# SALE INFORMATION

## BULL VIEWING DAYS

Wednesday 9th & Thursday 10th March 2022, 9am - 1pm

On Property 93 Creeds Rd Murrindindi Victoria

Sale bulls are available for inspection at other times by appointment, phone Tom 0434 146 795.

## SELLING SYSTEM

Sale of animals will be conducted as a simultaneous Auction over 2 days under AuctionsPlus terms and conditions. Please ensure to register with AuctionsPlus if you are considering making a purchase.

**AuctionsPlus Sale Enquiries:**

Office P: (02) 9262 4222

**Contact:**

Jock Menzies E: [jmenzies@auctionsplus.com.au](mailto:jmenzies@auctionsplus.com.au)

## SELLING PERIOD

Starting: 1pm Tuesday 8th March 2022

Finishing: 3pm Thursday 10th March 2022. At which point a 60 second timer will appear at the top of the auction. Once this timer hits zero, the auction will conclude.

## CONTACT

Successful purchasers are requested to give written advice to the selling agents Ray White GTSM regarding transport arrangements, agent rebate (3%) and stud transfers at the conclusion of the sale. If you need assistance placing a bid, please contact Ray White GTSM:

**Livestock Agent**

James Brown P: 0419 333 295

Ryan Morris P: 0458 120 605

**Office Administration:**

Jenna McIntyre P: 0409 291 020

E: [livestock.gtsm.nsw@raywhite.com](mailto:livestock.gtsm.nsw@raywhite.com)

**Bull Enquiries:**

Vendors Tom Lawson P: 0434 146795

Olivia Lawson P: 0407 978317

## WELCOME

To the 2022 Paringa autumn bull sale. This is an exciting group of black Angus and Stabilizer® bulls and an opportunity for us to kick the year off 2022 with a quality line up, although a smaller offering than our Spring sale. Please note the selling system will be online only with AuctionsPlus using the buyer friendly simultaneous auction system over 2 days. See below for details.

All sale bulls are analysed on the global \$Profit/Zoetis database, and the majority offered with genomically enhanced EBVs as well as EPDs. As an added quality assurance, the Angus bulls are Sire Verified through Angus Australia. The bulls have passed a comprehensive evaluation, been inspected for structural soundness and fertility. As far as we are aware, Paringa is the only Australian breeding program that has been selecting balanced multi trait genetics for over 15 years with proven and high ranked feed efficiency. We are proud to offer genetics that truly produce more from less, with balanced traits across the board. Bulls are run as cow/calf units in large mobs from a young age, and rotationally grazing on steep hill country with mixed perennial and native pasture. We believe this system produces bulls that get out and work and are

less likely to break down. Consistently we hear reports that Paringa bulls are performing well and getting high preg checks around the country. The yearling advantage does work, they do not tend to “crash” like many 2-year-old bulls do when first going out into the real world to work, and it’s a way to get top genetics into the herd faster.

Special thanks to the team who contribute getting these Paringa bulls from conception to sale day. We’d like to make special mention of 3 individuals who have helped lay the foundations at Paringa for many years. We wish Jim Green, Michael Glasser and Grant Jackson all the best for the future.

We look forward to catching up at a Bull Viewing Day on Wednesday 9th or Thursday 10th March 2022, 9am - 1pm.

All the best,

*Tom & Olivia*

Paringa Mountaneer S5 is a top pick in this sale group. An exciting young sire worthy of a close inspection for stud duties. His dam is one of our best Dusty daughters and S5 is her first calf as a heifer. Big powerful young bull with excellent feet, legs and docility. Strong across the board for his genetic ranking and wrapped in a phenotypically beautiful package. Top 4% \$A Index, top 7% A-L Index. Homo Black, tested free for all 10 genetic conditions.

Top genetic combo of Sydgen Bonus 8084 from a powerful stout GAR Fail Safe 2 year old daughter. We retained R14 as a back up sire. No bull matches him for high carcass value data with low intake, and very high feed: gain prediction. R14 is very quiet and has proven himself to be an active natural service sire. Angus TACE supports his \$Profit prediction with excellent calving ease, growth, fertility, EMA, high marbling & good fat scores. Homo Black.
