Martindale Angus guarantees breeding bulls from the date of purchase against loss of fertility due to structural failure of the bull for a period of 12 months. Example corkscrew penis or bad feet.

This guarantee does not however cover broken penises, prolapsed prepuce and broken legs etc. In the unlikely event of a less than acceptable mating outcome, the bull will be assessed by a veterinarian chosen by Martindale Angus and if the bull is found to be the cause of the infertility, then compensation will be offered in the form of:

- Replacement with an equivalent bull to the mutual agreement of both the vendor and purchaser, or if replacement is not possible;
- The purchaser price will receive a credit for future purchases, equal to the original purchase price less the salvage value of the bull. The original purchaser of the bull is the only eligible party to claim a credit.
