INDUSTRY PROVEN

Your Carcase Yield & Carcase Quality Program

TUESDAY 22ND FEBRUARY 2022

PREFACE: This is the 51st Annual Injemira Production Sale, and will be conducted at “Kiloran”, Book Book via Wagga Wagga NSW. 18kms north of Hume Highway on the Wagga Tumbarumba Rd. Inspection 9.30am. Sale 1.00pm.

INSPECTION: We encourage buyers to inspect the cattle prior to the sale. This gives us an opportunity to assist in selection of the best genetics for your herd, and to show you the strength of our sires and breeding herd. Contact Marc Greening at home on (02) 6928 1188, Mobile: 0411 043 039. An ideal time for inspection is the Stock and Land Field Day on Thursday, 27th January, 2022.

WEIGHTS: Will be available on sale day, or prior to the sale by ringing / emailing the Injemira office.

PAYMENT: Special arrangements can be made by contacting Injemira.

ACCOMMODATION: There are excellent Motels in Wagga Wagga, and we or the selling agents can make the necessary arrangements.

TRANSPORT: We can arrange your transport to and from Injemira, as there is an excellent air service to Albury and Wagga Wagga.

BREEDPLAN: We utilise and recommend Breedplan, which is a pedigree assessment of an animal's genetic merit. This is expressed as estimated breeding values (EBV's) and is measured in kilograms of liveweight.

TABLE 1: Average EBVs for the 2019 born animals analysed in the DECEMBER 2021 Hereford GROUP BREEDPLAN.

	Gest. Length EBV	Birth Weight EBV	Milk EBV	200-Day Growth EBV	400-Day Weight EBV	600-Day Weight EBV
	-0.6	+4.3	+16	+33	+55	+77

	Carcase Weight EBV	EMA EBV	Rib Fat EBV	Rump Fat EBV	RBV % EBV	IMF % EBV
	+50	+3.6	+0.7	+0.9	+0.8	+0.5

BULL SELECTION: Group Breedplan provides the information required to make a considered selection for the sire suitable for your herd improvement, be it for growth, calving ease, milk, eye muscle area etc.

HEIFER BULLS: Sire lot numbers marked with an **(H)** are those sires we would suggest suitable for joining to heifers.

THE BREEDPLAN SELECTION INDEXES:

This Index gives you a single EBV that reflect the value of an animal, to your breeding objective, in dollar terms. Each lot is expressed in the following format.

Southern Self Replacing	\$	+128	2020 BORN HEREFORD BREED AVERAGES
Northern Self Replacing	\$	+114	
Southern Baldy Maternal	\$	+129	
Northern Baldy Maternal	\$	+95	

AFTER SALES SERVICE: We pride ourselves in the manner in which we look after our clients. Forming strong alliances can only enhance the product. Don't hesitate to contact us.

BULL SOUNDNESS: All the sale bulls have been examined by our vet, in accordance with industry best practice.

CORONA VIRUS: All rules and regulations at the date of 22nd of February 2022 as prescribed by the NSW State Government will be adhered to. We ask upon arrival attendees familiarise themselves with the protocols for sale day.

SPECIAL ARRANGEMENTS FOR LATE WINTER/SPRING JOINERS

Injemira can retain those bulls purchased by late Winter/Spring joining operators until the bulls are required, free of charge. Payment would be 50% at sale time, with the balance payable on delivery. Contact Injemira to make arrangements.

Be sure of a catalogue and bring this one to the sale.

PRE SALE INSPECTIONS

A convenient time for pre sale inspections would be during the Stock and Land Field Days, at "Kiloran" on Thursday, 27th January, 2022. All sale bulls will be on display from 9.00a.m. – 5.00p.m.

Welcome to Injemira in 2022

Injemira Beef Genetics is a family run and owned whiteface seedstock business with Polled Whiteface Genetics utilised to produce commercially orientated bulls for the Australian beef industry. In 2022 we will offer 102 Polled sires in our Annual Production Sale.

Our program is not your traditional stud business. Our breeding decisions are dictated by commercial reality and that alone. Many stud operations can claim this but at Injemira we do it ourselves. In 2022 Injemira will turn off from grass ~2000 cattle in the form of Grass Fed Steers and Heifers and Live Export Breeding Females along with 280 PTIC females for a Autumn & Winter calving. With pedigrees analysed for “real world” performance and this analyses directs our breeding decisions for the upcoming stud breeding season.

This vertical integration with the commercial performance driving our stud herd not only enables us to offer bulls that we know will perform but it also allows Injemira to give relevant feedback to repeat clientele to give them the most desirable genetic package. “Seedstock production is not selling a bull, it’s selling a complete program”.

The Injemira stud herd consists of 350 registered stud breeders with a program of not culling any heifers. Natural selection does this for us. All females have to calve naturally before 2 years of age and rebreed to calve again at the age of 3. If any female does not do this she is culled. This enables Injemira to offer for sale every 4th year complete age groups of proven mature stud females as we have large numbers of replacement females coming through the system. This stringent commercially orientated program is why Injemira can offer to the industry ~150 bulls annually from only 350 stud females. The Injemira drop is very consistent with each bull being highly predictable genetically. We see in our industry far too often seedstock herds with large numbers of registered females selling relatively small numbers of bulls, you only get to see the top of the drop. At Injemira you will basically see the entire drop giving you the confidence that your “genetic package” will breed to a consistent level.

2021 - The year that was

Stud: What turned out to be a very exciting day for Injemira and the Australian Hereford industry with the Australian record price broken for the first time in 35 years and breaking Injemira’s record of \$110,000 set in 2016 for Lot 51 selling for \$160,000. This sire was purchased by a syndicate made up of ABS Global-Australia, Ardno Herefords and Vielun Pastoral Company with Jarrah Cattle Co purchasing a share post sale. The exciting aspect of this is that semen through ABS-Global’s network being marketed all over the world, really putting prominence on the Australian Hereford industry and opening the door for more Hereford bulls in the future. The sale as a whole went very well with 100% clearance and bulls selling in everybody’s price ranges (5 Bulls-\$20,000+, 47 Bulls \$10,000+, 43 Bulls \$5000+). Buyers included semen companies (ABS & Genetics Australia), Studs (Emigrace, Ardno, Vielun, MJ Herefords, Timboon Farms, Jaclinton, Rayleigh) and commercial herds from 3 states along with a live export order that only secured 2 sires and a further 18 bulls not catalogued post sale. Bulk buyers came from regular clients Woakwine Station, Alva Downs, Woomargama Station, Beerik Partnership, Belgrave Pastoral Co & C & K Comley along with new to the auction sale client Okeview Pastoral Co. Prominent sales included Lot 2 (\$30,000) & Lot 85 (\$32,000) selling to the Elsom family of Hamilton Vic, Lot 60 (\$32,000) selling to Rayleigh Poll Herefords Narrabri NSW & Lot 54 (\$20,000) Alva Downs Coleraine Vic. Also offered on the day 73- PTIC Commercial Heifers topping at \$4200 and averaging \$3218.

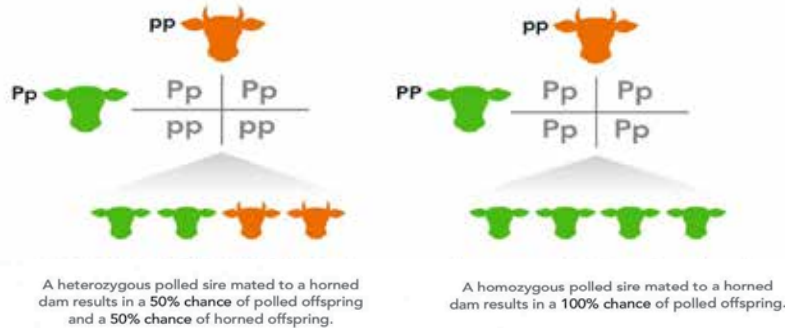

Commercial: What a year for everybody in the commercial beef industry, sky rocketing prices and seasonal conditions to follow for most parts. The Injemira blood commercial steers/heifers performed well with the early maturity patterns enabling bodies to hit the premium ‘Grass’ branded programs of Southern Australia. At Injemira our premium market for steers and heifers ‘Coles Graze’ was a great marketing outlet taking Grass fed Injemira blood whiteface cattle for what is the industries premium market. The steers that got too heavy for the Coles market went to JBS’s Great Southern brand which was an exceptional outlet for the heavier bodies. Again the whiteface is proving to be perfectly suited to the grass fed industry which is currently the jewel of the Australian export industry. Our pregnant heifer program was solid with heifers going mostly to Injemira bull clients. Heifers both stud & commercial from Injemira also went to China as part of a breeding order.

Industry: Injemira’s MSA Index for over 2100 bodies was a fantastic 61.8 putting Injemira in the top 10% of the entire industry. Some outstanding marbling results including steers going regularly at marble score 7. Gone are the days of producing huge growth cattle that don’t finish until 3 y/o on grass, we need early maturity patterns with the ability to finish off grass as a milk tooth animal. We need to concentrate on areas that we will be paid on in the future and that is my job as a seedstock producer to provide this, I cannot stress highly enough that this is **CARCASE YIELD & CARCASE QUALITY** and that is what gets you an MSA Index in the top 10% of the industry.

All Poll Bulls - Poll Gene Tested in 2022 - Homozygous/Heterozygous

- Results for the Poll Gene testing are included in the individual lots of the 2022 catalogue.

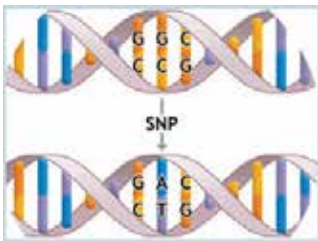

Two Possible Scenarios of Breeding Using a Polled Sire

NOTE: A third breeding outcome is possible if a Pp (polled) sire is bred to a Pp (polled) dam – the heterozygous polled calves will result in 25% PP, 50% Pp and 25% pp calves.

Statistics courtesy Alfa Genetics

Genomic Utilisation in 2022

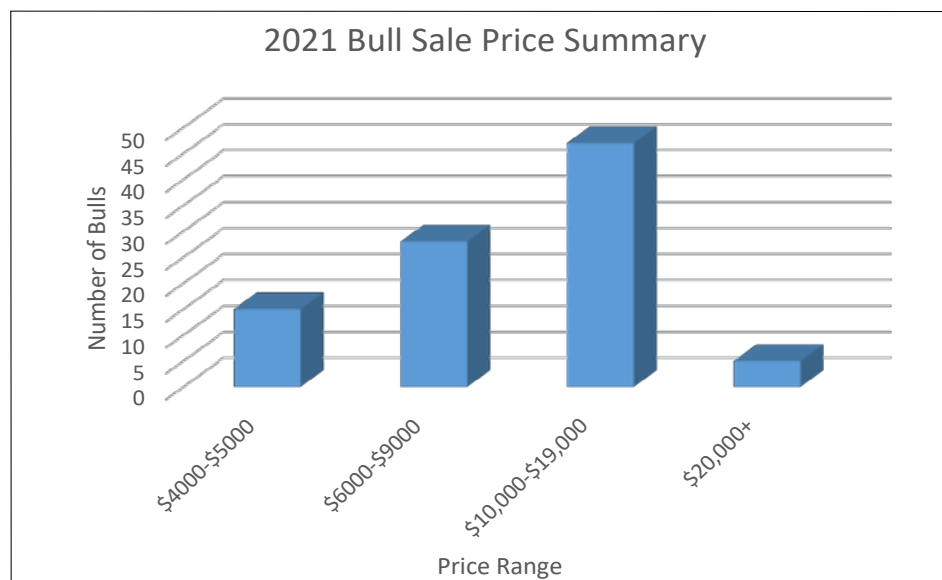

- All Bulls have been Sire Verified.
- All Bulls have been tested Negative for 3 known genetic conditions.
- All Bulls have been SNP (Single Nucleotide Polymorphism) tested to Genomically enhance breeding prediction values.
- Results have been incorporated into the 2022 catalogue EBV's.

Injemira is Affordable

- With the current market levels the bull you purchase is a relatively cheap input into your farm business. In a self-replacing herd that bull will have Daughters and Granddaughters still in production in 20+ years.

- There is a reason that 92% of our bulls went to return clients in 2021 and that reason is they perform and are accepted as industry leading genetics suitable for the modern markets.

QUALITY ASSURANCE AT INJEMIRA

Rest assured every step has been taken to offer the commercial buyer a disease free sire that will enhance your female herds reproductive rates.

- All Bulls Pesti Virus Vaccinated
- All Bulls 7 in 1 Vaccinated
- All Bulls Vibrio Vaccinated

PESTI-VIRUS ASSURANCE

Pesti virus is a problem for southern cattle breeders, that in the whole has been left untreated due to the complex nature of not only the clinical symptoms but also the complex viral spread.

In 2009 Injemira took advantage of new technology by implementing an 'ear notch' test that identifies all persistently infected (PI's) within a herd. Along with the 'ear notch' test Injemira has continued with our vaccination and maiden heifer exposure programs that we have been implementing for the past 7 years.

Birth Weight Measured at Injemira

Heifer Bulls Marked with an H

At Injemira we weigh and record all calves at birth. You will notice that in the catalogue a number of sires have been marked with an H this indicates that we consider this sire suitable for a heifer joining program. This recommendation has come from not only a structural observation but a Breedplan EBV and actual birth weight analysis. Many other Whiteface studs in our industry do not offer this to their clients and don't weigh any or only a few calves. They claim that a bull with low performance (600 day weight) will also have a low birth weight. We all know this is not the case! At Injemira we strive to achieve an animal with low to moderate birth weight and increased growth which can be seen by analysis of the sires catalogued.

COMMERCIAL INJEMIRA PTIC HEIFERS

- FOR SALE -

Selling 280 PTIC Commercial Heifers - 22nd FEB 2022 @ 12.30

- Rising 2 Years
- PTIC - 6 week Joining
- Commence Calving March & July 2022
- Specialist Polled Heifer Bull Joining Sires
- EU Accredited
- PCAS Eligible
- JBAS 6
- Fully Drench & Vaccinated
- AuctionsPlus Bidding Available

At Injemira we purchase annually weaner heifers from bull buying clients. These heifers are then drafted on constitution and market suitability traits with the best 300 joined to be sold annually for breeding.

The Heifers available in 2022 are a tremendous line of Injemira blood heifers that will suit any progressive breeding operation.

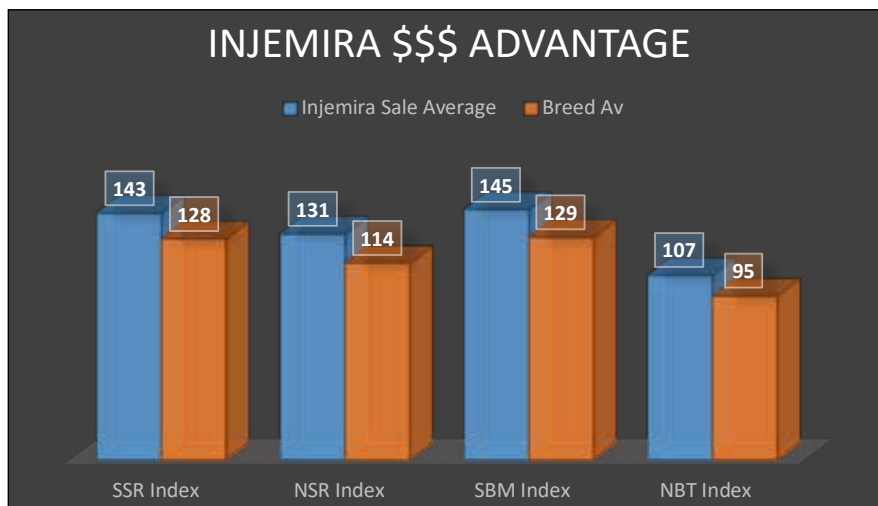

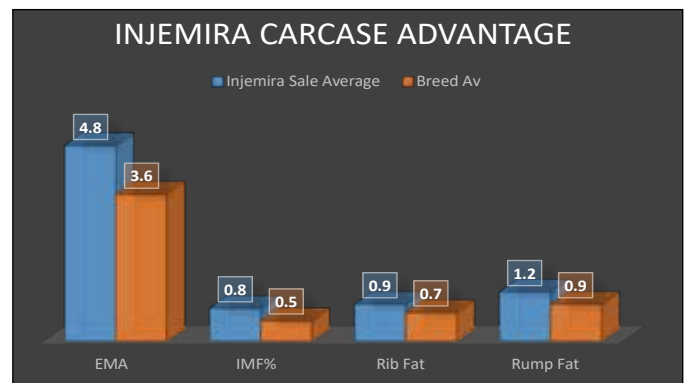

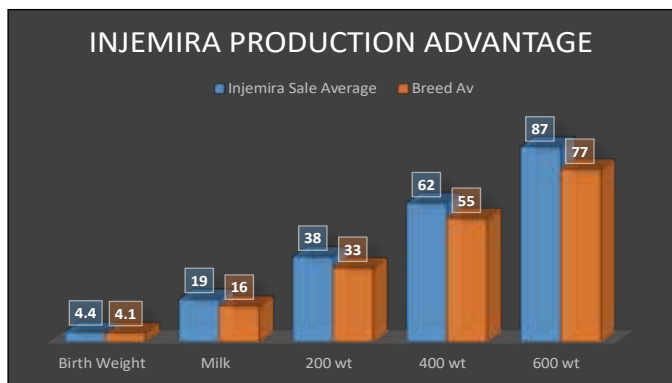

Injemira and Breedplan - Industry Proven!

The Average Sire at Injemira is in the top 30% of the breed for marbling, is 30% higher than the breed average for EMA and is in the top 30% for all four \$ Index values. Making Injemira a leader for objective carcass measurement requirements.

It is very easy in our industry to blindly chase Breedplan figures and you will quickly be at the leader board in the race for the best figures. At Injemira we don't have this philosophy, figures are just a part of the breeding tools utilised. Our figures are outstanding with the Average bull at Injemira being in the top 30% of the breed for all four \$index values. We have reached this point with many other considerations in place and that is commercial realities of structure, carcass shape, finishing ability and overall eye appeal. I, like you, like to look at good cattle in the paddock and to have the data behind them is a very hard task to achieve.

Hereford Indexes - You will notice a change in the index values presented from a few years ago for the Hereford breed. After close consideration I am recommending clients use these as an initial guide only in their individual bull requirements. I am of the firm opinion they don't reward the Hereford competitive advantage traits (carcass, finishing ability) strongly enough even though the average at Injemira is in the top 30% of the breed for all the values. I recommend that clients look carefully at individual figures for traits they consider necessary for their programs and not just use the summarised/weighted system of index values. I am a strong believer in performance recording and EBVs, this has not changed, and with Injemira providing genomic information for ALL sires they are enhanced considerably.

REFERENCE SIRES

REF SIRE	INJEMIRA KICKSTART P093 (AI) (PP)										
	Calved: 02/05/2018			Tattoo: P093			ID No: IHSP093				
INDEX VALUES	Kickstart P093 was sold in our 2020 sale to Guy Kentish of Waterloo Grazing after being used as a yearling on heifers. We thought so much of this sire at the time that we collected him and Al'd heifers for the 'Spring' joining. This bull carried so much muscle expression and style that I thought he would be a great breeding sire and this has proven correct. The sons in the sale this year are just so very good with extreme carcass and overall perfect maturity patterns. His EBV set has just got better and better over time being the top ranked calving ease sire in Australia along with curve bending growth in the top 1% of the breed along with outstanding carcass data with muscle top 1%, rib fat top 1% and marbling top 5%. Just look at his offspring and you will see why the data has gone the way it has. Highlights include Lots 44 & 45.

	Calved: 07/09/2017			Tattoo: 0281170536			ID No: OSA0281170536NZHB				
INDEX VALUES	King Pin has done a wonderful job. Our industry needs outcross genetics and King Pin is a complete outcross to the Australian industry. The sons presented in 2022 are a great line of even bulls with plenty of bone, length and style. The data he brings to the table is strong with moderate birth weights, high growth and terrific carcass credentials with EMA in the top 5% and marbling in the top 10% of the breed. We really look forward to the impact King Pin will have on our herd. Some really exciting sons suitable for stud duty are present in lots 46,47 & 48.

REF SIRE	IVY BANK MISCHIEF M101 (ET) (P)										
	Calved: 02/08/2016			Tattoo: M101			ID No: AHGM101				
INDEX VALUES	Purchased at Dubbo National this absolute meat machine of a sire has delivered perfectly to our program. His sons are full of red meat with fantastic skin and hair combined with very sound structure. His data has gone through the roof on the carcass side whilst maintaining low birth weight. A stud sire that ranks in the top 1% of the breed for EMA & top 5% for marbling always has a home at Injemira. Some very good sons are present in this catalogue with Lot 3 & 4 being the highlight.

REF SIRE	RAVENSDALE WILDFIRE L133 (ET) (PP)										
	Calved: 24/07/2015			Tattoo: L133			ID No: RHXL133				
INDEX VALUES	Its not often that a bull comes along that breeds so consistently and with such quality as this son of Robin Hood H38. A new era of Wildfire's continues at Injemira in 2022. His calves are just tremendous and have surpassed all expectations and sold exceptionally well. In 2020 Wildfire topped the sire averages and selling to \$34,000. They are everything a modern breeding program should be. Moderate framed functional cattle with the ability to finish and packed full of high quality red meat.

	Calved: 17/07/2014			Tattoo: K168			ID No: DAYK168				
INDEX VALUES	Executive was purchased to compliment the Anzac females in our herd and he has done this. His first sons sold in 2019 and met very solid competition topping at \$20,000 with many selling in the \$15,000+ bracket, he backed this up in 2020 with sons averaging over \$10,000. The strength we have found with Executive is his daughters, they are breeding the house down as can be seen with our \$160,000 record breaking sire of 2021 out of an Executive daughter. His sons offer growth and weight for age along with wonderful whiteface cosmetic appeal.

INDEX VALUES	Welcome to our sale of 2022 and this sire is a great way to kick it off. He is everything phenotypically we are trying to breed. He is a true modern sire with thickness and yield potential that the processors are chasing backed by sound structure. The female line in this pedigree is fantastic with numerous cows producing sons that sold for in excess of \$30,000. This sire is perfectly suited to the weaner producer that sells calves to grass finishers, they will get fat and be the first out the gate onto the truck. A top commercial bull backed by a great pedigree. Can be used on heifers.

INDEX VALUES	Stud Sire- This sire will catch your eye every time you look at the group of bulls he is in, just so stylish and full of red meat. I spent some time looking at this bull and all I can say is he is absolutely faultless in terms of structure. The Mischief sons over the last few years always catch your eye due to the meat content they have. If you are looking for a bull to add marbling whilst maintaining style and front paddock presence carefully consider this sire.

INDEX VALUES	Stud Sire- Have a look at the data set in this stud sire prospect. Calving ease with moderate growth, huge muscle, positive fats and marbling culminating in index values in the top 5% of the breed. You couldn't design a data set any better. When I selected this pen for the sale it was done purely on phenotype and it is just so pleasing to see the data align with what the bull looks like. This bull parades out with style and structural correctness then you get behind him and look at the meat he has in all the right places. Truly a faultless bull on phenotype, pedigree and data. Suitable for heifers.

INDEX VALUES	Without doubt the best Westward son we have produced and with slightly better data behind him I would rank him as a Stud Sire for sure. Just watch this sire stride out and appreciate the length of body, rear end muscle mass, topline muscle and head carriage. It is no surprise that this bull is like this coming from the cow family he does. There is two ET donor cows in the direct pedigree that have produced sons selling to \$45,000. A top herd improving sire I am certain all the good judges will have three big ticks against.

	Calved: 14/05/2020		Tattoo: R041		ID No: IHSR041		ALLENDALE WATERHOUSE D1 (PP) DAYS ROBIN HOOD H38 (AI) (ET) (PP) ALLENDALE FANCY U5 (AI) (P) RAVENSDALE WILDFIRE L133 (ET) (PP) KAIRURU ABERDEEN 03 0047 (IMP NZL) (P) MERAWAH IRISH ROSE B1 (AI) (P) MERAWAH IRISH ROSE X147 (P) ALLENDALE WASHINGTON C77 (AI) (PP) QUAMBY PLAINS GAUCHO G839 (P) QUAMBY PLAINS MAGPIE C71 (AI) (P) INJEMIRA CORA K136 (P) ALLENDALE ANZAC E114 (PP) INJEMIRA CORA H001 (P) INJEMIRA CORA E101 (TW) (P)							
INDEX VALUES	If you are looking for a sire that will add scale and power to your breeding herd this is your bull. A large frame sire with the biggest growth potential of any bull catalogued in 2022. From a strong cow family going back to the great Cora H001 who at the time was the best Anzac daughter in the herd. This bull has a very balanced set of EBVs and unsurprisingly the growth figures are the highlight being in the top 5% of the breed.

INDEX VALUES	A curve bending son of the great Wildfire. The more you look at this sire the more you like him. When he walks he carries himself so well with a beautiful smooth front end making him ideal for a heifer joining program. Look at the birth to growth spread on his data- Breed average birth to growth in the top 5%. A money making sire if I have ever seen one. Suitable for heifers.

16	INJEMIRA TECHNO N250 R017 (PP)											
	Calved: 04/05/2020	Tattoo: R017		ID No: IHSR017								
INDEX VALUES	Another big growth EU style son of Techno N250. We kept Techno N250 in the breeding herd due to his impeccable maternal line going back to the cow Plum E212 that produced the \$110,000 bull in 2016. This son has huge growth potential, look at the bull then look at his data being in the top 1% of the breed backed by strong muscle and marbling. If you want to get some growth into your herd with muscle and a proven maternal line have a close look at this sire.

	Calved: 23/06/2020		Tattoo: R114		ID No: IHSR114																																											
INDEX VALUES	The Mischief sons have been a wonderful addition to our program and this sire is no exception. NB: He is one of the younger sires in this group being a late June born calf. The Mischief's calve easily and have true carcass and finishing ability. This sire is no exception with big growth and an EMA figure in the top 1% of the breed. This sire carries style with length of body and a tremendous sires outlook. Perfectly suited to an EU style self replacing breeding program.

INDEX VALUES	Here is a sire that will catch your eye, a real 'sleeper' in the catalogue. He is a big powerful son of a Techno son we retained going back to the cow Plum E212 that was the dam of the \$110,000 top priced sire in 2016. This sire carries all the great attributed of the Techno line, very strong carcase and length and impeccable structure. A bull suitable for a producer looking to put some punch into a mature cow group.

INDEX VALUES	STUD SIRE- Have a look at this data set. Extreme calving ease with carcase data as good as it possibly gets. Muscle top 1%, fats top 1%, marbling top 5% culminating in index values in the top 1%- you just cant get any better than this! The sire himself is very attractive and stylish coming from a heifer that is bred in the purple with Executive and Redford prominent. A potential stud sire on phenotype and on data a definite breed leading sire. Recommended on heifers.

INDEX VALUES	A perfect sire suited to the domestic premium grass fed market. Extremely thick throughout with a fat cover and doing ability you have to see to believe. The female line is very strong with Y012 and B015 being right at the top of the tree in the Injemira herd for many years and combined with the proven Wildfire this bull is a very safe bet.

INDEX VALUES	Here is a topline sire for 2022, have a very good look at this herd improving sire. A late June drop calf that absolutely stands up against the older bulls in the group. If I could breed a group of steers just like this fellow you would have processors knocking your door down for more. His dam Happy Day H032 has been a great cow in the herd selling sons to \$18,000. This bull can be considered as a dual purpose sire for cows and heifers.

INDEX VALUES	Look at the data here on this 2 y/o heifers first calf. Calving ease with high growth, a real curve bender! Then you look at the carcass data and its as good as you can get with muscle in the top 1%, positive fats and marbling in the top 10%. You just couldn't design data better than this. The bull himself has a perfect structure with great feet and legs and a maturity pattern our industry requires. A top end commercial sire suitable for heifers. INDEX VALUES	Maternal pedigree is what hits me between the eyes when I look at this bull. His Dam First Day H004 is without doubt one of the great cows of our herd. She was the Grand Mother of last years \$160,000 record breaking sire and has had direct sons sell for in excess of \$20,000. You just could not get a better cow in a pedigree. The bull himself has great data with big muscle and moderate birth combined with a phenotype of beautiful skin and hair, clean sheath and length of body. Very good commercial bull suitable for heifers.

INDEX VALUES	Get behind this bull and appreciate the meat he has in all the right places. Just like all his paternal brothers the carcase qualities are just fantastic. This son of Mischief not only has these qualities but he is extremely sound with perfect whiteface cosmetics. A top herd improving sire I am sure the good judges will look at closely. INDEX VALUES	A real eye catching sire that has a maternal pedigree you cant get much better than, his dam is a full sister to the 2016 top priced sire selling for \$110,000. The Anzac x Plum E212 is just such a good cross. The bull himself is packed full of red meat with a maturity pattern perfectly suited to the premium grass fed markets. If you are a breeder with big raw style cows and want to get softness and maternal strength back, this is your sire. R092 will be ideal as a dual purpose sire for cows or heifers. SPRING DROP - SALE PEN 5

44	INJEMIRA KICKSTART P093 R153 (AI) (PP)				CHURCHILL RED BULL 200Z (P) CHURCHILL KICKSTART 501C (IMP USA) (AI) (ET) (P) HVH OKSANA 4L 33N (P)									
	Calved: 09/08/2020		Tattoo: R153		ID No: IHSR153		INJEMIRA KICKSTART P093 (AI) (PP) KIDMAN PALISADE H279 (PP) INJEMIRA LIONESS L221 (P) INJEMIRA LIONESS J300 (P)							
INDEX VALUES	Stud Sire: What a great way to kick off the 'Spring' drop bulls for 2022. Kickstart P093 R153 is our nomination in the Herefords Australia Super Sire program for 2022 and he is only a 2 y/o heifers first calf. Lets start with looking at his data spread that is absolutely industry leading. Calving Ease- Top 1%, Growth- Top 1%, Muscle- Top 1%, Marbling- Top 5% and all index values top 1%, you really cant get any better than that. But what is most pleasing is when you actually look at the bull he is an outstanding individual, full of red meat, tremendous length and a softness with even fat cover all on a structurally sound frame. We are very excited to offer the industry this bull that has been a true standout from a young age. Semen has been used at Injemira and will be for in herd use only. Highly recommended for both cow and heifer joining's.

LOT 44 - Stud Sire Candidate.

Herefords Australia- 2022 Super Sire Candidate (Lot 44)

We are very pleased to have accepted the offer on behalf of the new purchaser from Herefords Australia for Kickstart P093 R153 to be one of very few sires Australia wide to enter the 'Super Sires' program in 2022. Whilst we at Injemira had 16 sires nominated we selected this candidate as our representative as we believe he encompasses everything we are trying to achieve at Injemira. This program identifies breed leading individual bulls within each age group to be promoted to Industry under the program. The programs exposure will certainly benefit the new owners' ability to market this sire in the form of semen sales or sons in future bull sale drafts.

SPRING DROP - SALE PEN 5

45	INJEMIRA KICKSTART P093 R151 (AI) (PP)																																															
	Calved: 09/08/2020	Tattoo: R151	ID No: IHSR151																																													
INDEX VALUES	Stud Sire: Hasn't Injemira Kickstart P093 done such a tremendous job. This 2 y/o heifers first calf is an exceptional sire prospect, he will draw your attention every time you look at him, he is just all class. He strides out so well with great head carriage and tracking, he pulls up perfectly every time. Then get behind him and have a look at how much red meat he has, the only way I can describe him is that he is ridiculously thick. Now look at the data, every bit as good if not better than the previous lot. Calving Ease- Top 5%, Growth- Top 5%, Muscle- Top 1%, Marbling- Top 5% culminating in industry leading indexes all in the top 1% of the breed. This is an exceptional sire prospect that all stud operations should carefully consider. A true modern sire! Suitable for heifers.

46	INJEMIRA KING PIN R239 (AI) (PP)																																															
	Calved: 01/09/2020	Tattoo: R239	ID No: IHSR239																																													
INDEX VALUES	Stud Sire: It is no surprise that King Pin R239 is right at the top of the younger group of bulls. His dam produced the record breaking sire of 2021 selling for an Australian record price of \$160,000. She is not going too bad, her first two calves are as good as what we have ever produced at Injemira. This sire is the first King Pin son to be offered in Australia and hasn't he produced an even line of industry relevant sires. This bloke carries the soundness of his maternal brother with red meat in all the right places. The data is exceptional also with low birth weight and superior carcass data throughout. A top sire prospect that you cant deny carries a maternal strength unrivalled in our industry. Suitable for heifers.

	Calved: 08/09/2020	Tattoo: R296	ID No: IHSR296									
INDEX VALUES	Stud Sire: I really do like what King Pin has brought to the table. They carry superior carcass with sound free moving structures and great feet and are not going to be small bulls, they have a fair bit of growth potential. This fellow stands out amongst a very good group of paternal brothers. He has a wonderful smooth soft coat, with a perfect front end structure and great length of body then get behind him and have a look at the meat content across the top. The data set is very solid making him a perfect stud sire candidate. Suitable for heifers.

48	INJEMIRA KING PIN R175 (AI) (PP)													
	Calved: 16/08/2020		Tattoo: R175		ID No: IHSR175									
INDEX VALUES	<p>Stud Sire: A 2 y/o heifers first calf that will not disappoint and it's no surprise he goes back to our best cow in Happy Day D053. I joined King Pin to a few maiden heifers to test his calving ease credentials as he was a new bull. They all calved unassisted with no problems. This sire is getting better and better every time I look at this group, he is one powerful sire that is faultless in structure. His smooth slick coat combined with the strong data set make him a worthy stud sire candidate. Huge growth and huge muscle on the EBV set sums him up perfectly.</p>

49	INJEMIRA KING PIN R260 (AI) (P)													
	Calved: 06/09/2020		Tattoo: R260		ID No: IHSR260									
INDEX VALUES	<p>A slightly different style son of King Pin. He is a little more moderate with great softness and finishing ability perfectly suited to the modern industry. Like all the King Pin's he brings a strong set of data with the highlights of muscle the standout. A real top end commercial sire that will add some punch to any breeding program. A top commercial sire.</p>

	Calved: 13/08/2020		Tattoo: R169		ID No: IHSR169									
INDEX VALUES	<p>Here is an eye catching son of King Pin. Look at the way he moves, just so free in his stride. Another one of the King Pin sons from a 2 y/o heifer and he certainly has the power of his brothers out of cows. A very interesting maternal pedigree with a number of superior calving ease sires present. I would recommend this sire as a dual purpose sire suitable for both cows and heifers.</p>

INDEX VALUES	Cosmetics is not something we should worry about but to be honest we all like the traditional dark coated sires with lots of white so if that is one of your criteria this bull is for you. Along with strong cosmetics I just love the butt end profile and overall shape of this sires carcass. The modern market requires 'shape' and this bull has it. This bull comes with my highest recommendation.

INDEX VALUES	Here is a bull you will notice on sale day. A free moving absolute meat machine that is a 2 y/o heifers first calf. Look at the data set, just incredible! Calving ease that is breed leading with moderate growth and huge carcass with quality. Muscle is top 1% and marbling is top 1% you just cant get any better than that. He is the perfect modern beef animal that we should all be striving to breed, that will ultimately bring the processors knocking on your door wanting more cattle like this. Suitable for a heifer joining program.

INDEX VALUES	Executive has proven to be very good for our herd in terms of the daughters he has left behind. He was the sire of the dam of our record breaking bull in 2021 and this is not a one off, they are all good. We used Executive in our AI program to continue to get quality breeding females coming through. This sire is suited for a really strong maternal program focussing on breeding top cows.

INDEX VALUES	Here is a calving ease pedigree with muscle both on data and phenotype. A 2 y/o heifers first calf that you just have to see to appreciate the depth of muscle right down the back leg and across the spine. He is stylish and very sound and with that pedigree and data he is guaranteed to produce easy calving progeny that grow and muscle up. Suitable for heifers.

86	INJEMIRA KICKSTART P093 R154 (AI) (PP)																																															
	Calved: 10/08/2020		Tattoo: R154		ID No: IHSR154		CHURCHILL RED BULL 200Z (P) CHURCHILL KICKSTART 501C (IMP USA) (AI) (ET) (P) HVH OKSANA 4L 33N (P)																																									
INDEX VALUES	Like all the Kickstart P093 sons this herd improving sire is an absolute meat machine. He combines that with great structure, clean sheath and big testicles. The data is fantastic with calving ease and carcase data you just cant fault with the highlight being muscle in the top 1% of the breed. Suitable for heifers.

INDEX VALUES	A real sleeper in the catalogue that could stand in the first pen easily. Have a look at this data set! Really low birth with moderate growth, muscle and marbling both in the top 1% of the breed. A very rare combination and exactly what the modern market requires. The bull himself is a dark red bull full of red meat. Just get behind this bull and appreciate his topline then get beside him and look at the butt shape. A top bull not to be overlooked that is suitable for heifers.

INDEX VALUES	The dam Lass H030 is one of the best Anzac daughters in the herd and has been used for our contract embryo program. Her first son sold for \$18,000 to Koolomurt Past Co and is a tremendous example of a modern mature Hereford sire. This bull has softness and that doability we require whilst still having great length and stretch. The data is strong especially that carcass spread. A very good bull from a great cow.

CONDITIONS OF SALE

1. Subject to any reserve price, the highest bidder shall be the purchaser.
2. In the event of a dispute bid the auctioneer shall be the sole arbitrator and his decision shall be final.
3. The auctioneer may refuse to accept any bid which in his opinion is not in the best interests of the vendor without giving any reason therefor.

No person shall be entitled to bid unless, prior to the commencement of the sale, he has made arrangements satisfactorily to the auctioneer for the payment of any stock which he may wish to purchase.

4. Where the vendor reserves the right to bid at the auction in respect of a lot and instructions the auctioneer to make more than one bid on his behalf, the auctioneer shall, prior to submitting the lot for sale by auction, announce in a clear and precise manner the number of bids reserved by the vendor in respect of that lot.
5. A bidder shall be deemed to be a principal unless, prior to bidding he has given to the auctioneer a copy of a written authority to bid for and on behalf of a person.
6. As soon as practicable after the fall of the hammer, the purchaser shall sign the agreement (if any) for sale. In the event that any lot is passed in unsold the highest bidder shall have the right of first refusal of the lot for one hour after the stock comprising such lot has passed out of the sale ring.
7. Subject to anything specifically to the contract contained in either clauses 16 or 17 hereof, the purchase money for stock agreed to be purchased shall become payable and responsibility for such stock shall be borne by the purchaser. All stock shall be paid for in cash before delivery and notwithstanding, the auctioneer may require a purchaser at any time either before, during or after the sale to deposit with him the whole or any part of the purchase money.
8. Title to stock agreed to be purchased shall not pass to the purchaser until the full purchase money for same has been paid and in the event of delivery being made to or possession obtained by the purchaser or his representative prior to payment of all of the purchase money or any cheque given on account of same and the purchaser shall hold the stock in trust as bailee only for the vendor and (notwithstanding anything herein to the contrary) no property therein shall pass to the purchaser, who shall nevertheless be responsible for the safety thereof from the fall of the hammer and until such time as the purchase money is fully paid and shall not deal with the stock in any way whatsoever inconsistent with the title of the vendor.
9. Notwithstanding the giving of delivery or possession of stock sold, the vendor or his agent shall be at liberty to repossess the same at any time while the purchase moneys remain unpaid and for that purpose to enter upon lands or premises of the purchaser and if the purchaser shall neglect or fail to comply with any of these terms and conditions, any stock knocked down to him may be resold by public auction or private contract in such lots and such manner as the agent of the vendor may decide, with or without notice, at the purchaser's risk, who will be held responsible for all loss and expense arising out of any such resale and who agrees to indemnify the vendor and the vendor's agent with respect thereto and shall not participate in the profit (if any) accruing therefrom.
10. The right of the vendor to make not more than five bids is reserved.
11. All conditions and warranties expressed or implied by law (including those implied by statute, but excluding such expressed or implied warranties which may be imposed upon the vendor, pursuant to the provisions of the Trade Practices Act 1973) are hereby excluded and subject as aforesaid all lots are sold with all faults or imperfections, if any, whether the same may be discoverable on inspection or not and no compensation shall be made in respect of any such fault or imperfection or any error of description or number in or of any lots sold or otherwise and no representation made by the auctioneer at the time of the sale shall bind the auctioneer or the vendor.
12. Any statement made by the vendor the auctioneer or the nominated selling agents, whether in writing or oral, to the effect that any female has been pregnancy tested and is pregnant shall mean and require only that a certificate in writing shall be furnished by the vendor to the purchaser, which shall be signed by a qualified veterinary surgeon certifying that he has pregnancy tested the said female on a date specified and that in his opinion the female was pregnant on that (being a date not more than six weeks preceding the date of sale).
13. No refund of commission will be made to the vendor by the selling

agent on any sale cancelled after delivery has been made.

14. The auctioneer and selling agents shall be considered only the agents of the vendor and in all disputes the vendor and the purchaser must adjust the matter between themselves and not lot shall be returned to the auctioneer or to the selling agent.
15. Subject as may be otherwise notified herein, the selling agents are selling as del credere agents for the vendor and accordingly the full purchase price of each lot shall be payable by the purchaser to, and be recoverably by, the selling agents.
16. Attention is directed to the provisions of the Auctioneers, Stock & Station & Real Estate Agents & Business Agents, 1941-1957, and also to Sections 178B and 178C of the Crimes Act, 1900, and in particular to the material parts of Sections 45 and 85C of the Auctioneers and Agents Act, 1941-1980, warning as follows:

Section 45:

It is an offence against the Auctioneers and Agents Act, 1941, for any person to engage in, or to induce or attempt to induce another person to engage in, any collusive practice which may hinder free and open competition at an auction sale, whether by:

- (a) restricting the bidder,
- (b) abstaining from bidding; or
- (c) any other activity which may hinder free and open competition.

Section 85C:

The actual successful bidder at an auction sale must give to the auctioneer or an employee of the auctioneer on the day of the auction his name, or where he acts as an agent, the name of his principal. It is an offence not to do so.

17. Sale Subject to Veterinary Testing:

Notwithstanding the provisions of clause 7 hereof and subject to any express agreement of the contract between the vendor and the purchaser prior to sale, the sale of any stock shall be subject to that stock passing such veterinary test or tests as may be necessary to enable the stock to be transported to such destination as may be required by the purchaser. The purchaser shall bear the risk and responsibility for such stock as may require veterinary testing immediately upon the satisfactory completion of such testing at which time the purchase money for same shall become immediately payable. In the event that such tests are not satisfactorily concluded, the sale shall be deemed not to have taken place and neither party shall have any claim for damages or compensation of any kind whatsoever against the other. The costs of all tests shall be borne by the purchaser upon such tests being satisfactorily concluded and otherwise by the vendor.

18. Export conditions:

Notwithstanding anything else herein contained, all stock offered and purchased for export overseas shall be sold subject to their passing such veterinary tests, including fertility, as may be required by the country to which such stock are to be imported. The vendor or his agent shall arrange for the appropriate veterinary tests to be carried out as soon as practicable after sale, provided that all costs in relation to such tests shall be borne by the purchaser. All risk and responsibility for such stock shall pass to the purchaser immediately upon the satisfactory conclusion of all such tests, at which time the purchase price shall immediately become payable. In the event of failure of any requisite tests a sale shall be deemed not to have occurred and the stock shall be returned to the vendor and all costs associated with the sale, including veterinary costs, shall in such case be borne by the vendor. Should the purchaser fail to take delivery within three months from the date of the auction sale for whatsoever reason the vendor shall be entitled to cancel the sale and shall bear and pay all costs associated therewith.

19. Notwithstanding any agreement, custom, rule or usage relating to the liability of agents to principals in respect of payments for stock sold at auction, if any stock shall be sold to a purchaser normally resident outside Australia, or to another person acting on behalf of such a purchaser, the agent shall not be liable to pay to the vendor the proceeds in respect of such sale unless and until the agent shall have been paid in full by the purchaser. In the event of such stock being resold pursuant to the conditions of sale, the agent shall not be liable for any resulting deficiency or loss.

Disclaimer: Injemira and Thomson's Graphipress do not give any warranty as to errors or omissions, if any, particulars throughout the catalogue which they believe to be accurate when completed. Prospective purchasers should satisfy themselves by enquiry or inspection to the accuracy.
