for Trade Weight Hoof, 1st Trade Weight Hook, Grand Champion Hook Pen, Highest Scoring Combined Hoof and Hook Entry and Most Successful Exhibitor out of 87 pens of lambs (522 lambs) from 12 breeds. Our entries were commercial lambs straight out of the paddock. We know the proof is in the lamb that our genetics produce.

Dungary recorded 891 mm of rainfall for 2021 with another wonderful season currently and we only hope that you all are having a great season too.

With thriving livestock markets of late, we as breeders are able to take advantage of these record prices right across the board and that will continue for some time. With clients lambs and ewes making records, it is great to see that our progeny continue to prove a commercial success.

Steve, Family and Annalara White Dorpers

Our 2022 Annual Sale rams and stud ewe's have all been assessed using ClassiMate.

A livestock assessment tool that provides you with in-depth analysis of each animal. With 15 elements ranking from 0-100. It offers an accurate assessment that you can have the confidence in when purchasing. This also allows you as a breeder to make an informed decision for the typical traits you are chasing for the upcoming season.

"With ClassiMate, you can measure it, identify it and improve it quickly and economically. Your animals will develop better structural integrity and enjoy performance advancements across the board."

Classer: Justin Kirkby
