

Little Meadows Angus 2022 sale bull comments

Lot 1 – Little Meadows Redemption WGAR1

Our lead off sire by Te Mania Newly N549. We have exclusive WA rights to Newly N549, a true sire of heifer bulls. Redemption R1 has awesome growth with his 400 and 600 day growth weights in the top 15% of the breed. A birth weight of only +3.2 and calving ease daughters in the top 5%. R1 is extremely well put together, with great structural correctness, thickness and width through the hips and pins. We believe Redemption R1 is a wonderful stud sire prospect.

Lot 4 – Little Meadows Rhodes WGAR28

What a bull by our very successful sire Prime Nirvana N33 whose sons topped last year's sale. Rhodes R28 has all three growth EBVs in the top 20%, with a CWT figure in the top 15%. Rhodes is very structurally correct, with a heap of length, great thickness, and a real butt shape. He is a top favourite in this year's sale.

Lot 7 – Little Meadows Royal Flush WGAR65

One of only three Beast Mode sons in this year's sale. Royal Flush R65 is an absolute clinker! We used him to cover mate our stud keeper heifers after they had been AI'd. All three growth EBV's in the top 17%, with a birth weight of only +4.2. He is long, deep and weighs like lead. Both his selection Indexes of \$A +248 and \$A-L +409 are in the top 9%. We believe that Royal Flush R65 is a top stud sire prospect.

Lot 8 – Little Meadows Roosevelt WGAR36

R36 is another of the Beast Mode B074 son's and out of a top donor cow, Coonamble G48. All growth EBV's are in the top 11%. Roosevelt is very thickly made with a heap of length and very good structure. He will sire heavy steers and very nice keeper heifers. Don't miss this fella!

Lot 10 – Little Meadows Red Ochre WGAR3

Red Ochre is sired by Te Mania Newly N549 and is a true heifer bull with stud sire potential. A birth weight of +3.1, 400 and 600 day growth EBV's in the top 25%, combined that with a CWT figure of +75 (top 20%), makes him a true curve bender sire. He is smooth shouldered with a soft muscle pattern and a great butt profile.

Lot 15 – Little Meadows Rhinestone WGAR44

Our front and back cover pin up boy by Te Mania Newly N549. A great heifer bull with a birth weigh of +2.6 and an EMA figure of +9.0 which puts him in the top 13%. Rhinestone is an absolute meat machine, with a butt profile and jump muscle along his spin which is second to none. He will sire small calves that grow very quickly. The dams' side of his pedigree comes from the heart of our breeding program.

Lot 19 – Little Meadows Rottweiler WGAR25

Rottweiler R25 is a typical example of the Prime Nirvana N33 sons and daughters which are simply top class. R25 has it all, with great thickness, length, and muscle expression. His three growth traits are in the top 20% for the breed, EMA of +9.4 (top 11%), CWT of +87 (top 4%) and RBY of +1.8 (top 8%). These arithmetic's make him a sire for heavy weight steers and heifers that will make top class, future breeders. R25 is the real deal!

Lot 32 – Little Meadows Raw Power WGAR108

His name says it all. A true growth bull with tremendous depth, thickness and muscle. A high growth weight bull with a very sensible mature cow weight. A high fertility bull with a scrotal EBV's of +3.7 (top 7%), and actual measurement of 50cm. If you want weight in your steers, this is the bull for you!

Lot 54 – Little Meadows Admiral WGAR148

Our lead off bull from the younger mob, and what a bull to lead the young boys! We think extremely highly of this fantastic young sire prospect who is the first son of Little Meadows Pavlich P2, a true sire of sires. Rear Admiral R148 has a low birth weight of +3.8, high growth, with a sensible mature cow weight. His dam, Little Meadows Edwina H5 is one of our top Chisum 6175 daughters who always breeds one of the best calves every year. R148 is smooth shouldered, with a soft muscle pattern and great butt profile. He is long, thick, deep, and very structurally correct in his body and on his feet and legs. He's certainly a sale favourite of ours.
